Satanic Affair:

After Satan Martine Hennard Dutheil de la Rochère, Kirsten Stirling, 2010-07-12 This volume is the result of a collective desire to pay homage to Neil Forsyth whose work has significantly contributed to scholarship on Satan This volume is after Satan in more ways than one tracing the afterlife of both the satanic figure in literature and of Neil Forsyth's contribution to the field particularly in his major books *The Old Enemy Satan and the Combat Myth* Princeton University Press 1987 revised 1990 and *The Satanic Epic* Princeton University Press 2003 The essays in this volume draw on Forsyth's work as a focus for their analyses of literary encounters with evil or with the Devil himself reflecting the richness and variety of contemporary approaches to the age old question of how to represent evil All the contributors acknowledge Neil Forsyth's influence in the study of both the Satan figure and Milton's *Paradise Lost* But beyond simply paying homage to Neil Forsyth the articles collected here trace the lineage of the Satan figure through literary history showing how evil can function as a necessary other against which a community may define itself They chart the demonised other through biblical history and medieval chronicle Shakespeare and Milton to nineteenth century fiction and the contemporary novel Many of the contributors find that literary evil is mediated through the lens of the Satan of *Paradise Lost* and their articles address the notion raised by Neil Forsyth in *The Satanic Epic* that the literary Devil figures under consideration are particularly interested in linguistic ambivalence and the twisted texture of literary works themselves The multiple responses to evil and the continuous reinvention of the devil figure through the centuries all reaffirm the textual presence of the Devil his changing forms necessarily inscribed in the shifting history of western literary culture These essays are a tribute to the work of Neil Forsyth whose scholarship has illuminated and guided the study of the Devil in English and other literatures **Text and Trauma** Ian Richard Netton, 2012-12-06 An essay in literary criticism with a difference addressing the nature of blasphemy and using selected novels by Salman Rushdie Najib Mahfuz and Nikos Kazantzakis as case studies **Offspring Fictions** Matt Kimmich, 2008 The first book length study that examines families and especially the parent child relationship in Rushdie's core works The book provides a sustained examination of how the parents and children that people Rushdie's fictions reflect the larger issues his work is concerned with nationalism religion history and authorship **The Power of the Story** Michael Hanne, 1996 A spirited well researched volume This highly readable study is an impressive work of contemporary criticism richly deserving its intended general and academic audiences Choice **Islam and Postcolonial Narrative** John Erickson, 1998-09-24 In *Islam and Postcolonial Narrative* John Erickson examines four major authors from the third world **Postmodernism and Islam** Akbar S. Ahmed, 2013-04-15 Can West and East ever understand each other In this extraordinary book one of the world's leading Muslim scholars explores an area which has been almost entirely neglected by scholars in the field the area of postmodernism and Islam This landmark work is startling constantly perceptive and certain to be debated for years to come **Salman Rushdie** Harold Bloom, 2009 A collection of critical essays on Salman

Rushdie's work **Islamic Myths and Memories** Itzhak Weismann, Mark Sedgwick, Ulrika Mårtensson, 2016-05-06 Islamic myths and collective memory are very much alive in today's localized struggles for identity and are deployed in the ongoing construction of worldwide cultural networks. This book brings the theoretical perspectives of myth making and collective memory to the study of Islam and globalization and to the study of the place of the mass media in the contemporary Islamic resurgence. It explores the annulment of spatial and temporal distance by globalization and by the communications revolution underlying it and how this has affected the cherished myths and memories of the Muslim community. It shows how contemporary Islamic thinkers and movements respond to the challenges of globalization by preserving, reviving, reshaping, or transforming myths and memories. *Muslims in the Diaspora* Rima Berns McGown, 1999-01-01 Explores the balancing act of living as a Muslim in the west. It is a comparison of the Somali communities in London, England, and Toronto and is based on a series of in-depth interviews with over 80 Somali women, men, and teenagers in those cities. **British Muslims and Their Discourses** Laurens de Rooij, 2023-12-28 This book highlights the changing dynamics of Muslim identity and integration in Britain, focusing on the post-9/11 era. Historically, Muslims faced discrimination based on ethnicity rather than religion. However, contemporary discrimination against Muslims is rooted in different reasons, with events like the Rushdie affair significantly impacting multicultural relations. This study analyzes the evolving multicultural landscape in Britain, exploring the shift from predominantly assimilationist policies to a more mutual process of integration. It delves into the emergence of interfaith dialogue as well as the complexities surrounding the intersection of race, religion, gender, and identity. The research examines two key themes: the discursive positioning of Islam beyond integration and terrorism narratives and the operationalization of identity by Muslims in various contexts. The study employs empirical methods and cultural studies theories to understand how individual and social practices intersect in this context. By doing so, it contributes to Islamic studies, socio-political studies, and cultural studies, shedding light on the discourses that shape and are shaped by Muslim lives in Britain. The analysis encompasses diverse perspectives from macro-level societal discourses to micro-level individual actions, thus providing a comprehensive exploration of the multifaceted experiences of Muslims in Britain. *Decade of Nightmares* Philip Jenkins, 2006 Drawing on a wide array of sources, the author of *Dream Catchers* identifies 1975 to 1986 as the watershed years when Americans rejected the radicalism of the 1960s and adopted a more pessimistic interpretation of human behavior. **The Fiction of Rushdie, Barnes, Winterson and Carter** Gregory J. Robinson, 2005-08-24 Literature often reflects societal change, but it can also effect change by inspiring people to think in new ways. Four authors who encourage readers to question traditional boundaries are Salman Rushdie, Julian Barnes, Jeanette Winterson, and Angela Carter. This book takes an in-depth look at the works of these authors, with specific emphasis on how they challenge religion, especially in its fundamentalist forms, and its intersections with history, politics, gender, and sexuality. The study notes both differences and similarities among the four authors, whose writings broadly represent the major themes in contemporary

British literature Divided into two primary sections the volume first takes a look at Rushdie and Barnes and their stance regarding historical and political issues The second section concentrates on gender and sexuality in the writings of Winterson and Carter Among the works examined are Rushdie s *The Satanic Verses* and *Midnight s Children* Barnes *Flaubert s Parrot* and *A History of the World in 10 1 2 Chapters* Winterson s *Boating for Beginners* and *Written on the Body* and Carter s *The Passion of New Eve* and *Heroes and Villains* The final chapter includes a brief survey of other significant figures in postmodern British literature including Martin Amis Ian McEwan D M Thomas Fay Weldon and Emma Tennant

Medicines of the Soul Fedwa Malti-Douglas,2001-03 In this work the autobiographical writings of three leading women in today s Islamic revival movement reveal dramatic stories of religious transformation *Stranger Gods* Roger Young Clark,2001 A study of Salman Rushdie s seven published novels with a special focus on his earliest *Grimus* and his most provocative *Midnight s Children* *Shame* and *The Satanic Verses* It shows how Rushdie employs cosmology mythology and mysticism to structure otherworldly dramas **South Asian Islam and British Multiculturalism** Amir Ali,2016-04-14 This book analyses South Asian Islam s engagement with the West and Britain in particular It traces the roots of British multiculturalism to South Asia and the Deobandi school of Islam The work shows how the pattern of interaction that initially emerged between the Deobandi Muslims and the colonial British state in late 19th century replicated itself in the British society in the second half of 20th century The monograph reflects upon Islam s compatibility with liberal democracy as well as explores how it contributed to its origins in the Enlightenment ethos A nuanced sensitive and topical study this book will be essential to understanding the world in the light of contemporary world events Paris 13 11 and Charlie Hebdo attacks the Danish cartoon controversy and the Trojan Horse incident in certain British schools as well as the much earlier Rushdie affair It will be of great interest to researchers and scholars of political science religion political Islam British and South Asian Studies and history *Islam and Controversy* A. Mondal,2014-11-03 Was Salman Rushdie right to have written *The Satanic Verses* Were the protestors right to have done so What about the Danish cartoons This book examines the moral questions raised by cultural controversies and how intercultural dialogue might be generated within multicultural societies *Eating and Identity in Postcolonial Fiction* Paul Vlitos,2018-10-11 This book focuses on the fiction of four postcolonial authors V S Naipaul Anita Desai Timothy Mo and Salman Rushdie It argues that meals in their novels act as sites where the relationships between the individual subject and the social identities of race class and gender are enacted Drawing upon a variety of academic fields and disciplines including postcolonial theory historical research food studies and recent attempts to rethink the concept of world literature it dedicates a chapter to each author tracing the literary cultural and historical contexts in which their texts are located and exploring the ways in which food and the act of eating acquire meanings and how those meanings might clash collide and be disputed Not only does this book offer suggestive new readings of the work of its four key authors but it challenges the reader to consider the significance of food in postcolonial fiction more generally

Toth, 2025-03-10 An Open Access edition is available thanks to the kind sponsorship of the libraries participating in the Jisc Open Access Community Framework OpenUP initiative Debates about reading in postcolonial studies rarely discuss non professional readers except to secure the authority of professional reading practices In *Reading Postcolonial Literature* Hayley G Toth places non professional reading practices in dialogue with received academic wisdom to debunk common sense assumptions about non professional readers as Western or neocolonial consumers Drawing on reading practices recorded in academic books journal articles and on online book reviewing platforms like Amazon and Goodreads Toth draws attention to important continuities between professional and non professional practices of reading postcolonial literature At the same time she highlights that non professionals often have little desire to emulate the practices of professional postcolonial critics Precisely by not adopting the established protocols and methods of postcolonial studies non professional readers call attention to the limits of dominant approaches to reading in the discipline Across four chapters Toth examines the relationship between reading and identity during the Rushdie affair the difference between reading and address the challenges posed by difficult texts and the legitimacy of non understanding and the reception of popular texts primarily read by non professional audiences *Reading Postcolonial Literature* demonstrates that reception matters in any claims we make about the value of reading postcolonial literature and offers new ways forward for the practice study and teaching of reading in the discipline

The New Muslim Brotherhood in the West Lorenzo Vidino, 2010-09-22 In both Europe and North America organizations tracing their origins back to the Muslim Brotherhood and other Islamist movements have rapidly evolved into multifunctional richly funded organizations They now compete to become the major representatives of Western Muslim communities and government interlocutors Some analysts and policy makers see these organizations as positive forces encouraging integration Others treat them as modern day Trojan horses that feign moderation while radicalizing Western Muslims Lorenzo Vidino brokers a third and more informed view Having completed more than a decade of research on political Islam in the West Vidino is keenly qualified to analyze a movement that is as controversial as it is unknown Conducting in depth interviews on four continents and sourcing documents in ten languages Vidino shares the history methods views and goals of the Western Brothers as well as their phenomenal growth He then flips the perspective examining the response to these groups by Western governments concentrating specifically on Great Britain Germany and the United States Highly informed and thoughtfully presented Vidino s work sheds light on a critical juncture in Muslim Western relations and the role Islam plays for a variety of uprooted individuals
