The Iconography of Family Members in Egypt's Elite Tombs of the Old Kingdom Jing Wen, 2022-11-21 In *The Iconography of Family Members in Egypt's Elite Tombs of the Old Kingdom* Jing Wen offers a comprehensive survey of how ancient Egyptians portrayed their family members in the reliefs of an elite tomb Through the analysis of the depiction of family members this book investigates familial relations the funerary cult of the dead ancestor worship and relevant texts It provides a new hypothesis and perspective that would update our understanding of the Egyptian funerary practice and familial ideology The scenes of family members are not a record of family history but language games of the tomb owner that convey specific meaning to those who enter the chapel despite time and space *Ancient Egyptian Tombs* Steven Snape, 2011-06-13 This book explores the development of tombs as a cultural phenomenon in ancient Egypt and examines what tombs reveal about ancient Egyptian culture and Egyptians belief in the afterlife Investigates the roles of tombs in the development of funerary practices Draws on a range of data including architecture artifacts and texts Discusses tombs within the context of everyday life in Ancient Egypt Stresses the importance of the tomb as an eternal expression of the self 4. *Symposium Zur Ägyptischen Königsideologie* Rolf Gundlach, John H. Taylor, 2009 The fourth symposium in the series on Ancient Egyptian Royal Ideology was held at the British Museum in London in 2004 taking at its theme Egyptian Royal Residences Structure and Form The scholars who participated in this gathering approached the subject from a broad range of perspectives They embraced all phases of history from the foundation of the Egyptian state to the Late Period and covered a variety of interrelated topics These included the physical layout and architectural design of palaces the activities which happened inside and the ideological questions raised by the status of the king his divine personal and institutional functions Beginning with these focal points the papers and discussions ranged further afield to include the roles of members of the court their relationship with the king and their activities at the residence The papers published in this volume focus strongly on the Middle and New Kingdoms since it is from these periods that the richest sources of data concerning the royal residence survive Textual sources and archaeological traces of palaces have been carefully studied in conjunction to provide new insights and to open new avenues of research **His Good Name** Christina Geisen, Jean Li, Steven B. Shubert, Kei Yamamoto, 2021-03-20 The wish to affiliate with a specific cultural social or ethnical group is as important today as it was in past societies such as that of the ancient Egyptians The same significance applies to the self presentation of an individual within such a group Although it is inevitable that we perceive ancient cultures through the lens of our time place and value systems we can certainly try to look beyond these limitations Questions of how the ancient Egyptians saw themselves and how individuals tried to establish and thus present themselves in society are central pieces of the puzzle of how we interpret this ancient culture This volume focuses on the topic of identity and self presentation tackling the subject from many different angles the ways in which social and personal identities are constructed and maintained the manipulations of culture

by individuals to reflect real or aspirational identities and the methods modern scholars use to attempt to say something about ancient persons Building on the work of Ronald J Leprohon to whom this volume is dedicated contributions in this volume present an overview of our current state of understanding of patterns of identity and self presentation in ancient Egypt The contributions approach various aspects of identity and self presentation through studies of gender literature material culture mythology names and officialdom
