Population, Development and HIV/AIDS with Particular Emphasis on Poverty, 2005 **Population, Development and HIV** United Nations Department of Economic and Social Affairs. Population Division, 2005 Catholic Theology of Marriage in the Era of HIV and AIDS Emily Reimer-Barry, 2015-04-09 Marriage for Life begins by listening to the lived experiences of Catholic married HIV positive women in order to better understand their struggles The eight women interviewed in Chicago Illinois USA shared their stories of marriage of family life of church involvement and of living with HIV Their candid reflections offer a fresh and grounded perspective on the challenges of living with HIV in a US context After listening to and learning from these women s experiences Reimer Barry constructs a theology of Christian marriage that is life giving in a world with AIDS While Catholic teachings have developed and now affirm the equal dignity of women and men troubling legacies of women s subordination remain embedded in liturgical practices and theological texts Arguing that self care is an indispensable component of a healthy marriage Reimer Barry constructs a life affirming theology of marriage that is sensitive to the struggles of her collaborators She argues that marriage for life must promote the full flourishing of both partners respect wives as equal partners with their husbands and offer a coherent and empowering sexual ethic Building on the wisdom of her collaborators lived experiences Reimer Barry examines the need for a more adequate Catholic response to HIV and AIDS arguing that church communities should promote comprehensive sexual education affirm both abstinence and condom use for HIV prevention and actively work to reduce stigmatizing behaviors within church communities She also unpacks the implications of marriage for life for Catholic liturgical practice marriage preparation programs sexual education programs and family ministries Modeling her method on what Pope Francis calls the art of accompaniment Reimer Barry argues that Catholic theology of marriage must be renewed and updated so that all can plainly understand that marriage is for life *Fragmented Families, Poverty, and Women's Reproductive Narratives in South Africa* Kammila Naidoo, 2009-08-30 *Fragmented Families* addresses a central question in the demographic debates on poverty and fertility transition in southern Africa In what ways do women s recurrent encounters with poverty serve to shape their sexual unions social relationships and reproductive practices The book focuses on the lives of a group of mothers and daughters from fifteen families in a demarcated part of the Winterveld area in South Africa and draws attention to historical socio cultural political and economic concerns in order to place in context or make sense of reproductive dynamics and family life at the micro level Vignettes drawn from fieldwork highlight the particularities of the area the persistence of historical tensions diverse livelihoods and complex gender relationships The intergenerational stories of the women suggest that they live with immense and increasing adversity and that strategies to contend with them sometimes include attempts to assert control over sexual encounters and reproductive outcomes The book contributes to a continuing debate on how changing socio economic conditions could influence prospects for and the nature of fertility transition in African countries The study concurs with alternative

arguments that shifts toward lower levels of fertility might be due in certain contexts to experiences of severe hardship rather than favourable economic circumstances. Instead of seeking security and risk aversion through bearing many children, the response of indigent women in this area has been largely to resist reproduction at particular stages of their lives whilst using sexual relationships and child bearing as strategies to manipulate and secure resources. In reflecting on methodological approaches, the book draws attention to the limitations of survey research in efforts to elicit accurate representations of reproductive behaviour and fertility preferences and emphasises the usefulness of more engaged qualitative and long term fieldwork endeavours in building substantive insights on women's familial and reproductive lives. Governing Global Health Andrew Cooper, 2016-04-22. Recently global health issues have leapt to the forefront of the international agenda and are now an everyday concern around the world. The war for global health is clearly being lost on many fronts and the massive body count is mounting. Fast re-emerging diseases such as polio and tuberculosis, long thought to be on the verge of elimination, are now coupled with the devastation of newly emerging ones such as SARS and avian influenza. In addition, the shock of bioterrorism has given a tragic poignancy to the importance of studying the failure of the global health governance system. Compiled by renowned specialists, this volume studies the global challenges and responses to these issues as well as the roles of central institutions such as the World Health Organization, the World Trade Organization and the G8. Health practitioners and clinicians seeking a context for their front line care provision as well as scholars and students of global health issues will find the volume highly valuable. **Nutrition Management of HIV and AIDS** Kristy M.

Governance and Institutional Re-engineering Ann Marie Bissessar, 2009-03-26. Governance and Institutional Re-engineering comprises a series of thought provoking articles on governance and the institutions of governance. It commences with what amounts to a plea by a well respected academician in the field of Public Administration, Gerald Caiden, in an article entitled 'Towards Cleaner Government'. The book brings together scholars from across the world. In setting out their various perspectives, integrity in public life, women and politics and neighbourhood management among the various themes, the writers demonstrate the range and diversity of debates involved in the governance of any country. The book was certainly successful in presenting an interesting, informed, well written discussion of contemporary challenges and recent discussions in the field of government and public administration. **From microscope to kaleidoscope**, 2008-01-01. What new understandings concerning children and significant others in their life worlds have become apparent because of the HIV/AIDS pandemic?
