The Portable MBA in Entrepreneurship Case Studies William D. Bygrave, Dan D'Heilly, 1997-06-23. The crucial link between theory and practice. In *The Portable MBA in Entrepreneurship Case Studies*, you'll meet people who have used the business theories and practices presented in *The Portable MBA in Entrepreneurship* to start and run their own entrepreneurial ventures. You'll get a real sense of what it takes to conceive, develop, finance and operate a business and how particular elements such as business plans and financial forecasts function in the real world. These case studies cover a broad variety of service and product industries: retail, wholesale, mail order and Internet. You'll discover the trials and rewards of starting a travel agency, launching a new glass cleaning product, setting up a fashion Web site and selling women's hosiery through direct mail. Other studies cover ventures in the computer industry, the restaurant business, automobile service franchising and business consulting. Each case study is illustrated with exhibits, financial statements, business plans, sample contracts and more, and many are supplemented with end-of-chapter questions that help you analyze the viability of each entrepreneurial venture and test your ability to respond to the challenges you'll face in pursuit of your own entrepreneurial dreams.

The Portable MBA in Entrepreneurship William D. Bygrave, 1997-02-27. This book covers everything that the sophisticated entrepreneur needs to know to start and run an entrepreneurial venture effectively. The updated second edition includes a chapter on entrepreneurship and the Internet.

The Portable MBA in Management Allan R. Cohen, 2002-08-12. Insights on management, leadership and effective organizations from the experts at the best business schools. Skills and strategies for leading any organization to success, comprehensive, up-to-date and better than ever. When the speculative bubble burst in 2000, it exposed a weakness in many firms: too much financial engineering and too little leadership and management. I strongly recommend this book to those managers who want to learn how to run well-managed organizations capable of weathering the inevitable turbulence brought about by intensive competition and rapid changes in markets and technology. In one book, highly regarded experts in the field of management provide you with the essential lessons you will need to succeed as a leader and manager. Michael Beer, Cahners Rabb Professor of Business Administration, Emeritus, Harvard Business School, and author of *The Critical Path to Corporate Renewal*. For managers to be effective in today's complex world, they need to be learners as well as leaders. In this remarkable volume, a world-class collection of professors provides a curriculum for continuous management learning that combines leading-edge theory with practical advice. Every manager, from supervisor to CEO, should keep this book close at hand.
