divine omniscience with human freedom *Making Whiteness* Grace Elizabeth Hale, 2010-08-25 *Making Whiteness* is a profoundly important work that explains how and why whiteness came to be such a crucial embattled and distorting component of twentieth century American identity. In intricately textured detail and with passionately mastered analysis, Grace Elizabeth Hale shows how when faced with the active citizenship of their ex-slaves after the Civil War, white southerners re-established their dominance through a cultural system based on violence and physical separation. And in a bold and transformative analysis of the meaning of segregation for the nation as a whole, she explains how white southerners' creation of modern whiteness was beginning in the 1920s, taken up by the rest of the nation as a way of enforcing a new social hierarchy while at the same time creating the illusion of a national egalitarian consumerist democracy. By showing the very recent historical making of contemporary American whiteness and by examining how the culture of segregation in all its murderous contradictions was lived, Hale makes it possible to imagine a future outside it. Her vision holds out the difficult promise of a truly democratic American identity whose possibilities are no longer limited and disfigured by race.
