Upadhyaya, 2014-06-30 Truth never fails and falsehood never prevails In old times people used to believe that our earth is resting upon the shoulder of a great giant or upon a big fish But later on the scientists proved that it is hanging in the space When the people heard this they began to laugh in utter disbelief But their disbelief did not change the truth Yes the truth however bitter it might be will never fail If a doctor after thorough examination tells a patient that he has to get his stone removed from the kidney by surgery and the patient refuses it he will surely die because of his rejection of the truth The same thing applies to this book also It tells of the truth that all human beings are sinners who desperately need salvation in order to escape the penalty of sin It also tells that it is only Jesus Christ who can save sinners from their sins Jn 14 6 Rom 6 23 This is the truth which must not be denied under any circumstance otherwise the consequence will be fatal This truth although bitter for some has been critically explained by the Vedantacharya Madhav Upadhyaya Now it is up to the reader whether to accept or reject it Rev Dr B D Kai Pastor P F C C Kalimpong Intimate Reading Jessica Barr, 2020-04-20

Intimate Reading Textual Encounters in Medieval Women's Visions and Vitae explores the ways that women mystics sought to make their books into vehicles for the reader's spiritual transformation Jessica Barr argues that the cognitive work of reading these texts was meant to stimulate intensely personal responses and that the very materiality of the book can produce an intimate encounter with God She thus explores the differences between mystics biographies and their self presentation analyzing as well the complex rhetorical moves that medieval women writers employ to render their accounts more effective This new volume is structured around five case studies Chapters consider the biographies of 13th century holy

women from Li ge the writings of Margery Kempe Gertrude of Helfta Mechthild of Magdeburg Marguerite Porete and Julian of Norwich At the heart of Intimate Reading is the question of how reading works what it means to enter imaginatively and intellectually into the words of another The volume showcases the complexity of medieval understandings of the work of reading deepening our perception of the written word s capacity to signify something that lies even beyond rational comprehension

Milton and the New Scientific Age Catherine Martin,2019-04-10 Milton and the New Scientific Age represents significant advantages over all previous volumes on the subject of Milton and science as it includes contributions from top scholars and prominent beginners in a broad number of fields Most of these fields have long dominated work in both Milton and seventeenth century studies but they have previously not included the relatively new and revolutionary topic of early modern chemistry physiology and medicine Previously this subject was confined to the history of science with little if any attention to its literary development even though it prominently appears in John Milton s Paradise Lost which also includes early science fiction speculations on aliens ignored by most readers Both of these oversights are corrected in this essay collection while more traditional areas of research have been updated They include Milton s relationship both to Bacon and the later or Royal Society Baconians his views on astronomy and his vitalist views on biology and cosmology In treating these topics our contributors are not mired in speculations about whether or not Milton was on the cutting edge of early science or science fiction for as nearly all of them show the idea of a cutting edge is deeply anachronistic at a time when most scientists and scientific enthusiasts held both fully modern and backward looking beliefs By treating these combinations contextually Milton s literary contributions to the new science are significantly clarified along with his many contemporary sources all of which merit study in their own right
