**El santuario incaico del Nevado de Chuscha** Juan Schobinger,2004      Inca Rituals and Sacred Mountains Maria Constanza Ceruti,Johan Reinhard,2010-12-31 The Incas carried out some of the most dramatic ceremonies known to us from ancient times Groups of people walked hundreds of miles across arid and mountainous terrain to perform them on mountains over 6 096 m 20 000 feet high The most important offerings made during these pilgrimages involved human sacrifices capacochas Although Spanish chroniclers wrote about these offerings and the state sponsored processions of which they were a part their accounts were based on second hand sources and the only direct evidence we have of the capacocha sacrifices comes to us from archaeological excavations Some of the most thoroughly documented of these were undertaken on high mountain summits where the material evidence has been exceptionally well preserved In this study we describe the results of research undertaken on Mount Llullaillaco 6 739 m 22 109 feet which has the world s highest archaeological site The types of ruins and artifact assemblages recovered are described and analyzed By comparing the archaeological evidence with the chroniclers accounts and with findings from other mountaintop sites common patterns are demonstrated while at the same time previously little known elements contribute to our understanding of key aspects of Inca religion This study illustrates the importance of archaeological sites being placed within the broader context of physical and sacred features of the natural landscape

**Inka Human Sacrifice and Mountain Worship** Thomas Besom,2013-04-15 The Inka empire was the largest pre Columbian polity in the New World Its vast expanse its ethnic diversity and the fact that the empire may have been consolidated in less than a century have prompted much scholarly interest in its creation In this study Besom explores the ritual practices of human sacrifice and the worship of mountains attested in both archaeological investigations and ethnohistorical sources as tools in the establishment and preservation of political power Besom examines the relationship between symbols ideology ritual and power to demonstrate how the Cuzque os could have used rituals to manipulate common Andean symbols to uphold their authority over subjugated peoples He considers ethnohistoric accounts of the categories of human sacrifice to gain insights into related rituals and motives and reviews the ethnohistoric evidence of mountain worship to predict locations as well as motives He also analyzes specific archaeological sites and assemblages theorizing that they were the locations of sacrifices designed to assimilate subject peoples bind conquered lands to the state and or justify the extraction of local resources

Alan Covey,2018-04-02 When Spaniards invaded their realm in 1532 the Incas ruled the largest empire of the pre Columbian Americas Just over a century earlier military campaigns began to extend power across a broad swath of the Andean region bringing local societies into new relationships with colonists and officials who represented the Inca state With Cuzco as its capital the Inca empire encompassed a multitude of peoples of diverse geographic origins and cultural traditions dwelling in the outlying provinces and frontier regions Bringing together an international group of well established scholars and emerging researchers this handbook is dedicated to revealing the origins of this empire as well as its evolution and aftermath Chapters break new ground using innovative multidisciplinary research from the areas of archaeology ethnohistory and art history The scope of this handbook is comprehensive It places the century of Inca imperial expansion within a broader historical and archaeological context and then turns from Inca origins to the imperial political economy and institutions that facilitated expansion Provincial and frontier case studies explore the negotiation and implementation of state policies and institutions and their effects on the communities and individuals that made up the bulk of the population Several chapters describe religious power in the Andes as well as the special statuses that staffed the state religion maintained records served royal households and produced fine craft goods to support state activities The Incas did not disappear in 1532 and the volume continues into the Colonial and later periods exploring not only the effects of the Spanish conquest on the lives of the indigenous populations but also the cultural continuities and discontinuities Moving into the present the volume ends with an overview of the ways in which the image of the Inca and the pre Columbian past is memorialized and reinterpreted by contemporary Andeans
