Rhyme Or Reason A Limerick History Of Philosophy:

Rhyme Or Reason Richard E. Aquila,1981 **Rhyme Or Reason** Richard E. Aquila,1981-05-27 **Reexamining Berkeley's Philosophy** Stephen Hartley Daniel,2007-01-01 George Berkeley 1685 1753 is perhaps most famous for his assertion that our knowledge of the world is nothing other than the experience of our ideas Reexamining Berkeley's Philosophy examines this aspect of Berkeley's thought arguing that such a viewpoint assumes that physical objects and minds are better understood when discussed in the contexts of science morality and religion This collection confronts the question how can we know anything about the world if all we know are our ideas Comprised of eleven previously unpublished essays by leading scholars in the field Reexamining Berkeley's Philosophy demonstrates how things in the world are intrinsically related to the sequence of experiences that constitute minds This collection also discusses how the harmony of experience reveals strategies for recognizing the inherently active character of reality Ultimately this volume represents a major contribution to the study of Berkeley's philosophy by critiquing the tendency to generalize his thought as a version of theologically modified solipsism In this way it is a unique and invaluable addition to Berkeley scholarship **Religiousness in Yoga** T. K.V. Desikachar,1980-01-31 The value of the book lies in the author's expertise in yogic theory and practice the questions and responses of the students attending the course and the many figures designed to facilitate understanding of yogic concepts and practice both teachers and students will find the book useful as a supplemental text The questions by the course participants are invaluable to instructors since they reflect the understanding and difficulties of beginning students

Logic, Philosophy and History Anthony F. Russell,1984-01-10 *These Bones Shall Rise Again* David N. Keightley,2014-08-12 *These Bones Shall Rise Again* brings together in one volume many of David N Keightley's seminal essays on the origins of early Chinese civilization Written over a period of three decades and accessible to the non specialist these essays provide a wealth of information and insights on the Shang dynasty traditionally dated 1766 1122 or 1056 BCE Of all the eras of Chinese history the Shang has been a particularly elusive one long considered more myth than reality A historian with a keen appreciation for anthropology and archaeology Keightley has given us many descriptions of Shang life Best known for his analysis of oracle bones he has looked beyond the bones themselves and expanded his historical vision to ponder the lives of those who used them What did the Shang diviner think he was doing The temerity to ask such questions and the insights they have provided have been provocative and at times controversial Equally intriguing have been Keightley's assertions that many of the distinctive features of Chinese civilization were already in evidence during the Shang 3000 years ago In this collection readers will find not only an essential reference but also the best kind of thought provoking scholarship **Caesar in Gaul and Rome** Andrew M. Riggsby,2010-01-01 A fresh interpretation of Caesar's *The Gallic War* that focuses on Caesar's construction of national identity and his self presentation Anyone who has even a passing acquaintance with Latin knows *Gallia est omnis divisa in partes tres* All Gaul is divided into three parts the opening line of De

Bello Gallico Julius Caesar's famous commentary on his campaigns against the Gauls in the 50s BC But what did Caesar intend to accomplish by writing and publishing his commentaries how did he go about it and what potentially unforeseen consequences did his writing have These are the questions that Andrew Riggsby pursues in this fresh interpretation of one of the masterworks of Latin prose Riggsby uses contemporary literary methods to examine the historical impact that the commentaries had on the Roman reading public In the first part of his study Riggsby considers how Caesar defined Roman identity and its relationship to non Roman others He shows how Caesar opens up a possible vision of the political future in which the distinction between Roman and non Roman becomes less important because of their joint submission to a Caesar like leader In the second part Riggsby analyzes Caesar's political self fashioning and the potential effects of his writing and publishing The Gallic War He reveals how Caesar presents himself as a subtly new kind of Roman general who deserves credit not only for his own virtues but for those of his soldiers as well Riggsby uses case studies of key topics spatial representation ethnography virtue and technology genre and the just war augmented by more synthetic discussions that bring in evidence from other Roman and Greek texts to offer a broad picture of the themes of national identity and Caesar's self presentation Winner of the 2006 AAP PSP Award for Excellence Classics and Ancient History *Philosophical Topics*, 1981 Vols for 1981 include the proceedings of the Southwestern Philosophical Society The Philosopher's Index, 1983 Vols for 1969 include a section of abstracts **The Philosophical Life** Robert M. Baird, 1983 **The Reader's Adviser** Barbara Ann Chernow, George A. Vallasi, Fred Kaplan, Maurice Charney, Paula T. Kaufman, 1986 This new edition provides a wealth of updated book information in a more accessible format Volume one provides an overview of British and American fiction and poetry from Beowulf and British folk ballads to the 20th century antihero and nonfiction novels It also presents concise introductions to the lives works and significance of each writer in the area Annotated bibliographies and lists of key references provide added book selection guidance This edition also covers Commonwealth Literature and an expanded chapter on Essays and Criticism Volume two covers American and British drama and world literature in English translation Volume three presents general reference literature the social sciences and the arts ISBN 0 83542 2145 8 v 1 ISBN 0 8352 2146 6 v 2 ISBN 0 8352 2147 4 v 3 75 00 each For use only in the library The Journal of Critical Analysis, 1979 **The Creativity of Consciousness** Howard Alexander Slaatte, 1983 The Dialectic of the Little Prince Edward J. Capestany, 1982 A discussion of the myth of The Little Prince by Antoine de Saint Exupery translated from the French by Katherine Woods within the frame of reference of Platonic dialectic particularly as displayed by the allegory of the Cave in the Republic The author contends that myth is a distinct language system and that its explanation is properly a philosophic one **Comparative Philosophy** Charlene McDermott, 1983-08-31 Introduces fundamental epistemological and metaphysical issues and concepts Deals comprehensively with Eastern as well as Western philosophy **Investigating Philosophy** Henry L. Ruf, 1987-01-27 Beginning philosophy students are introduced to the world of philosophy by being

presented with an historical and systematic study of the issue of absolutes as it has been dealt with by classical and contemporary Western and Asian philosophers The book focuses primarily on the central issue of contemporary philosophy Are there any absolutes Also emphasized is the importance for all people to do their own philosophical investigation of themselves and their world

Traditional Logic A. C. W. Bethel,1982 *Metaphilosophy* Jerry H. Gill,1982-08-12 **The Nature of Public Philosophy** Richard J. Bishirjian,1982 *The Flesh of Thought is Pleasure Or Pain* Francis Schwanauer,1982
