Fahd University of Petroleum and Minerals **Economic Development in Saudi Arabia** Ahmed Al Rajhi, Abdullah Al Salamah, Monica Malik, Rodney Wilson, 2012-10-12 The changing political situation in the Middle East poses challenges for the economies of the region and some see none more vulnerable to collapse than Saudi Arabia's Yet as this study demonstrates the fundamentals of the Kingdom's economy are relatively robust as over three quarters of GDP is accounted for by the non oil sector and impressive modern industries have been established notably in petrochemicals The financial system functions well and despite substantial government debts there is low inflation and currency stability The private sector increasingly drives the economy although job creation has been insufficient to prevent rising youth unemployment The development challenges Saudi Arabia faces are similar to those of other middle income countries and three decades of diversification have made the economy less unique than it was in the oil boom years of the 1970s The Political Economy of Saudi Arabia Tim Niblock, Monica Malik, 2007-11-13 With Saudi Arabia being of immense importance both politically and economically in the Middle East this book provides a much needed broad ranging survey of the development of the Saudi economy from the 1960s to the present day Written by a highly reputable author the book includes an analysis of how political and social factors have shaped policy and how the Saudi state is coping with the dynamics of a rapidly changing economic and political situation The Economy of Saudi Arabia Donald M. Moliver, Paul J. Abbondante, 1980 Business and Economic Development in Saudi Arabia J.W. Wright Jr, 2016-07-27 Few economies have witnessed such accelerated economic growth as that arising from Saudi Arabia's discovery of oil These essays introduce the complexities of the cultural economic and legal issues that determine business practices in Saudi Arabia Contributions recognize that while economic activity is dominated by the oil industry it also boasts a diversified commercial environment The collection combining historical perspective academic research and practical observation is accessible and timely reading for those wishing to undertake business in Saudi Arabia *The Future of the Saudi Arabian Economy* Ådne Cappelen, Robin Choudhury, 2000

Saudi Arabia: Rush to Development Ragaei al Mallakh, 2015-05-15 Saudi Arabia is one of the most controversial and least known of the Arab nations A land of massive contrasts between its densely populated cities and its vast expanses of desert between the recent poverty of its villages and the massive wealth created by oil which is drawing a labour force from most of the neighbouring countries between the aggressive technocratic and industrial thrust forward and the strongly traditionalist Islamic basis of the ruling ideologies it has progressed to world prominence in a matter of years after centuries of little or no change The change is not so much a surge or even a thrust as a rush into the industrialized and wealthy world This book analyzes the problems and achievements of Saudi development and provides the first detailed critique of the Third Development Plan First published in 1982 **State, Society and Economy in Saudi Arabia (RLE Saudi Arabia)** Tim Niblock, 2015-02-20 Saudi Arabia is one of the most important countries in the modern world Not only does it possess some 25 per cent of the world's proven oil reserves it also plays a crucial role in the wider Gulf region where over 50 per cent of

proven reserves are located. Developments in Saudi Arabia will inevitably affect the economic well being of the Western industrialised world. Japan and much of the Third World. At the same time Saudi Arabia is ruled in a traditional way by an all powerful king and royal family and is one of the key countries of Islam the Holy City of Mecca being within the country's boundaries. The inroad of modern Western forces into this traditional Islamic society is underlined by the fact that many key posts are filled with imported Western workers. This book first published in 1982 containing contributions by the world's leading Middle Eastern experts provides a comprehensive overview of important social, political and economic developments in Saudi Arabia. The opening chapters consider the formation of the Saudi State and the bulk of the book surveys key themes such as political opposition, the oil industry, energy policy, banking, external relations and the future direction of development.

Saudi Arabian Industrial Investment Wahib A Soufi, Richard Mayer, 1991. Based on a 1986 survey, this book focuses on the efforts to stimulate private industrial development in the manufacturing sector of the Saudi Arabian economy. The authors provide background on the link between the Saudi government and business, analyze potential relationships, chart the effect of communications, expectations and perceptions on government-business relationships and update the study's original data and conclusions for the period 1987-1990. The Saudi Arabian Economy Ali D. Johany, Michel Berne, J. Wilson, Jr., Arab Economies in the Twenty-First Century Paul Rivlin, 2009-02-09. This book examines the relationship between demographic growth and economic development in eight Arab countries. Despite a slowdown in demographic growth as a result of the change in the age structure of the population, the labor force is increasing rapidly. In other parts of the world, similar developments have enhanced economic growth. In the Arab world, however, many of the opportunities presented by demographic transition are being lost, resulting in serious threats to the political stability of the region. The main reason for this is that the region has missed out on industrialization. The book goes beyond conventional analysis to ask two closely related questions. The first is why were governments so slow in tackling stability. The second is why has the response been similar in apparently different economies. Answers are provided using new literature in economics and economic history.

Saudi Arabia, Rush to Development Ragaei El Mallakh, 1982.

The Economies of the Arab World Yusuf Sayigh, 2014-10-30. This book, a comprehensive study of twelve of the economies of key countries of the Arab world, has three main objectives: to record the developmental achievements and failings of each

country to examine the main issues arising in the drive for development and to assess the future outlook for development for each country. Most of the countries studied only gained independence from their colonial masters in recent decades and the process of economic development has necessarily been accompanied by political development. First published in 1978.

Institutions and Macroeconomic Policies in Resource-rich Arab Economies Kamiar Mohaddes, Jeffrey B. Nugent, Hoda Selim, 2019. For over eighty years the Arab region has been deriving massive wealth from its natural resources. Nevertheless its economic performance has been at the mercy of ebbs and flows of oil prices and its resources have been slowly depleting. The two critical questions are why and how Arab countries might escape the oil curse. Institutions and Macroeconomic Policies in Resource Rich Arab Economies focuses on the unique features of the Arab world to explain the disappointing outcomes of macroeconomic policy. It explores the interaction between oil and institutions to draw policy recommendations on how Arab countries can best exploit their oil revenues to avoid the resource curse. Case studies and contributions from experts provide an understanding of macroeconomic institutions including their underlying rules, procedures and institutional arrangements in oil-rich Arab economies and of their political economy environment which has largely been overlooked in previous research. Institutions and Macroeconomic Policies in Resource Rich Arab Economies offers novel macroeconomic policy propositions for exchange rate regimes, fiscal policy and oil wealth distribution that is more consistent with macroeconomic stability and fiscal sustainability. These policy reforms, if implemented successfully, could go a long way in helping the resource-rich countries of the Arab region and elsewhere to avoid the oil curse.

Financial Markets and Institutions in the Arab Economy Niḍāl Rashīd Ṣabrī, 2008. This book aims to trace and point out the recent developments occurred in the Arab Economy in the last two decades, including trends toward integration, liberalisation and globalisation. This book indicates the most recent changes in the Arab Financial Institutions, including banks, insurance companies, pension funds and other financial institutions. There is also the discussion of issues in market stability and efficiency in the light of the new Arab environment of stock trading. This book is a comprehensive text covering the Arab Financial Sector.
