Preserving Popular Music Heritage Sarah Baker, 2015-05-01 There is a growing awareness around the world of the pressing need to archive the material remnants of popular music so as to safeguard the national and local histories of this cultural form Current research suggests that in the past 20 or so years there has been an expansion of DIY heritage practice with the founding of numerous DIY popular music institutions archives and museums around the world This edited collection seeks to explore the role of DIY or Pro Am Professional Amateur practitioners of popular music archiving and preservation It looks critically at ideas around DIY preservationism self authorised and unauthorised heritage practice and the DIY institution while also unpacking the potentialities of bottom up community based interventions into the archiving and preservation of popular music s material history With an international scope and an interdisciplinary approach this is an important reference for scholars of popular music heritage studies and cultural studies *The Evolution of Chinese Popular Music* Ya-Hui Cheng, 2023-04-14 Ya Hui Cheng examines the emergence of popular music genres jazz rock and hip hop in Chinese society covering the social underpinnings that shaped the development of popular music in China and Taiwan from imperialism to westernization and from modernization to globalization The political sensitivities across the strait have long eclipsed the discussion of these shared sonic intimacies It was not until the rise of the digital age when entertainment programs from China and Taiwan reached social media on a global scale that audiences realized the existence of this sonic reciprocation Analyzing Chinese pentatonicism and popular songs published from 1927 to the present this book discusses structural elements in Chinese popular music to show how they aligned closely with Chinese folk traditions While the influences from Western genres are inevitable under the phenomenon of globalization Chinese songwriters utilized these Western inspirations to modernize their musical traditions It is a sensitivity for exhibiting cultural identities that enabled popular music to present a unique Chinese global image while transcending political discord and unifying mass cultures across the strait Popular Music, Cultural Politics and Music Education in China Wai-Chung Ho, 2016-12-08 While attention has been paid to various aspects of music education in China to date no single publication has systematically addressed the complex interplay of sociopolitical transformations underlying the development of popular music and music education in the multilevel culture of China Before the implementation of the new curriculum reforms in China at the beginning of the twenty first century there was neither Chinese nor Western popular music in textbook materials Popular culture had long been prohibited in school music education by China s strong revolutionary orientation which feared spiritual pollution by Western cultures However since the early twenty first century education reform has attempted to help students deal with experiences in their daily lives and has officially included learning the canon of popular music in the music curriculum In relation to this topic this book analyses how social transformation and cultural politics have affected community relations and the transmission of popular music through school music education Ho presents music and music

education as sociopolitical constructions of nationalism and globalization Moreover how popular music is received in national and global contexts and how it affects the construction of social and musical meanings in school music education as well as the reformation of music education in mainland China is discussed Based on the perspectives of school music teachers and students the findings of the empirical studies in this book address the power and potential use of popular music in school music education as a producer and reproducer of cultural politics in the music curriculum in the mainland **The Children's World of Learning, 1480-1880.
