Population Control: for & Against, 1973      The War Against Population Jacqueline Rorabeck Kasun, 1999 Challenges the assumption that unchecked human population growth will lead to social and economic disaster      **Population Control**, 1960      **Population Control**, 1973      **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), 1971 First multi year cumulation covers six years 1965 70      **Population Control** Steven Mosher, 2017-07-05 For over half a century policymakers committed to population control have perpetrated a gigantic costly and inhumane fraud upon the human race They have robbed people of the developing countries of their progeny and the people of the developed world of their pocketbooks Determined to stop population growth at all costs those Mosher calls population controllers have abused women targeted racial and religious minorities undermined primary health care programs and encouraged dictatorial actions if not dictatorship They have skewed the foreign aid programs of the United States and other developed countries in an anti natal direction corrupted dozens of well intentioned nongovernmental organizations and impoverished authentic development programs Blinded by zealotry they have even embraced the most brutal birth control campaign in history China s infamous one child policy with all its attendant horrors There is no workable demographic definition of overpopulation Those who argue for its premises conjure up images of poverty low incomes poor health unemployment malnutrition overcrowded housing to justify anti natal programs The irony is that such policies have in many ways caused what they predicted a world which is poorer materially less diverse culturally less advanced economically and plagued by disease The population controllers have not only studiously ignored mounting evidence of their multiple failures they have avoided the biggest story of them all Fertility rates are in free fall around the globe Movements with billions of dollars at their disposal not to mention thousands of paid advocates do not go quietly to their graves Moreover many in the movement are not content to merely achieve zero population growth they want to see negative population numbers In their view our current population should be reduced to one or two billion or so Such a goal would keep these interest groups fully employed It would also have dangerous consequences for a global environment      *Cosmopolitanism and the Development of the International Criminal Court* Jennifer Biedendorf, 2019-08-01 *Cosmopolitanism and the Development of the International Criminal Court* analyzes a set of prominent and competing discourses that emerged in the context of the development and establishment of the International Criminal Court ICC The ICC is the first permanent juridical body designed to prosecute individuals who commit offences including war crimes crimes against humanity and genocide Drawing on scholarship on public memory and human rights the book argues that international law and the international human rights system play a key role for the development of transnational memory discourses and transnational or cosmopolitan subjectivities Despite the International Criminal Court being recognized as a landmark development in global cooperation an examination of key events in the development of the court shows how some state and nonstate actors advance calls for cosmopolitanism while others resist cosmopolitanism to

bolster nation state sovereignty Drawing on the establishment of the International Criminal Court as a case study the book examines several events that continue to shape national and international public discourse The book examines debates that occurred during the drafting process of the international treaty at the United Nations and that led to the groundbreaking inclusion of provisions on gender and sexual violence in the Rome Statute of the ICC in 1998 The analysis discusses the tension between feminist advocates rhetoric and the discourse of anti women s rights actors involved in the treaty making process who resisted such inclusions in international criminal law The book analyzes other key events related to the establishment of the ICC that invoke tensions between competing demands of cosmopolitanism and national sovereignty including advocacy campaigns by nongovernmental organizations working to drum up public support of the institution of the International Criminal Court and the debates surrounding the unprecedented act of the United States unsigning an international treaty In sum this examination of the rhetoric of state and nonstate actors attempting to shape the court according to their visions of global community shows how discourses about international criminal law and human rights are employed not only to advance cosmopolitanism but also to strengthen nationalist discourses **Addressing South Africa's**

**Moral Crisis** Nico Vorster, 2025-08-22 This book attempts to understand and address the psycho social dynamics behind South Africa s moral crisis It describes South Africa as afflicted by state capture violence corruption and the looting of state infrastructure thirty years after the establishment of democracy It then provides a holistic social diagnosis of this problem that integrates the findings of different disciplines into an overall picture of the forces at work in South Africa s collective moral decline Ultimately this book engages with the deeper psycho social phenomena behind South Africa s moral decline arguing that the diagnostic question of why this moral decline has taken place must be answered before turning to the normative question of what ought to happen in this situation Accordingly this book explores themes regarding the innate moral capacities of the human person the effects of need pressures and systemic pressures on ethical decision making and the phenomena of distorted motivational drives and distorted behavioral responses It shows how the framing of virtue centered moral identities might act as buffers against moral disengagement strategies and assist in promoting pro social behavior It then specifies the macro social changes required to create such an ethical social climate The book is of interest to social scientists ethicists behavioral scientists educators theologians and moral philosophers In the end this case study of South Africa shows us more broadly how maintaining public morality and social cohesion is a challenge that most modern societies face **Women and the Political Process in Twentieth-Century Iran** Parvin Paidar, 1997-07-24 In a

challenging and authoritative analysis of the role of Iranian women in the political process Parvin Paidar considers the ways they have been affected by the evolutionary and revolutionary transformations of twentieth century Iran In so doing she demonstrates how political reorganisation has of necessity redefined the position of women and that contrary to the view of conventional scholarship gender issues are fundamental to the political process in contemporary Iran The implications of the

study bear on the broader issues of women in the Middle East and the developing countries generally **Congressional Record** United States. Congress,1967

**The Culture of Hunting in Canada** Jean L. Manore,Dale Miner,2011-11-01 The Culture of Hunting in Canada is about a pivotal but little studied aspect of Canadian history culture and society It covers elements of the history of hunting from the pre colonial period until the present in all parts of Canada featuring essays by practitioners and scholars of hunting and by pro and anti hunting lobbyists The result crosses the boundaries between scholarship and personal reflection and between academia and advocacy The essays collected here address important historical and contemporary issues regarding the culture and practice of hunting Topics include hunting identities conservation and its relationship to hunting tensions between hunters and non hunters and between Aboriginal and non Aboriginal hunting groups hunting ethics debates over hunting practices and regulations animal rights and gun control The discussion involves consideration of the social political and economic context as well as class and racial tensions between sport hunters and subsistence hunters The Culture of Hunting in Canada makes an unprecedented contribution to the study of hunting in Canada and its role in our culture It will appeal to sociologists anthropologists and historians of hunting culture wildlife biologists natural resource managers and environmentalists and not least hunters and anyone interested in the culture of hunting

**Fit to Be Tied** Rebecca M. Kluchin,2009-05-14 The 1960s revolutionized American contraceptive practice Diaphragms jellies and condoms with high failure rates gave way to newer choices of the Pill IUD and sterilization Fit to Be Tied provides a history of sterilization and what would prove to become at once socially divisive and a popular form of birth control During the first half of the twentieth century sterilization tubal ligation and vasectomy was a tool of eugenics Individuals who endorsed crude notions of biological determinism sought to control the reproductive decisions of women they considered unfit by nature of race or class and used surgery to do so Incorporating first person narratives court cases and official records Rebecca M Kluchin examines the evolution of forced sterilization of poor women especially women of color in the second half of the century and contrasts it with demands for contraceptive sterilization made by white women and men She chronicles public acceptance during an era of reproductive and sexual freedom and the subsequent replacement of the eugenics movement with neo eugenic standards that continued to influence American medical practice family planning public policy and popular sentiment
