Modernity and the Ideals of Arab-Islamic and Western-Scientific Philosophy A. Z. Obiedat, 2022-07-08 This is the first study to compare the philosophical systems of secular scientific philosopher Mario Bunge 1919 2020 and Moroccan Islamic philosopher Taha Abd al Rahman b 1945 In their efforts to establish the philosophical underpinnings of an ideal modernity these two great thinkers speak to the same elements of the human condition despite their opposing secular and religious worldviews While the differences between Bunge s critical realist epistemology and materialist ontology on the one hand and Taha s spiritualist ontology and revelational mystical epistemology on the other are fundamental there is remarkable common ground between their scientific and Islamic versions of humanism Both call for an ethics of prosperity combined with social justice and both criticize postmodernism and religious conservatism The aspiration of this book is to serve as a model for future dialogue between holders of Western and Islamic worldviews in mutual pursuit of modernity s best case scenario The Arab-U.S. Strategic Partnership and the Changing Security Balance in the Gulf Anthony H.

Cordesman, 2015-11-10 The ongoing confrontation with Iran the war against ISIL the instability in Iraq the Civil war in Syria and the conflict in Yemen have all caused major changes in the security situation in the Persian Gulf and in the regional military balance The strategic partnership between Arab Gulf states and with the United States and other outside states must now evolve to deal with conventional military threats and a range of new threats including ideological extremists non state actors and their state sponsors and a growing range of forces designed to fight asymmetric wars This new report from the CSIS Burke Chair in Strategy provides a 2015 assessment of the Gulf military balance the military capabilities of each Gulf state the role of the United States as a security partner and the priorities for change in the structure of both the Gulf Cooperation Council and the Arab Gulf military partnership with the United States The assessment goes far beyond the conventional military balance and examines how force developments in the region affect joint and asymmetric warfare missiles and missile defense nuclear forces as well as terrorism the role of non state actors and outside powers

The Arabian Peninsula Derek Hopwood, 2015-07-24 Although the Arabian Peninsula is the heartland of Islam and of the Arab world for decades it did not receive the attention it deserves from scholars and writers The School of Oriental and African Studies University of London and the Middle East

Centre of St Antony's College Oxford jointly organized a series of seminars culminating in a conference at which the papers in this volume first published in 1972 were discussed. Together they constitute an authoritative statement of our present knowledge of several areas of the Peninsula with particular emphasis on the Gulf States. Three chapters trace the history of Oman from pre-Islamic times to the recent past and in so doing emphasize the theme of continuing conflict between sultan and imam. Other chapters examine the Gulf and the Peninsula from the standpoint of inter-Arab and of international relations. The third section of the book is devoted to a discussion of the increasing rate of social change in the area and the final section deals with problems of oil and state and of economic development. **Crosscurrents in the Gulf** John

Peterson, Richard Sindelar, 2021-12-24 The discovery of oil in the Gulf revolutionised its social and economic relationship with the West. This book provides a broad overview of foreign policy imperatives, an examination of three of the most important issues: the Iran-Iraq war, OPEC, socio-political extremism, and finally a closer inspection of three of the key players in that area: Oman, Saudi Arabia and the United Arab Emirates.
