Foundation,2020-04-22 This book examines China's resource endowment and the country's current exploitation and use of resources and analyzes the main challenges and potential opportunities facing the country. It then discusses how to improve the efficiency with which resources are used by taking a full life cycle approach to resource use. After summing up the evolution of China's policies and systems relating to resources and the environment, this book goes on to study how China's participation in global resource allocation and global resource governance has progressed under its open economy situation as well as challenges facing that participation. Based on all these analyses, the report proposes two targets for managing the total quantities of two specific metrics. That is, it recommends aiming to reach peak consumption of resources and peak emission of pollutants by 2030. In addition, it makes a number of specific policy recommendations.

The China Development Research Foundation (CDRF) is a public foundation initiated by the Development Research Center of the State Council (DRC). Its mission is to advance good governance and public policy to promote economic development and social progress. The Foundation has approached its mandate in a number of ways, including support for evidence-based policy research, leadership training, high-level forums and symposiums to promote economic cooperation and development, and the promotion of responsible public policy. As China continues to move steadily ahead with policy reforms and investments for more inclusive development, the demands for research, transparent and accountable processes, and citizenship engagement are expanding. The Foundation is striving to meet these challenges and to coordinate policy research work which supports the work of government, civil society, and enterprises in furthering equitable development in China.

Privatizing the Land Ivan Szelenyi,2002-09-11 Privatizing the Land provides an overview of reforms in the state socialist agrarian systems, especially during the 1970s and 1980s in Eastern Europe and the Soviet Union. Using empirical evidence, the contributors provide a balanced assessment of how agrarian economies performed in different communist countries. The Soviet and Eastern European experience is contrasted with reforms in China, Vietnam, and Cuba to provide the first comprehensive account of agricultural restructuring after the collapse of communism in Europe and Asia.

The Expanding Roles of Chinese Americans in U.S.-China Relations Peter Koehn,Xiao-Huang Yin,Xiao-huang Yin,2015-02-12 This book addresses the historical and contemporary involvement of Chinese Americans from diverse walks of life in U.S.-China relations. The contributors present new evidence and fresh perspectives on familiar and unfamiliar national and transnational networks, including families, businesspersons, community newspapers, students, lobbyists, philanthropists, and scientists, and consider the likely future impact of such contacts on the most important bilateral relationship at the start of the new millennium. The volume makes a multidisciplinary contribution to understanding the extensive and vital roles and promise of Chinese Americans at this critical juncture in U.S.-China relations and to revealing the importance of migrants as actors in contemporary global politics. The assessments shared by the contributors suggest that the nature and scope of the Chinese American involvement, particularly in global civil society networks, increasingly will determine the outcome of state-to-state relations between the
