definitive biography Publishers Weekly starred review **Short Story Index** ,1965 **Hollywood TV** Christopher Anderson,2013-10-11 The 1950s was one of the most turbulent periods in the history of motion pictures and television During the decade as Hollywood s most powerful studios and independent producers shifted into TV production TV replaced film as America s principal postwar culture industry This pioneering study offers the first thorough exploration of the movie industry s shaping role in the development of television and its narrative forms Drawing on the archives of Warner Bros and David O Selznick Productions and on interviews with participants in both industries Christopher Anderson demonstrates how the episodic telefilm series a clear descendant of the feature film became and has remained the dominant narrative form in prime time TV This research suggests that the postwar motion picture industry was less an empire on the verge of ruin as common wisdom has it than one struggling under unsettling conditions to redefine its frontiers Beyond the obvious contribution to film and television studies these findings add an important chapter to the study of American popular culture of the postwar period *Government and Politics of Contemporary Berlin* Elmer Plischke,2012-12-06 Berlin lies more than 100 miles behind the Iron Curtain within the Soviet occupied zone of Germany It is not however part of that zone It is a separate political entity for which the four major allies of the war against Nazi tyranny are jointly responsible Its special status stems from the fact that it was the capital not only of Hitler s Third Reich but of the German nation formed in the latter half of the 19th century In essence the four major allies agreed to hold Berlin as the traditional capital in trust for a democratic and united Germany United States Department of State Berlin 1961 1961 The division of Germany and with it the bifurcation of its one time capital Berlin has produced one of the foremost political contro versies of the mid twentieth century There has long been a German problem and volumes have been written concerning the history and culture of the country the Nazi era and World War II the Allied occupation and recent political and economic developments in Ger many Yet the Berlin problem as part of the broader German question is historically of the current era **Vonnegut in Fact** Jerome Klinkowitz,2012-06-05 Insights into Vonnegut s extensive nonfiction as a key to understanding innovation in his novels Vonnegut in Fact offers a thorough assessment of the artistry of Kurt Vonnegut known not only as the best selling author of *Slaughterhouse Five* *Timequake* and a dozen other novels but also as the most widely recognized public spokesperson among writers since Mark Twain Jerome Klinkowitz traces the emergence of Vonnegut s nonfiction since the 1960s when commentary and feature journalism replaced the rapidly dying short story market Offering close readings and insightful criticism of Vonnegut s three major works of nonfiction his many uncollected pieces and his unique manner of public speaking Klinkowitz explains how Vonnegut s personal visions developed into a style of great public responsibility that mirrored the growth of his fiction Klinkowitz views his subject as a gentle manipulator of popular forms and an extremely personable figure what might seem radically innovative and even iconoclastic in his fiction becomes comfortably avuncular and familiarly American when followed to its roots in his public spokespersonship **Dean Acheson and the Making of U.S. Foreign Policy** Douglas

Brinkley,1993-04-12 President Truman's Secretary of State 1949-53 Dean Acheson was a crucial figure in the shaping of the postwar world In an astonishingly creative and demanding tenure Acheson was involved to a degree seldom realized today in a huge range of issues from the creation of NATO to the Korean War The result of a major commemorative conference this volume brings together ten distinguished diplomatic historians commissioned to write on various aspects of Acheson's career based on primary archival research **The Top of His Game: The Best Sportswriting of W. Hadley,2019-06-14 The US intelligence community as it

currently exists has been deeply influenced by the press Although considered a vital overseer of intelligence activity the press and its validity is often questioned even by the current presidential administration But dating back to its creation in 1947 the US Central Intelligence Agency CIA has benefited from relationships with members of the US press to garner public support for its activities defend itself from its failures and promote US interests around the world Many reporters editors and publishers were willing and even eager to work with the agency especially at the height of the Cold War That relationship began to change by the 1960s when the press began to challenge the CIA and expose many of its questionable activities Respected publications went from studiously ignoring the CIA's activities to reporting on the Bay of Pigs CIA pacification programs in Vietnam the CIA's war in Laos and its efforts to use US student groups and a variety of other non government organizations as Cold War tools This reporting prompted the first major congressional investigation of the CIA in December
