Identity and Image Jutta Vinzent, 2006-06-22

This book explores the image and identity of migr painters sculptors and graphic artists from Nazi Germany in Britain between 1933 and 1945 It focuses on a neglected field of Exile Studies that of exiled artists in Britain Methodologies used in this study have been developed by Exile Studies and History of Art but also by Postcolonialism scholars of which usually apply their ideas to the Afro Asian emigration of the second part of the twentieth century Thus this study represents methodologically a new way of looking at the emigration from Nazi Germany Identity and Image is divided into five chapters After an introductory Chapter One historiography of the topic methodology of the study structure of the book Chapter Two establishes socio political patterns of emigration and provides an historical framework for Chapters Three and Four which concentrate on the image and identity of the refugee artist the former based on written sources and the latter on visual material In detail Chapter Three analyses the British image of the refugee artists and their works on the one hand and the migr s self representations on the other the latter exemplified by refugee organisations the Free German League of Culture Freier Deutscher Kulturbund the Austrian Centre the Anglo Sudeten Club and the Czech Institute and institutions founded by migr artists Jack Bilbo s Modern Art Gallery and Arthur Segal s Painting School Chapter Four examines the works produced in internment and those exhibited and produced for the refugee organisations discussed in Chapter Three Chapter Five discusses the results of this study in the light of three postcolonial concepts diaspora communities the notion of home and the gendered identity of the refugee The appendix lists all painters sculptors and graphic artists from Nazi Germany in Britain with biographical details Apart from visual and written sources discussed for the first time there are two major results of the study First although the artists were united as refugees this unity did not lead to a unity in art refugee art is a construction put forward by the British press and the refugee organisations particularly the Free German League of Culture Second contrary to claims that modern art was international and formed a universal unity that transgressed nationality neither the West Europe nor modernism form unities instead in the 1930s and 1940s cultures in Europe constructed conceptions of other European cultures on the basis of nation state identities

The Doctor Looks at Literature: Psychological Studies of Life and Letters Joseph Collins, Few words attract us like the word psychology It has the call of the unknown the lure of the mysterious It is used and heard so frequently that it has come to have a definite connotation but the individual who is asked to say what it is finds it difficult either to be exact or exhaustive Psychologists themselves experience similar difficulty Psychology means the science of the soul but we have no clearer conception of the soul today than Aristotle had when he wrote his treatise on it Professor Palmer states that William James once said that psychology was a nasty little subject and

that all one cares to know lies outside Doubtless many who have far less knowledge of it have often felt the same way The present fate of psychology or the science of mental life is to be handled either as a department of metaphysics or as subsidiary to so called intelligence testing The few remaining true psychologists are the physiological psychologists and a small group of behaviourists In this country Woodworth who takes the ground of utilising the best in the arsenal of both the introspectionists and the behaviourists and calls the result dynamic psychology leads the former and Watson the latter Psychology has no interest in the nature of the soul its origin or destiny or in the reality of ideas Nor does it concern itself with explanation of mental phenomena in terms of forces which can neither be experienced nor inferred from experience It is concerned with the facts of mental life and with describing analysing and classifying them When it has done this it hands the results over to the logician who occupies himself with them from a purposeful rather than a causal point of view and he makes what he may of them or he puts them at the disposal of fellow scientists who use them to support conjectures or to give foundation to theories It is universally admitted that when we want to get a true picture of human life behaviour manners customs aspirations indulgences vices virtues it is to the novelist and historian that we turn not to the psychologist or the physiologist The novelists gather materials more abundantly than the psychologists who for the most part have a parsimonious outfit in anything but morbid psychology Psychologists are the most indolent of scientists in collecting and ordering materials James and Stanley Hall being outstanding exceptions Fiction writers should not attempt to carry over the results of psychological inquiries as the warp and woof of their work They should study psychology to sharpen and discipline their wits but after that the sooner they forget it the better The best thing that fiction writers can do is to depict the problematic in life in all its intensity and perplexity and put it up to the psychologists as a challenge
