Arabs in Treatment: Yana Korobko,2016-08-19 When I was only starting the therapeutic work with the Middle Eastern patients I was looking for some kind of guidance to enable my genuine understanding of the Muslim patient cases However the material was scarce haphazardly scattered and mostly referring to the traditional therapies That was not helpful and was even more confusing With time I managed to amass my own systemized data based on regular observations practical cases reflections and exchanges with the colleagues This material helped me to approach each case individually while respecting the cultural environment of a patient Eventually the book was published This is the kind of book that I have always wanted to find and I had to write it eventually by myself The work contains the systematized knowledge on the evolution of scientific psychology in the Islamic world which starts with the prophetic times and continues until now The book reveals the signifiers which form a structure of a Muslim psyche It also exposes the recurrent mental health complaints of the Arab patients and investigates their unconscious roots The book is intended first of all for professionals who are directly related to the Muslim mental health care system Secondly it is for anyone who is considering undergoing a personal analysis And certainly the edition is for everyone interested in the subject This book does not intend to bring the answers It rather continues the dialogue regarding the necessity of creating the psychological counseling culture in the Muslim world

Japan and International Law, Past, Present and Future Nisuke Ando,2023-12-11 This book is a record of the international symposium held at the Kyoto International Conference Hall to mark the centennial of the Japanese Association of International Law The purpose of the symposium was to reflect on past Japanese practice to analyze current problems affecting Japan and to seek to clarify the future role of Japan in the global community in terms of international law After joining the international community in the middle of the nineteenth century Japan adopted a policy of wealth creation and armament in order to maintain its independence against the expanding Western States At the same time on the domestic scene Japan vigorously promoted the modernization Westernization of its political economic and social institutions Japan emerged as one of the victorious Principal Allied and Associated Powers in World War I and started asserting its place in the international order However in the aftermath of the Great Depression Japan failed to reach agreement with the international community eventually left the League of Nations invaded the Asian continent and met with complete military defeat in World War II In the subsequent years Japan toiled to rebuild its economy and to rejoin the world community but despite its

miraculous economic recovery and expansion Japan remains ambivalent in its policy of contributing to the maintenance of international peace and security During these one and a half centuries the Japanese practice of international law has covered a wide range of fields From these various fields the symposium took up three specific topics War and Peace Economy and Human Rights because of their relevance to past Japanese practice and because future Japanese practice in these areas would be bound to affect international law in the coming century In addition the symposium discussed Japanese transactions in general with international law The period covered by the symposium has witnessed many drastic changes in the world and international law which used to be applied almost exclusively to relations among the Western States has now come to be applied universally The Association wished to emphasize that an analysis of Japanese practice should be of significance for anyone interested in promoting and consolidating the rule of law in the world community at large

Middle East Economic Digest Elizabeth Collard, 1979-10 **NATO - Past, Present And Future** Edmond Nawrotzky-Török, 2002-01-31 Inhaltsangabe Abstract When talking about integration one must think first of all about the problems such an integration means Many Romanians nowadays look at the integration into the European and Euro Atlantic

structures only as a means of better living standards But very few Romanians might be willing to pay the price for the integration Nobody in Romania seems to know exactly the direction we are heading to But there must certainly be changes of the people s mentality if we want to achieve something at all Yet this problem does not concern Romanians alone The West generally regards Romania as a source of crime and at least for the moment does not even want to talk to Romania about our integration into the European Union although the negotiations have been started with all potential candidates at the same time Recently when about 500 gypsies created problems in Austria the country asked Hungary and the Czech Republic to introduce the visa system for Romanian citizens They obviously wanted the Romanians to be even more humiliated than they already were lining up also at Hungary s and the Czech Republic s embassies in order to be able to travel to those countries Mister Andrei Plesu the Romanian Foreign Affairs Minister said If 500 gypsies are able to destabilise Austria they are either first hand merchandise or Austria is a little bit frail On the other hand one cannot deny that Romanian citizens keep causing trouble to western European countries But the problem is that dubious people manage somehow to get visas while honest people are denied the basic right of travelling to foreign countries only because a few of their fellow citizens are being considered troublemakers If no visas were required only a small negligible margin of the Romanian citizens travelling abroad would be denied the permission to travel to western European countries again Then there is the problem of culture If you ask a Romanian citizen about the capital of a western European state it is less possible that he will not know it than if you asked a western European about Romania s capital For instance many Frenchmen are convinced that Budapest is Romania s capital A French band performing in Bucharest was warmly welcome and acclaimed until its members shouted I love you Budapest Of course the fact that western Europeans do not know eastern European capitals does not mean that people in western Europe are not civilised Romania
