Saudi Arabia Technocrats In A Traditional Society:

Saudi Arabia Henry H. Albers,1989 This fascinating book on the emerging technocratic elite in Saudi Arabia focuses upon several interrelated subjects One of them is the governance of a secular university within a context of conservative religious norms reinforced by an authoritarian regime Another is the response of a highly traditional society to an industrial revolution accompanied by the intrusion of Western culture Finally consideration is given to the new technocrats educated in American British and Saudi universities and their potential impact upon the ruling Al Sauds the Islamic religion international and oil policies and future political change *The Political Economy of Saudi Arabia* Tim Niblock,Monica Malik,2007-11-13

With Saudi Arabia being of immense importance both politically and economically in the Middle East this book provides a much needed broad ranging survey of the development of the Saudi economy from the 1960s to the present day Written by a highly reputable author the book includes an analysis of how political and social factors have shaped policy and how the Saudi state is coping with the dynamics of a rapidly changing economic and political situation **Saudi Arabia** Tim

Niblock,2004-08-02 Saudi Arabia provides a clear concise yet analytical account of the development of the Saudi state including discussion of the social and economic dynamics which underlie the country's politics **Princes, Brokers, and**

Bureaucrats Steffen Hertog,2011-04-27 In *Princes Brokers and Bureaucrats* the most thorough treatment of the political economy of Saudi Arabia to date Steffen Hertog uncovers an untold history of how the elite rivalries and whims of half a century ago have shaped today's Saudi state and are reflected in its policies Starting in the late 1990s Saudi Arabia embarked on an ambitious reform campaign to remedy its long term economic stagnation The results have been puzzling for both area specialists and political economists Saudi institutions have not failed across the board as theorists of the rentier state would predict nor have they achieved the all encompassing modernization the regime has touted Instead the kingdom has witnessed a bewildering range of thorough failures and surprising successes Hertog argues that it is traits peculiar to the Saudi state that make sense of its uneven capacities Oil rents since World War II have shaped Saudi state institutions in ways that are far from uniform Oil money has given regime elites unusual leeway for various institutional experiments in different parts of the state in some cases creating massive rent seeking networks deeply interwoven with local society in others large but passive bureaucracies in yet others insulated islands of remarkable efficiency This process has fragmented the Saudi state into an uncoordinated set of vertically divided fiefdoms Case studies of foreign investment reform labor market nationalization and WTO accession reveal how this oil funded apparatus enables swift and successful policy making in some policy areas but produces coordination and regulation failures in others **Historical Dictionary of Arab and**

Islamic Organizations Frank Clements,2001 Unity is an often heard word in Arab and Islamic circles This historical dictionary seeks to show that along with the underlying sources of unity there are also sources of division in these groups Unlike other volumes in this series this volume focuses not only on the organizations but also on the key countries and

Cordesman, 2005-09-30 With continuing instability in Iraq the threat of a nuclear Iran and the ever present reality of further terrorist attacks within its own borders Saudi Arabia has been forced to make some hard decisions The current structure of the Saudi security apparatus is only one pathway to improved security Economic and demographic threats may well be the hardest hurdles to overcome What has been accomplished since 2001 and what are the real prospects and implications of further reform To what extent should the kingdom continue to rely on the US to protect its interests Cordesman and Obaid argue that it is time to put an end to client and tutorial relations Saudi Arabia must emerge as a true

partner This will require the creation of effective Saudi forces for both defense and counterterrorism Saudi Arabia has embarked on a process of political economic and social reforms that reflects a growing understanding by the governing members of the royal family Saudi technocrats and Saudi businessmen that Saudi Arabia must reform and diversify its economy and must create vast numbers of new jobs for its young and growing population There is a similar understanding that economic reform must be combined with some level of political and social reform if Saudi Arabia is to remain stable in the face of change With Gulf security the war on terrorism and the security of some sixty percent of the world's oil reserves at stake the real question is how quickly Saudi Arabia can change and adapt its overall approach to security and how successful it will be in the process 2003, /((□□□□-□□□□)□□□□□□□□ □□□□□ □□□□□□□□ □□□□□□□□□□ **Saudi Arabia**
