a permanently changed world Each of the 15 stories is swiftly paced and engaging rich with detail highlighting and celebrating nature as it borders on the unnatural The New York Times Book Review A vast caravan of RVs roams the United States A girl grows a unicorn horn complicating her small town friendships and big city ambitions A young lady on a spaceship bonds with her AI warden while trying to avoid an arranged marriage In Allegra Hyde s universe nothing is as it seems yet the challenges encountered in these pages mirror those we face in our modern age Spanning the length of our very solar system the fifteen stories in this collection explore a myriad of potential futures through the concept of global weirding planetary and social disruptions due to climate change In unexpected and genre defying ways this revelatory collection reminds us that our world is precious and that protecting it has the potential to bring us all together
