Populist Persuasion An American History:

The Populist Persuasion Michael Kazin, 1998-10-29 Traces the history of populism in the United States from the time of Thomas Jefferson to the era of Bill Clinton *The Populist Persuasion* Michael Kazin, 2014-10-29 Kazin has written a thoughtful and important book on one of the more consequential movements in American politics populism Tracing the emergence of populist campaigns from the 19th century to the present day he looks at such movements as the labor movement the prohibitionist crusade Catholic radio populist Father Coughlin the New Left and the recent advance of conservative populism as identified with such figures as George Wallace and Ronald Reagan Kazin opens by saying I began to write this book as a way of making sense of a painful experience the decline of the American Left including its liberal component and the rise of the Right Anyone interested in either political tendency will find this book both informative and engaging It is a powerful elegantly written and observant study that never fails to retain the reader's interest Library Journal For the revised Cornell edition Michael Kazin has rewritten the final chapter bringing his coverage of American populism up to the 1996 presidential election and he has added a new conclusion *The Anti-Oligarchy Constitution* Joseph Fishkin, William E. Forbath, 2022-01-11 A bold call to reclaim an American tradition that argues the Constitution imposes a duty on government to fight oligarchy and ensure broadly shared wealth Oligarchy is a threat to the American republic When too much economic and political power is concentrated in too few hands we risk losing the republican form of government the Constitution requires Today courts enforce the Constitution as if it has almost nothing to say about this threat But as Joseph Fishkin and William Forbath show in this revolutionary retelling of constitutional history a commitment to prevent oligarchy once stood at the center of a robust tradition in American political and constitutional thought Fishkin and Forbath demonstrate that reformers legislators and even judges working in this democracy of opportunity tradition understood that the Constitution imposes a duty on legislatures to thwart oligarchy and promote a broad distribution of wealth and political power These ideas led Jacksonians to fight special economic privileges for the few Populists to try to break up monopoly power and Progressives to fight for the constitutional right to form a union During Reconstruction Radical Republicans argued in this tradition that racial equality required breaking up the oligarchy of slave power and distributing wealth and opportunity to former slaves and their descendants President Franklin Roosevelt and the New Dealers built their politics around this tradition winning the fight against the economic royalists and industrial despots But today as we enter a new Gilded Age this tradition in progressive American economic and political thought lies dormant The Anti Oligarchy Constitution begins the work of recovering it and exploring its profound implications for our deeply unequal society and badly damaged democracy *Populists and Progressives* Norman K. Risjord, 2005 Representative Americans Populists and Progressives brings together brief biographies to explore the political social and cultural dimensions of the period from 1890 1920 Through the lives and accomplishments of these reformers crusaders and thinkers readers gain a fascinating glimpse

into the tumultuous turn of the twentieth century **American Credo** Michael Foley, 2007-09-13 If America has a claim to exceptionalism American Credo locates it in a little understood ability to engage in deep conflicts over political ideas while at the same time reducing adversarial positions to legitimate derivatives of American history and development *Talking American History* Ron Briley, 2020-07-02 Offering an alternative to encyclopedic textbooks that confirm Henry Ford's complaint that the study of history is just one damned thing after another it provides an informal and conversational narrative history of the American experience from the Colonial period to the present day Above all history is a story and the story of America is a complicated and contested tale Rather than simply the exceptionalism of a shining city upon a hill the American saga includes a dark stain of prejudice and nativism still present within the national fabric Beginning with the assault upon Native lands and culture along with the introduction of racial slavery patterns of exploitation and greed fostering gender racial and class inequality are an essential part of America's story Themes of prejudice and inequality however are offset by the promise of social justice and an egalitarian America outlined by Thomas Jefferson's Declaration of Independence Elizabeth Cady Stanton's Seneca Falls Declaration of Principles Abraham Lincoln's Gettysburg Address Franklin D Roosevelt's The Four Freedoms and Martin Luther King Jr's I Have a Dream oratory While considering topics such as Presidential leadership *Talking American History* emphasizes the efforts of American reformers dreamers freedom fighters dissenters radicals and workers to move the nation toward the democratic promise laid out in its founding documents The framework is a traditional political history narrative told from a progressive perspective This is an interpretation with which not all readers will agree but the intention is to facilitate dialogue and debate that are imperative for the survival of American democracy *The Oxford Handbook of Populism* Cristóbal Rovira Kaltwasser, Paul A. Taggart, Paulina Ochoa Espejo, Pierre Ostiguy, 2017-11-09 Populist forces are becoming increasingly relevant across the world and studies on populism have entered the mainstream of the political science discipline However so far no book has synthesized the ongoing debate on how to study the populist phenomenon This handbook provides state of the art research and scholarship on populism and lays out not only the cumulated knowledge on populism but also the ongoing discussions and research gaps on this topic The Oxford Handbook of Populism is divided into four sections The first presents the main conceptual approaches on populism and points out how the phenomenon in question can be empirically analyzed The second focuses on populist forces across the world and includes chapters on Africa Australia and New Zealand Central and Eastern Europe East Asia India Latin America the Post Soviet States the United States and Western Europe The third reflects on the interaction between populism and various relevant issues both from a scholarly and political point of view Amongst other issues chapters analyze the relationship between populism and fascism foreign policy gender nationalism political parties religion social movements and technocracy Finally the fourth part includes some of the most recent normative debates on populism including chapters on populism and cosmopolitanism constitutionalism hegemony the history of popular sovereignty the idea of the people and socialism The

handbook features contributions from leading experts in the field and is indispensable positioning the study of populism in political science

The Routledge History of Religion and Politics in the United States Since 1775 Cara Lea Burnidge, Lauren Frances Turek, 2024-12-30 Drawing together history and recent historiography this volume offers a reference work for understanding how religion influenced politics and how politics shaped religion in the United States from the American Revolution through to the present day The book brings together some of the most well regarded scholars in history religious studies American studies political science and other disciplines working in this field providing a groundbreaking transdisciplinary history of this topic It explores the major themes and historiographical trends that animate current scholarship ensuring that readers come away with a thorough picture of the field how it has evolved and where future scholars might take us This unique approach is well suited to students and scholars of both U S history and religious studies and encourages interdisciplinary analysis for the fields of religion and politics

Visions of Progress Doug Rossinow, 2009-11-19 Rossinow revisits the period between the 1880s and the 1940s when reformers and radicals worked together along a middle path between the revolutionary left and establishment liberalism He takes the story up to the present showing how the progressive connection was lost and explaining the consequences that followed

[The Routledge History of Nineteenth-Century America](#) Jonathan Daniel Wells, 2017-09-14 The Routledge History of Nineteenth Century America provides an important overview of the main themes within the study of the long nineteenth century The book explores major currents of research over the past few decades to give an up to date synthesis of nineteenth century history It shows how the century defined much of our modern world focusing on themes including immigration slavery and racism women s rights literature and culture and urbanization This collection reflects the state of the field and will be essential reading for all those interested in the development of the modern United States

Encyclopedia of Populism in America Alexandra Kindell, Elizabeth S. Demers Ph.D., 2014-02-27 This comprehensive two volume encyclopedia documents how Populism which grew out of post Civil War agrarian discontent was the apex of populist impulses in American culture from colonial times to the present The Populist Movement was founded in the late 1800s when farmers and other agrarian workers formed cooperative societies to fight exploitation by big banks and corporations Today Populism encompasses both right wing and left wing movements organizations and icons This valuable encyclopedia examines how ordinary people have voiced their opposition to the prevailing political economic and social constructs of the past as well how the elite or leaders at the time have reacted to that opposition The entries spotlight the people events organizations and ideas that created this first major challenge to the two party system in the United States Additionally attention is paid to important historical actors who are not traditionally considered Populist but were instrumental in paving the way for the movement or vigorously resisted Populism s influence on American culture This encyclopedia also shows that Populism as a specific movement and populism as an idea have served alternately to further equal rights in America and to limit them

Working-class Hollywood

Steven J. Ross, 2000-01-03 The outcome of these battles was critical to our own times for the victors got to shape the meaning of class in twentieth century America **The Routledge Companion to Management and Organizational History**

Patricia Genoe McLaren, Albert J. Mills, Terrance G. Weatherbee, 2015-05-15 The field of management and organizational history has reached a level of maturity that means an overview is long overdue Written by a team of globally renowned scholars this comprehensive companion analyses management and organizational history reflecting on the most influential periods and highlighting gaps for future research From the impact of the Cold War to Global Warming it examines the field from a wide array of perspectives from humanities to the social sciences Covering the entire spectrum of the field this volume provides an essential resource for researchers of business and management **Obama, Clinton, Palin** Liette

Gidlow, 2011-12-15 Election 2008 made American history but it was also the product of American history Barack Obama Hillary Clinton and Sarah Palin smashed through some of the most enduring barriers to high political office but their exceptional candidacies did not come out of nowhere In these timely and accessible essays a distinguished group of historians explores how the candidates both challenged and reinforced historic stereotypes of race and sex while echoing familiar themes in American politics and exploiting new digital technologies Contributors include Kathryn Kish Sklar on Clinton's gender masquerade Tiffany Ruby Patterson on the politics of black anger Mitch Kachun on Michelle Obama and stereotypes about black women's bodies Glenda E Gilmore on black women's century of effort to expand political opportunities for African Americans Tera W Hunter on the lost legacy of Shirley Chisholm Susan M Hartmann on why the U S has not yet followed western democracies in electing a female head of state Melanie Gustafson on Palin and the political traditions of the American West Ronald Formisano on the populist resurgence in 2008 Paula Baker on how digital technologies threaten the secret ballot Catherine E Rymph on Palin's distinctive brand of political feminism and Elisabeth I Perry on the new look of American leadership **Epistolary Selves** Rebecca Earle, 2016-12-05 This volume of ten essays discusses the pivotal role that letters have played in social economic and political history from the seventeenth to the twentieth century The recent scholarly interest in the history of reading has as yet yielded few studies which consider letters as a category of readable material The contributors to this book seek to redress this oversight viewing letters as texts which can reveal information not only about their writers and readers but about the wider historical context in which they were written Topics covered include the mercantile letter diplomatic correspondence and what these epistolary forms suggest about the rise of a polite literate culture in the eighteenth century the experience of immigration from Europe to America during the nineteenth and twentieth centuries the relationship through the letter and the working of gender in the epistolary form Rebecca Earle provides an overview of how the study of letter writing can open up new avenues of historical as well as literary investigation This together with contributions from leading international scholars makes Epistolary Selves an essential text for those researching the letter genre **The Naked Communist** Roland Végső, 2012-12-10 The Naked

Communist argues that the political ideologies of modernity were fundamentally determined by four basic figures the world the enemy the secret and the catastrophe While the world names the totality that functioned as the ultimate horizon of modern political imagination the three other figures define the necessary limits of this totality by reflecting on the limits of representation The book highlights the enduring presence of these figures in the modern imagination through detailed analysis of a concrete historical example American anti Communist politics of the 1950s Its primary objective is to describe the internal mechanisms of what we could call an anti Communist aesthetic ideology The book thus traces the way anti Communist popular culture emerged in the discourse of Cold War liberalism as a political symptom of modernism Based on a discursive analysis of American anti Communist politics the book presents parallel readings of modernism and popular fiction from the 1950s nuclear holocaust novels spy novels and popular political novels in order to show that despite the radical separation of the two cultural fields they both participated in a common ideological program *The Other Founders* Saul Cornell,2012-12-01 Fear of centralized authority is deeply rooted in American history The struggle over the U S Constitution in 1788 pitted the Federalists supporters of a stronger central government against the Anti Federalists the champions of a more localist vision of politics But argues Saul Cornell while the Federalists may have won the battle over ratification it is the ideas of the Anti Federalists that continue to define the soul of American politics While no Anti Federalist party emerged after ratification Anti Federalism continued to help define the limits of legitimate dissent within the American constitutional tradition for decades Anti Federalist ideas also exerted an important influence on Jeffersonianism and Jacksonianism Exploring the full range of Anti Federalist thought Cornell illustrates its continuing relevance in the politics of the early Republic A new look at the Anti Federalists is particularly timely given the recent revival of interest in this once neglected group notes Cornell Now widely reprinted Anti Federalist writings are increasingly quoted by legal scholars and cited in Supreme Court decisions clear proof that their authors are now counted among the ranks of America s founders The Enchantments of Mammon Eugene McCarragher,2019-11-12 An extraordinary work of intellectual history as well as a scholarly tour de force a bracing polemic and a work of Christian prophecy McCarragher challenges more than 200 years of post Enlightenment assumptions about the way we live and work The Observer At least since Max Weber capitalism has been understood as part of the disenchantment of the world stripping material objects and social relations of their mystery and magic In this magisterial work Eugene McCarragher challenges this conventional view Capitalism he argues is full of sacrament whether one is prepared to acknowledge it or not First flowering in the fields and factories of England and brought to America by Puritans and evangelicals whose doctrine made ample room for industry and profit capitalism has become so thoroughly enmeshed in the fabric of our society that our faith in the market has become sacrosanct Informed by cultural history and theology as well as management theory The Enchantments of Mammon looks to nineteenth century Romantics whose vision of labor combined reason creativity and mutual aid for salvation In this impassioned challenge to

some of our most firmly held assumptions McCarragher argues that capitalism has hijacked our intrinsic longing for divinity and urges us to break its hold on our souls A majestic achievement It is a work of great moral and spiritual intelligence and one that invites contemplation about things we can't afford not to care about deeply Commonwealth More brilliant more capacious and more entertaining page by page than his most ardent fans dared hope The magnitude of his accomplishment an account of American capitalism as a religion will stun even skeptical readers Christian Century Interdisciplinary Reflections on South Asian Transitions Bhabani Shankar Nayak, Debadrita Chakraborty, 2023-09-07 This book presents an interdisciplinary understanding of the social and economic drivers of far right politics in South Asia In response to the growth of xenophobia reactionary nationalism authoritarianism and aggressive leadership in the region it examines both the religious and economic conditions that have encouraged far right populism and the profit driven capitalist systems it produces The book also delves into the unique histories of South Asia along with the region's religious and cultural traditions to provide context for broader economic and political trends and shed light on the consolidation of wealth and growing inequality The book thoroughly explores the economic and political transformation of South Asia resulting from far right populism making it a valuable resource for students and researchers in the fields of political economy and South Asian studies

The "special Relationship" Aïssatou Sy-Wonyu, Antoine Capet, La relation spéciale entre le Royaume Uni et les tats Unis Colloque tenu l universit de Rouen 8 et 9 nov 2002 Le colloque a trait de la question de civilisation britannique de l agr gation d anglais 2003 2004 La relation sp ciale Royaume Uni tats Unis 1945 1990 entre mythe et r alit Les organisateurs ont voulu donner une dimension v ritablement internationale et pluridisciplinaire au colloque en y invitant des personnalit s de notori t mondiale dans leur domaine la juxtaposition de leurs analyses et la confrontation de leurs interpr tations appuy es sur les meilleures sources apportent une contribution remarquable au th me d battu

The Engaging World of Kindle Books: A Detailed Guide Unveiling the Pros of Kindle Books: A World of Convenience and Flexibility Kindle books, with their inherent mobility and simplicity of availability, have freed readers from the limitations of physical books.
