Rhetoric of Revolt Peter A. DeCaro, 2003-02-28 The success of Vietnam's August Revolution of 1945 can be attributed in part to Ho Chi Minh's reconstitutive rhetoric a form of rhetorical discourse that gave the Vietnamese people a new sense of identification This reawakened identity in turn influenced a renewed demand for nationalism and independence This study explores the reconstitutive rhetoric of Ho Chi Minh In doing so it advances rhetorical theory founded on nonWestern premises and examines the cultural differences responsible for creating a rhetoric whose focus is nonEurocentric Most current thinking on reconstitutive discourse has focused on Western premises Decaro challenges some of these premises and adds a new dimension to reconstitutive understanding Ho Chi Minh utilized the cultural heritage of the Vietnamese people as a means of creating his persona a powerful aspect of his ability to persuade In

understanding Ho Chi Minh's unique form of discourse it is then possible to see how he was able to unify his country in order to sustain a protracted conflict with the goal of securing national independence

Government Leaders, Military Rulers and Political Activists David W. Del Testa, 2014-01-27 In each volume an introductory essay outlines the history of the disciplines under discussion and describes how changes and innovations in these disciplines have affected our lives The biographies that follow are organized in an A-Z format each biography is divided into a life section describing the individual's life and influences and a legacy section summarizing the impact of that individual's work throughout history These biographies cover a diverse group of men and women from around the globe and throughout history Franklin Delano Roosevelt Mao Tse-tung and Genghis Khan are among the 200 well-known historical figures included in this volume Examples of other lesser-known yet important individuals covered in this work are Gustavus Adolphus Swedish empire creator Hatshepsut queen of ancient Egyptian dynasty and Jean Jaurès French socialist leader and pacifist Each synopsis provides information on each individual's enduring impact on the common understanding of fundamental themes of human existence

The 20th Century Go-N Frank N. Magill, 2014-03-05 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in-depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography

Understanding Australia's Neighbours Nick Knight, 2004-07-06 The East and Southeast Asian region is of immense economic strategic and cultural significance to Australia It has also been important in defining Australia's national identity and is the origin of many of Australia's immigrants Australians therefore need to have some understanding of their northern neighbours and to be able to think about them in an informed way They need to do so not only to be able to understand the region in which they live but also to better understand themselves This book facilitates this process by providing comparisons between Asian and Australian societies The reader is encouraged to think about Australia's neighbours across a wide range of social economic and historical contexts Written in an accessible and informative way this is a book for all Australians who seek a better understanding of Australia's neighbours in East and Southeast Asia

Painful Choices David A. Welch, 2011-06-27 Under what conditions should we expect states to do things radically differently all of a sudden In this

book David Welch seeks to answer this question constructing a theory of foreign policy change inspired by organization theory cognitive and motivational psychology and prospect theory He then test drives the theory in a series of comparative case studies in the security and trade domains Argentina s decision to go to war over the Falklands Malvinas vs Japan s endless patience with diplomacy in its conflict with Russia over the Northern Territories America s decision to commit large scale military force to Vietnam vs its ultimate decision to withdraw and Canada s two abortive flirtations with free trade with the United States in 1911 and 1948 vs its embrace of free trade in the late 1980s Painful Choices has three main objectives to determine whether the general theory project in the field of international relations can be redeemed given disappointment with previous attempts to reflect on what this reveals about the possibilities and limits of general theory and to inform policy Welch argues that earlier efforts at general theory erred by aiming to explain state behavior which is an intractable problem Instead since inertia is the default expectation in international politics all we need do is to explain changes in behavior Painful Choices shows that this is a tractable problem with clear implications for intelligence analysts and negotiators
