The Song-Yuan-Ming Transition in Chinese History Paul Jakov Smith, Richard von Glahn, 2020-03-23 This volume seeks to study the connections between two well studied epochs in Chinese history the mid imperial era of the Tang and Song ca 800 1270 and the late imperial era of the late Ming and Qing 1550 1900 Both eras are seen as periods of explosive change particularly in economic activity characterized by the emergence of new forms of social organization and a dramatic expansion in knowledge and culture The task of establishing

links between these two periods has been impeded by a lack of knowledge of the intervening Mongol Yuan dynasty 1271-1368. This historiographical black hole has artificially interrupted the narrative of Chinese history and bifurcated it into two distinct epochs. This book aims to restore continuity to that historical narrative by filling the gap between mid-imperial and late-imperial China. The contributors argue that the Song-Yuan-Ming transition, early twelfth through the late fifteenth century, constitutes a distinct historical period of transition and not one of interruption and devolution. They trace this transition by investigating such subjects as contemporary impressions of the period, the role of the Mongols in intellectual life, the economy of Jiangnan, urban growth, neo-Confucianism, and local society, commercial publishing, comic drama, and medical learning.

Confucianism and the Succession Crisis of the Wanli Emperor, 1587 Daniel K. Gardner, Mark C. Carnes, 2022-07-01

Confucianism and the Succession Crisis of the Wanli Emperor 1587 is set in the Hanlin Academy in Ming-dynasty China. Most students are members of the Grand Secretariat of the Hanlin Academy, the body of top-ranking graduates of the civil service examination who serve as advisers to the Wanli emperor. Some Grand Secretaries are Confucian purists who hold that tradition obliges the emperor to name his first-born son as successor; others, in support of the most senior of the Grand Secretaries, maintain that it is within the emperor's right to choose his successor; and still others, as they decide this matter among many issues confronting the empire, continue to scrutinize the teachings of Confucianism for guidance. The game unfolds amid the secrecy and intrigue within the walls of the Forbidden City as scholars struggle to apply Confucian precepts to a dynasty in peril.

The Collected Writings of Charles H. Long Charles H. Long, 2018-02-22

Charles H. Long is one of the most influential and pioneering scholars in the study of religion from the past 50 years. This is the first comprehensive collection of his writings, edited by Long himself, and contains 38 pieces, including both published and previously unpublished articles, lectures, an interview, and two book reviews. The foreword is provided by Jennifer Reid, a former student of Long. The collection is divided into four thematic parts: America and the Study of Religion; Theory and Method in the Study of Religion; African American Religion in the United States; Kindling Embers and Sparks. Long's introduction provides much-awaited insight into his reflections on his work, expanding on questions that remained unanswered in his classic and influential text *Significations: Signs, Symbols, and Images in the Interpretation of Images* (1986). In particular, the new introductory essay explores the significance of ellipses, that which is omitted, the projected spaces of the Other, in the study of religion. Considered the preeminent founder and advocate of the study of Black Religion, Long was exploring religion and colonialism and the importance of Afro-American religion as early as the 1960s and early 1970s, and this collection of his thinking, which moves across the formations of religious studies, African diasporic studies, and social and cultural theory, is a must-have addition for any institutional or personal library.
