□□□□□□ □□,2011 One Man Talking: Selected Essays of Shao Xunmei, 1929-1939 Paul Bevan,Susan

Daruvala,2023-07-19 Shao Xunmei poet essayist publisher and printer played a significant role in the publication and dissemination of journals and pictorial magazines in Shanghai during the 1920s and 1930s His poetry has been translated by several prominent scholars through the years but remarkably few of his essays have received the same attention and this is the first collection of his prose writings to be published in English Shao has been described by a phalanx of scholars as the most seriously underestimated modern cultural Chinese figure This collection of his writings joins several recent publications that aim to raise Shao s literary and historical profile It will appeal to a broad swathe of readers interested in the transnational and transcultural dimensions of twentieth century experience that have become so important for contemporary scholarship The essays in this book some of which were selected by the writer s daughter Shao Xiaohong include long essays such as One Man Talking and A Year in Shanghai as well as several shorter essays on subjects as diverse as the caricatures of Miguel Covarrubias woodblock printing and pictorial magazines all of which were published in Shao s own magazines Although his essays may be less well known than those of other writers of the same period without his unique and valuable contribution the literary artistic and poetic worlds of twentieth century Shanghai would have been very different indeed

Paris and the Art of Transposition Angie Chau,2023-12-11 A brief stay in France was for many Chinese workers and Chinese Communist Party leaders a vital stepping stone for their careers during the cultural and political push to modernize China after World War I For the Chinese students who went abroad specifically to study Western art and literature these trips meant something else entirely Set against the backdrop of interwar Paris Paris and the Art of Transposition uncovers previously marginalized archives to reveal the artistic strategies employed by Chinese artists and writers in the early twentieth century transnational imaginary and to explain why Paris played such a central role in the global reception of modern Chinese literature and art While previous studies of Chinese modernism have focused on how Western modernist aesthetics were adapted or translated to the Chinese context Angie Chau does the opposite by turning to Paris in the Chinese imaginary and discussing the literary and visual artwork of five artists who moved between France and China the painter Chang Yu the poet Li Jinfa the art critic Fu Lei the painter Pan Yuliang and the writer Xu Xu Chau draws the idea of transposition from music theory where it refers to shifting music from one key or clef to another or to adapting a song originally composed for one instrument to be played by another Transposing transposition to the study of art and literature Chau uses the term to describe a fluid and strategic art practice that depends on the tension between foreign and familiar new and old celebrating both novelty and recognition a process that occurs when a text gets placed into a fresh context

The Art of Modern China Julia F. Andrews,Kuiyi Shen,2012-09-24 In the early twenty first century China occupies a place on center stage in the international art world But what does it mean to be a Chinese artist in the modern age This first

comprehensive study of modern Chinese art history traces its evolution chronologically and thematically from the Age of Imperialism to the present day Julia Andrews and Kuiyi Shen pay particular attention to the dynamic tension between modernity and tradition as well as the interplay of global cosmopolitanism and cultural nationalism This lively accessible and beautifully illustrated text will serve and enlighten scholars students collectors and anyone with an interest in Asian art and artists

Global Art Markets Iain Robertson,Derrick Chong,Luís U. Afonso,2024-11-29 The art market is worth billions globally despite the effects of the Covid 19 health pandemic This book brings together a strong cast of contributors to explore contemporary and historical themes Readers of the book will gain awareness of how historical foundations of arts markets continue to impact on contemporary global developments while transformational digital technology shakes up the art world With new insights into emerging arts markets the book also covers themes and phenomena such as NFTs secrecy platforms and financialization in the arts The result is a book that will prove valuable reading for scholars involved in art markets studies

Architecture and the Landscape of Modernity in China before 1949 Edward Denison,2017-02-17 This book explores China s encounter with architecture and modernity in the tumultuous epoch before Communism an encounter that was mediated not by a singular notion of modernism emanating from the west but that was uniquely multifarious deriving from a variety of sources both from the west and importantly from the east The heterogeneous origins of modernity in China are what make its experience distinctive and its architectural encounters exceptional These experiences are investigated through a re evaluation of established knowledge of the subject within the wider landscape of modern art practices in China The study draws on original archival and photographic material from different artistic genres and architecturally concentrates on China s engagement with the west through the treaty ports and leased territories the emergence of architecture as a profession in China and Japan s omnipresence not least in Manchuria which reached its apogee in the puppet state of Manchukuo The study s geographically temporally and architecturally inclusive approach framed by the concept of multiple modernities questions the application of conventional theories of modernity or post colonialism to the Chinese situation By challenging conventional modernist historiography that has marginalised the experiences of the west s other for much of the last century this book proposes different ways of grappling with and comprehending the distinction and complexity of China s experiences and its encounter with architectural modernity

Asian Art News ,2001-07 **China—Art—Modernity** David Clarke,2019-01-22 China Art Modernity provides a critical introduction to modern and contemporary Chinese art as a whole It illuminates what is distinctive and significant about the rich range of art created during the tumultuous period of Chinese history from the end of Imperial rule to the present day The story of Chinese art in the twentieth and twenty first centuries is shown to be deeply intertwined with that of the country s broader socio political development with art serving both as a tool for the creation of a new national culture and as a means for critiquing the forms that culture has taken The book s approach is inclusive In addition to treating art within the Chinese

Mainland itself during the Republican and Communist eras for instance it also looks at the art of colonial Hong Kong Taiwan and the Chinese diaspora Similarly it gives equal prominence to artists employing tools and idioms of indigenous Chinese origin and those who engage with international styles and contemporary media In this way it writes China into the global story of modern art as a whole at a moment in intellectual history when Western centred stories of modern and contemporary culture are finally being recognized as parochial and inadequate Assuming no previous background knowledge of Chinese history and culture this concise yet comprehensive and richly illustrated book will appeal to those who already have an established interest in modern Chinese art and those for whom this is a novel topic It will be of particular value to students of Chinese art or modern art in general but it is also for those in the wider reading public with a curiosity about modern China At a time when that country has become a major actor on the world stage in all sorts of ways accessible sources of information concerning its modern visual culture are nevertheless surprisingly scarce As a consequence a fully nuanced picture of China's place in the modern world remains elusive China Art Modernity is a timely remedy for that situation Here is a book that offers a comprehensive account of the dizzying transformations of Chinese art and society in the twentieth and twenty first centuries Breaking free of conventional dichotomies between traditional and modern Chinese and Western that have hobbled earlier studies Clarke's highly original book is exactly what I would assign my own students Anyone eager to understand developments in China within the global history of modern art should read this book Robert E Harrist Jr Columbia University Clarke's book presents a critically astute mapping of the arts of modern and contemporary China It highlights the significance of urban and industrial contexts migration diasporas and the margins of the mainland while imaginatively seeking to inscribe its subject into the broader story of modern art A timely and reliable intervention and indispensable for the student and non specialist reader Shane McCausland SOAS University of London 2020/9 336 2020-09-01 x x x
