Being Possible Stephen Dozeman,2020-12-16 In April 2019 Canadian psychologist Jordan B Peterson sat down with Slovenian philosopher and psychoanalyst Slavoj i ek for a debate that would collect higher ticket prices than the local Toronto Maple Leafs game The debate was considered by many to be something of a dud with both figures largely appearing to talk past each other but to ignore it would be a mistake Instead the fact that a major public event put the Communist vs Capitalist question back into play speaks to larger cultural trends that are occurring an old consensus seems to be bursting at the seams and it s unclear if the center will hold or be moved Taking on the existentialism of Martin Heidegger as their starting point Stephen Dozeman argues that understanding this debate means starting with the individual subject and understanding its increasingly confused and precarious place in a disenchanted world Wandering in between philosophical theory history popular culture and back to philosophy again this book tries to explore why so many feel compelled to call ancient wisdom into question and what it might mean to take responsibility for our lives

Spaces of Spirituality Nadia Bartolini,Sara MacKian,Steve Pile,2018-02-15 Spirituality is too often subsumed under the heading of religion and treated as much the same kind of thing Yet spirituality extends far beyond the spaces of religion The spiritual makes geography strange challenging the relationship between the known and the unknown between the real and the ideal and prompting exciting possibilities for charting the ineffable spaces of the divine which lie somehow beyond geography In setting itself that task this book pushes the boundaries of geographies of religion to bring into direct focus questions of spirituality By seeing religion through the lens of practice rather than as a set of beliefs geographies of religion can be interpreted much more widely bringing a whole range of other spiritual practices and spaces to light The book is split into three sections each contextualised with an editors introduction to explore the spaces of spiritual practice the spiritual production of space and spiritual transformations This book intends to open up new questions and approaches through the theme of spirituality pushing the boundaries on current topics and introducing innovative new ideas including esoteric or radical spiritual practices This landmark book not only captures a significant moment in geographies of spirituality but acts

as a catalyst for future work *Kubrick's Hope* Julian Rice, 2008-09-29 There have been two common assumptions about Stanley Kubrick that his films portray human beings who are driven exclusively by aggression and greed and that he pessimistically rejected meaning in a contingent postmodern world However as Kubrick himself remarked A work of art should be always exhilarating and never depressing whatever its subject matter may be In this new interpretation of Kubrick's films Julian Rice suggests that the director's work had a more positive outlook than most people credit him And while other studies have recounted Kubrick's life and production histories few have offered lucid explanations of specific sources and their influence on his films In *Kubrick's Hope* Rice explains how the theories of Freud and Jung took cinematic form and also considers the significant impression left on the director's last six films by Robert Ardrey Bruno Bettelheim and Joseph Campbell In addition to providing useful contexts Rice offers close readings of the films inviting readers to note details they may have missed and to interpret them in their own way By refreshing their experience of the films and discarding postmodern clichés viewers may discover more optimistic themes in the director's works Beginning with 2001 A Space Odyssey and continuing through A Clockwork Orange Barry Lyndon The Shining Full Metal Jacket and Eyes Wide Shut Rice illuminates Kubrick's thinking at the time he made each film Throughout Rice examines the compelling political psychological and spiritual issues the director raises As this book contends if these works are considered together and repeatedly reviewed Kubrick's films may help viewers to personally grow and collectively endure The Courage to Love: Principles and Practices of Self-Relations Psychotherapy Stephen Gilligan, 1997-05-17 This is a book about how psychotherapy may be used to cultivate the courage and freedom to love In a time when love seems to be fading and hatred and despair rising it presents love as a skill and force that can heal and invigorate reconnect and guide calm and encourage In Gilligan's self relations approach psychotherapy is a conversation about competing differences When these differences are treated violently or indifferently problems arise solutions develop when the skills of love are practiced Those practical skills are described here with an emphasis on postconventional ethics Buddhist and aikido principles and ideas of human sponsorship
