## **Sao Paulo Cores E Sentimentos:**

**Blacks & Whites in São Paulo, Brazil, 1888-1988** George Reid Andrews, 1991 For much of the twentieth century Brazil enjoyed an international reputation as a racial democracy but that image has been largely undermined in recent decades by research suggesting the existence of widespread racial inequality George Reid Andrews provides the first thoroughly documented history of Brazilian racial inequality from the abolition of slavery in 1888 up to the late 1980s showing how economic social and political changes in Brazil during the last one hundred years have shaped race relations No laws of segregation or apartheid exist in Brazil but by looking carefully at government policies data on employment mainstream and Afro Brazilian newspapers and a variety of other sources Andrews traces pervasive discrimination against Afro Brazilians over time He draws his evidence from the country's largest and most economically important state São Paulo showing how race relations were affected by its transformation from a plantation based economy to South America's most urban industrialized society The book focuses first on Afro Brazilians entry into the agricultural and urban working class after the abolition of slavery This transition Andrews argues was seriously hampered by state policies giving the many European immigrants of the period preference over black workers As immigration declined and these policies were overturned in the late 1920s black laborers began to be employed in agriculture and industry on nearly equal terms with whites Andrews then surveys efforts of blacks to move into the middle class during the 1900s He finds that informal racial solidarity among middle class whites has tended to exclude Afro Brazilians from the professions and other white collar jobs Andrews traces how discrimination throughout the century led Afro Brazilians to mobilize first through the antislavery movement of the 1880s then through such social and political organizations of the 1920s and 1930s as the Brazilian Black Front and finally through the anti racism movements of the 1970s and 1980s These recent movements have provoked much debate among Brazilians over their national image as a racial democracy It remains to be seen Andrews concludes whether that debate will result in increased opportunities for black Brazilians Winner of the 1993 Arthur P Whitaker Prize

*Freedoms Given, Freedoms Won* Kim D. Butler, 1998 Freedoms Given Freedoms Won explores the ways Afro Brazilians in two major cities adapted to the new conditions of life after the abolition of slavery and how they confronted limitations placed on their new freedom The book sets forth new ways of understanding why the abolition of slavery did not yield equitable fruits of citizenship not only in Brazil but throughout the Americas and the Caribbean Afro Brazilians in Sao Paulo and Salvador lived out their new freedom in ways that raise issues common to the entire Afro Atlantic diaspora In Sao Paulo they initiated a vocal struggle for inclusion in the creation of the nation s first black civil rights organization and political party and they appropriated a discriminatory identity that isolated blacks In contrast African identity prevailed over black identity in Salvador where social protest was oriented toward protecting the right of cultural pluralism Of all the eras and issues studied in Afro Brazilian history post abolition social and political action has been the most neglected Butler provides many details of this period for the first time in English and supplements published sources with original oral histories Afro Brazilian newspapers and new state archival documents currently being catalogued in Bahia Freedoms Given Freedoms Won sets the Afro Brazilian experience in a national context as well as situating it within the Afro Atlantic diaspora through a series of explicit parallels particularly with Cuba and Jamaica
