The Mongol Archive in Late Medieval France Mark Cruse, 2025-02-15 The Mongol Archive in Late Medieval France is the first comprehensive study of contact between France and the Mongols in the late Middle Ages As these realms expanded across Eurasia the French through crusade and settlement the Mongols through conquest their encounters altered each other's understanding of the world and their place in it The Mongol influence on French culture is visible in what Mark Cruse calls the Mongol archive a wide range of materials including chronicles crusade treatises encyclopedias manuscript illuminations maps romances and travel accounts revealing how the French court made sense of a people previously unknown to the European intellectual tradition Cruse mines this archive of Franco Mongol contact to reassess France's place in the continental history of medieval Eurasia By comparing the French and Mongol courts Cruse shows how their similarities allowed meaningful communication between them and highlights the surprising connections diplomatic intellectual and genealogical across vast distances The library of King Charles V r 1364 1380 one of the largest in medieval Europe is a monument to the richness of these encounters which anticipate the global interconnectedness of the modern world Ultimately the innovative approach in *The Mongol Archive in Late Medieval France* toward French conceptions of and relations with the Mongols demonstrates how a global perspective transforms our understanding of the medieval world

Decisions of the Commission. Report United States. Federal Communications Commission, 1938 *Portable Prose* Jarrad Cogle, N. Cyril Fischer, Lydia Saleh Rofail, Vanessa Smith, 2018-11-09 *Portable Prose* The Novel and the Everyday examines the novel as a privileged site for representing the everyday as well as a physical object that occupies public and private space This collection interrogates the relationships between these differing aspects of the novel's existence negotiating the boundaries between the material world subjective experience and strategies of representation This collection offers a wide array of innovative novelistic explorations with a focus ranging from nineteenth century fiction to contemporary literary theory and explores the portability of novels as both physical things and virtual hermeneutic devices While mimetic qualities of prose remain an integral consideration for literary interpretation this collection argues for more diverse frameworks ones that see aesthetic components of the novel in close connection with reading practices shared structures of feeling and the corporeal In this capacity this volume will argue for readings of texts that consider the capacity for literary culture to move through the world but also to make it or re make it new **Port Series**, 1936 **The portable commentary. The holy Bible. With marginal references, and explanatory notes, selected from the most distinguished biblical writers, by I. Cobbin** Ingram Cobbin, 1846 The Portable Folio Family Bible Walter M'Gilvray, 1851 **Popular Mechanics**, 1906 The Portable Walt Whitman Walt Whitman, 2003-12-30 A comprehensive collection of Whitman's most beloved works of poetry prose and short stories When Walt Whitman self published *Leaves of Grass* in 1855 it was a slim volume of twelve poems and he was a journalist and poet from Long Island little known but full of

ambition and poetic fire To give a new voice to the new nation shaken by civil war he spent his entire life revising and adding to the work but his initial act of bravado in answering Ralph Waldo Emerson's call for a national poet has made Whitman the quintessential American writer This rich cross section of his work includes poems from throughout Whitman's lifetime as published on his deathbed edition of 1891 short stories his prefaces to the many editions of *Leaves of Grass* and a variety of prose selections including *Democratic Vistas* *Specimen Days* and *Slang in America* For more than seventy years Penguin has been the leading publisher of classic literature in the English speaking world With more than 1 700 titles Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors as well as up to date translations by award winning translators

A Flame Called Indiana Doug Paul Case, 2023-07-04 As Kurt Vonnegut Indiana's most famous writer once remarked Wherever you go there is always a Hoosier doing something important there *A Flame Called Indiana* features 65 writers of fiction nonfiction and poetry who have all had the pleasure of being Hoosiers at one time or another Curated by the Indiana University Bloomington creative writing department this diverse anthology features everything from the immigrant experience to the Indianapolis 500 to science fiction Altogether the work stands testament to the vibrancy and creativity of this Midwest state An excellent gift for your favorite reader and an important resource for creative writers *A Flame Called Indiana* serves as both a chronicle of where Indiana's writing is today and a beacon to those who'll take it where it's going next

Works Issued by the Hakluyt Society, 1927 Italo
Calvino's Architecture of Lightness Letizia Modena, 2011-05-09 This study recovers Italo Calvino's central place in a lost history of interdisciplinary thought politics and literary philosophy in the 1960s Drawing on his letters essays critical reviews and fiction as well as a wide range of works primarily urban planning and design theory and history circulating among his primary interlocutors this book takes as its point of departure a sweeping reinterpretation of *Invisible Cities* Passages from Calvino's most famous novel routinely appear as aphorisms in calendars posters and the popular literature of inspiration and self help reducing the novel to vague abstractions and totalizing wisdom about thinking outside the box The shadow of postmodern studies has had a similarly diminishing effect on this text rendering up an accomplished but ultimately apolitical novelistic experimentation in endless deconstructive deferrals the shiny surfaces of play and the ultimately rigged game of self referentiality In contrast this study draws on an archive of untranslated Italian and French language materials on urban planning architecture and utopian architecture to argue that Calvino's novel in fact introduces readers to the material history of urban renewal in Italy France and the U S in the 1960s as well as the multidisciplinary core of cultural life in that decade the complex and continuous interplay among novelists and architects scientists and artists literary historians and visual studies scholars His last love poem for the dying city was in fact profoundly engaged deeply committed to the ethical dimensions of both architecture and lived experience in the spaces of modernity as well as the resistant practices of reading

and utopian imagining that his urban studies in turn inspired *Empty Cities of the Full Moon* Howard V. Hendrix, 2002-08-06 Venturing into a universe different from where his previous novels *Lightpaths* *Standing Wave* and *Better Angels* were set Howard V Hendrix tackles one of life's most enduring questions What does it mean to be human In a dramatically altered near future the world's newest technology resurrects a plague of apparent global madness that not only destroys ten thousand years of urban civilization but also creates a world under the sway of the full moon and a human race transformed in astonishing ways *Compliance Status of Major Air Pollution Facilities* United States. Environmental Protection Agency. Office of Enforcement, 1978 *Travels of Fray Sebastien Manrique 1629-1643* H. Hosten, 2010-07-28 Continued from Second Series 59 This is a the ebook edition of the volume first published in 1927 *Report. Telegraph Division* United States. Federal Communications Commission, *On Blue's Waters* Gene Wolfe, 2007-04-01 *On Blue's Waters* is the start of a major new work by Gene Wolfe the first of three volumes that comprise *The Book of the Short Sun* which takes place in the years after Wolfe's four volume *Book of the Long Sun* Horn the narrator of the earlier work now tells his own story Though life is hard on the newly settled planet of Blue Horn and his family have made a decent life for themselves But Horn is the only one who can locate the great leader Silk and convince him to return to Blue and lead them all to prosperity So Horn sets sail in a small boat on a long and difficult quest across the planet Blue in search of the now legendary Patera Silk The story continues in *In Green's Jungles* and *Return to the Whorl* By any standard Wolfe's beautifully composed meditative thrilling and tricky beyond belief science fantasy is a work of the highest art *The Washington Post Book World* At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied

Decisions of the Commission United States. Federal Communications Commission, 1939 **China—Art—Modernity** David Clarke, 2019-01-22 *China Art Modernity* provides a critical introduction to modern and contemporary Chinese art as a whole It illuminates what is distinctive and significant about the rich range of art created during the tumultuous period of Chinese history from the end of Imperial rule to the present day The story of Chinese art in the twentieth and twenty first centuries is shown to be deeply intertwined with that of the country's broader socio political development with art serving both as a tool for the creation of a new national culture and as a means for critiquing the forms that culture has taken The book's approach is inclusive In addition to treating art within the Chinese Mainland itself during the Republican and Communist eras for instance it also looks at the art of colonial Hong Kong Taiwan and the Chinese diaspora Similarly it gives equal prominence to artists employing tools and idioms of indigenous Chinese origin and those who engage with international styles and contemporary media In this way it writes China into the global story of modern art as a whole at a moment in intellectual history when Western centred stories of modern and contemporary culture are finally being recognized as parochial and inadequate Assuming no previous background knowledge of Chinese history and culture this concise yet comprehensive and richly illustrated book will appeal to those who already have an established interest in

modern Chinese art and those for whom this is a novel topic It will be of particular value to students of Chinese art or modern art in general but it is also for those in the wider reading public with a curiosity about modern China At a time when that country has become a major actor on the world stage in all sorts of ways accessible sources of information concerning its modern visual culture are nevertheless surprisingly scarce As a consequence a fully nuanced picture of China s place in the modern world remains elusive China Art Modernity is a timely remedy for that situation Here is a book that offers a comprehensive account of the dizzying transformations of Chinese art and society in the twentieth and twenty first centuries Breaking free of conventional dichotomies between traditional and modern Chinese and Western that have hobbled earlier studies Clarke s highly original book is exactly what I would assign my own students Anyone eager to understand developments in China within the global history of modern art should read this book Robert E Harrist Jr Columbia University

Clarke s book presents a critically astute mapping of the arts of modern and contemporary China It highlights the significance of urban and industrial contexts migration diasporas and the margins of the mainland while imaginatively seeking to inscribe its subject into the broader story of modern art A timely and reliable intervention and indispensable for the student and non specialist reader Shane McCausland SOAS University of London Music and Urban Society in Colonial Latin America Geoffrey Baker,Tess Knighton,2011 Representing pioneering research essays in this collection investigate musical developments in the urban context of colonial Latin America *The Ports on the Upper Hudson River* United States. Board of Engineers for Rivers and Harbors,1936

Fuel your quest for knowledge with is thought-provoking masterpiece, Explore **Portable City** .
