Tunnels and Metropolises Arsenio Negro (Jr.), Argimiro A. Ferreira, 1998 *The Satin Moth* Jennie Dodd, 2023-07-21

This novel is a powerful grim historical fantasy story based around the slave trade of the 17th and 18th centuries and its repercussions on a family whose wealth is built on it. The first part of the story introduces the present day 10th Lord of Eastlyn Robert Montague and his family who continue to endure the consequences of a voodoo hex placed upon them centuries before. The second part describes the 1st Lord of Eastlyn George Montague a wealthy but cruel and callous slave trader and the enslavement of an Amazonian warrior named Nabila. Much of the novel's strength is rooted in its foregrounding which depicts man's inhumanity to man and the vile and heinous nature of slavery. The final part shows the effect the curse has had on the Montague family and describes the actions and courage of young cousins who set out to free themselves from the voodoo hex placed upon them. The twists and turns that take place as a result are comprehensive and will provide entertaining relief for the reader following this tale of human suffering and vindication.

Tunnels and Underground Cities. Engineering and Innovation Meet Archaeology, Architecture and Art Daniele Peila, Giulia Viggiani, Tarcisio Celestino, 2019-04-17. Tunnels and Underground Cities: Engineering and Innovation meet Archaeology, Architecture and Art contains the contributions presented at the World Tunnel Congress 2019 Naples Italy 3-9 May 2019. The use of underground space is continuing to grow due to global urbanization, public demand for efficient transportation and energy saving, production and distribution. The growing need for space at ground level along with its continuous value increase and the challenges of energy saving and achieving sustainable development objectives demand greater and better use of the underground space to ensure that it supports sustainable, resilient and more liveable cities. This vision was the source of inspiration for the design of the logos of both the International ITA and Italian SIG Tunnelling Association. By placing key infrastructures underground, the black circle in the logos, it will be possible to preserve and enhance the quality of the space at ground level, the green line. In order to consider and value underground space usage together with human and social needs, engineers, architects and artists will have to learn to collaborate and develop an interdisciplinary design approach that addresses functionality, safety, aesthetics and quality of life and adaptability to future and varied functions. The 700 contributions cover a wide range of topics from more traditional subjects connected to technical challenges of design and construction of underground works with emphasis on innovation in tunneling engineering to less conventional and archetypically Italian themes such as archaeology, architecture and art. The book has the following main themes: Archaeology, Architecture and Art in underground construction; Environment sustainability in underground construction; Geological and geotechnical knowledge and requirements for project implementation; Ground improvement in underground constructions; Innovation in underground engineering materials and equipment; Long and deep tunnels; Public communication and awareness; Risk management, contracts and financial aspects; Safety in underground construction; Strategic use of

Kinglsey Amis. Harking from the golden age of fiction that skewered the middle-class American dream, the school of John Updike and John Cheever, this novel by the author of *Slouching Towards Kalamazoo* looks with laughter upon the lawns, cocktails and creature comforts of suburbia as well as the antics and anxieties that lurk just beneath its manicured facade. De Vries's classic situation comedy *The Tunnel of Love* follows the interactions of a socially insecure, pun-loving family man, an officious lady caseworker from an adoption agency and a chauvinist pig, all of whom are neighbors who know far too much about one another's private lives. In this farcical tale of marital quibbles, De Vries employs his verbal fluidity and singular gift for wordplay to offer readers his *Scarlet Letter* in which adultery leads not to a consciousness of sin and repentance but to a neurotic guilt and the delicious enjoyment it affords. D. G. Myers from the introduction. [Light at the End of the Tunnel](#) Abraham J. Twerski, 2003
