Saturday At Mi9:

Saturday at M.I.9 Airey Neave, 2010 Saturday at M I 9 is the fascinating and hugely readable description of the escape lines which began in the first dark days of German occupation and how until the end of the war thousands of ordinary men and women made their own heroic contribution to the Allied victory by hiding and feeding pilots and escapees and guiding them to safety Airey Neave who was tragically assassinated by the IRA in 1979 had a remarkable war record After becoming the first British officer to make a home run from Colditz Castle he spent the last two years of the war as the chief organiser at M I 9 the secret organisation masterminding underground escape lines in occupied North West Europe which brought back to Britain over 4 000 Allied servicemen during World War Two As a result Neave was uniquely qualified to write this definitive and vivid account of M I 9 s achievements Back cover **MI9** MRD Foot, 2020-02-11 Many of the most famous escapes in history took place during the Second World War These daring flights from Nazi occupied Europe would never have been possible but for the assistance of a hitherto secret British service MI9 This small dedicated and endlessly inventive team gave hope to the men who had fallen into enemy hands and aid to resistance fighters in occupied territory It sent money maps clothes compasses even hacksaws and in return coded letters from the prisoner of war camps and provided invaluable news of what was happening in the enemy s homeland Understaffed and under resourced MI9 nonetheless made a terrific contribution to the Allied war effort First published in 1979 this book tells the full inside story of an extraordinary organisation *The Hidden Army - MI9's Secret Force and the Untold Story of D-Day* Matt Richards, 2018-07-05 Almost seventy five years ago MI9 dreamt up the most audacious escape and evasion plan of World War Two Formulated by Airey Neave one of the first men ever to escape from Colditz this plan was one of subterfuge concealment and deception on a scale never seen before With numerous downed RAF and Allied pilots on the run in Europe and with the fabled Comete Escape Line having been infiltrated by double agents Neave s plan was to hide these men right under the very noses of the Nazis rather than risk repatriation Choosing a forest in the heart of France right next to one of the German Army s largest ammunition bases Neave Belgian agents and the French Resistance would secretly transport and hide Allied pilots and soldiers within feet of the enemy Nobody thought it would work but such was the success of the secret camp that a whole community of over one hundred and fifty Allied escapers lived within the forest for three months in the run up to D Day Despite numerous close shaves they were never discovered and this outrageous plan brilliant in its simplicity saw the Allied evaders make their home in the forest cooking and hunting to survive and even setting up a golf course in the forest using branches for clubs without discovery This operation remained absolutely secret to the point that the inhabitants of the villages surrounding the forest were unaware until the end of the existence of that allied force so close to them Told through interviews with evaders members of the Resistance and the children charged with smuggling food into the forest this book tells the compelling story of one of the most audacious operations in World War Two A story that has until today remained as

secret as the Hidden Army of Freteval *Saturday at M.I.9* Airey Neave, 2004 *Saturday at M I 9* is the inside story of the underground escape lines in occupied North West Europe which brought back to Britain over 4 000 Allied servicemen during World War Two Airey Neave who in the last two years of the war was the chief organiser at M I 9 gives his own unique account He describes how the escape lines began in the first dark days of German occupation and how until the end of the war thousands of ordinary men and women made their own contribution to the Allied victory by hiding and feeding men and guiding them to safety There isn't a page in the book which isn't exciting in incident wise in judgment and absorbing through its human involvement *Times Literary Supplement*

The Long Road Back to Arnhem John Sliz, 2018-12-28 After their famous evacuation of the 1st British Airborne Division during Operation Berlin the 23rd Field Company R C E or Storm Boat Kings as they were nicknamed were given a number of unique tasks These included everything from helping M I 9 send agents behind enemy lines to training other units in the use of Storm boats *Silent Heroes* Sherri Greene Ottis, 2021-12-14 In the early years of World War II it was an amazing feat for an Allied airman shot down over occupied Europe to make it back to England By 1943 however pilots and crewmembers supplied with escape kits knew they had a 50 percent chance of evading capture and returning home An estimated 12 000 French civilians helped make this possible More than 5 000 airmen many of them American successfully traveled along escape lines organized much like those of the U S Underground Railroad using secret codes and stopping in safe houses If caught they risked internment in a POW camp But the French Belgian and Dutch civilians who aided them risked torture and even death Sherri Ottis writes candidly about the pilots and crewmen who walked out of occupied Europe as well as the British intelligence agency in charge of Escape and Evasion But her main focus is on the helpers those patriots who have been all but ignored in English language books and journals To research their stories Ottis hiked the Pyrenees and interviewed many of the survivors She tells of the extreme difficulty they had in avoiding Nazi infiltration by double agents of their creativity in hiding evaders in their homes sometimes in the midst of unexpected searches of their generosity in sharing their meager food supplies during wartime and of their unflagging spirit and courage in the face of a war fought on a very personal level

Downed Allied Airmen and Evasion of Capture Herman Bodson, 2005-09-27 This volume deals specifically with escape and evasion in the Netherlands Belgium and France an operation in which the author himself was directly

involved and discusses the role which these lines of escape played in the lives of airmen who were forced to bail out over enemy territory. He describes the ever present risks the often nameless patriots faced such as the danger of exposure and the threat of traitorous infiltration. Specific lines are traced geographically and their main participants discussed. Special emphasis is placed on the role of women in this resistance operation. Throughout the book the reader benefits not only from the author's own personal recollections but also from his later on location research. The final chapter concludes with statistical information directly related to this little known aspect of World War II. Appendices include lists of the airmen helped by the resistance movement.

RAF Evaders Oliver Clutton-Brock, 2009-02-19. Stories of the British airmen shot down over Western Europe who evaded capture by the Germans and made their way to Allied territory during World War II. During the five years from May 1940 to May 1945 several thousand Allied airmen forced to abandon their aircraft behind enemy lines evaded capture and reached freedom by land, sea and air. The territory held by the Germans was immense from Norway and Denmark in the north through Holland, Belgium, Luxembourg to the south of France and initially there was no organization to help the men on the run. The first one to assist the evaders and escapers was named after a naval officer, Pat O'Leary. From 1942 it became the PAO line. Next was the Comet line from Brussels to the Pyrenees. Thousands of brave people were to be involved for whom if caught the penalty was death. Theirs is a stirring and awe inspiring story. Respected historian Oliver Clutton Brock has researched in depth this secret world of evasion, uncovering some treachery and many hitherto unpublished details, operations and photos. It is a tremendous reference work written in his own colorful style with numerous anecdotes which fills a gap of knowledge formerly unavailable to historians, professional or amateur. Packed with information, key figure biographies and listings, 2,094 evaders identified, this is a valuable testimony to the courage of all those involved.

Diggers and Greeks Maria Hill, 2010. Little is known about the real reasons that Australia committed troops to Greece. Australian historians have for too long neglected the Greek and Crete campaigns and what has been written until now has ignored the Greek side of the story.

Free to Fight Again Alan W. Cooper, 2009-06-25. To survive bailing out from a doomed aircraft or a crash landing in enemy occupied territory certainly required a large element of luck. To then manage to return to Allied shores inevitably needed considerably more good fortune and often the assistance of local patriots and resistance workers. This book contains the amazing stories of over seventy such escapes, many first hand accounts. It includes aircrew who found their way to freedom from Europe and places as far away as the Bay of Bengal. There are stories of hijacked aircraft crossing crocodile infested swamps, evasion by camel and coffin survival in the jungle and brushes with the Gestapo.

The Spellmount Guide to London in the Second World War James Beardon, 2013-11-04. During the lead up to and over the course of the Second World War, London was a city transformed as it simultaneously became the front line and the command centre of Allied operations. The scale and speed of the city's transformation has been unparalleled in London's history as the government requisitioned buildings and defences were built while bombing wrought devastation across the city.

changing it forever This book will guide the reader as a virtual tourist or a real one around war time London Buildings that had a specific war time use or have a link to an important event that occurred during the war are revealed along with the often secret activities known only to a select few at the time of the organisations who occupied them Buildings used as air raid shelters iconic buildings damaged by enemy bombing and how London itself changed is all brought to life Clear maps make this a user friendly guide for the London explorer and the fascinating background information will enthrall the virtual tourist Selfridges was still a shopper s paradise during the war but what did the emporium hide in the basement **The**
