Empire of Religion David Chidester, 2014-03-19 How is knowledge about religion and religions produced and how is that knowledge authenticated and circulated David Chidester seeks to answer these questions in *Empire of Religion* documenting and analyzing the emergence of a science of comparative religion in Great Britain during the second half of the nineteenth century and its complex relations to the colonial situation in

southern Africa In the process Chidester provides a counterhistory of the academic study of religion an alternative to standard accounts that have failed to link the field of comparative religion with either the power relations or the historical contingencies of the imperial project In developing a material history of the study of religion Chidester documents the importance of African religion the persistence of the divide between savagery and civilization and the salience of mediations imperial colonial and indigenous in which knowledge about religions was produced He then identifies the recurrence of these mediations in a number of case studies including Friedrich Max Müller's dependence on colonial experts H Rider Haggard and John Buchan's fictional accounts of African religion and W E B Du Bois's studies of African religion By reclaiming these theorists for this history Chidester shows that race rather than theology was formative in the emerging study of religion in Europe and North America Sure to be controversial *Empire of Religion* is a major contribution to the field of comparative religious studies

Sizemore,2017-11-01 The demise of the monarchy and the bodily absence of a King caused a representational crisis in the early republic forcing the American people to reconstruct the social symbolic order in a new and unfamiliar way Social historians have routinely understood the Revolution and the early republic as projects dedicated to and productive of reason with the people as an orderly and sensible collective at odds with the volatile and unthinking crowd American Enchantment rejects this traditionally held vision of a rational public sphere arguing that early Americans dealt with the post monarchical crisis by engaging in civil mysticism not systematic discussion and debate By evaluating a wide range of social and political rituals and literary and cultural discourses Sizemore shows how enchantment becomes a vital mode of enacting the people

after the demise of traditional monarchical forms In works by Charles Brockden Brown Washington Irving Catharine Sedgwick and Nathaniel Hawthorne as well as in Delaware oral histories accounts of George Washington's inauguration and Methodist conversion narratives enchantment is an experience uniquely capable of producing new forms of popular power and social affiliation Recognizing the role of enchantment in constituting the people overturns some of the most common sense assumptions in the post revolutionary world above all that the people are not simply a flesh and blood substance but also a mystical force

Re-Enchanted Maria Sachiko Cecire, 2019-12-17 From The Hobbit to Harry Potter how fantasy harnesses the cultural power of magic medievalism and childhood to re-enchant the modern world Why are so many people drawn to fantasy set in medieval British looking lands This question has immediate significance for millions around the world from fans of Lord of the Rings Narnia Harry Potter and Game of Thrones to those who avoid fantasy because of the racist sexist and escapist tendencies they have found there Drawing on the history and power of children's fantasy literature Re-Enchanted argues that magic medievalism and childhood hold the paradoxical ability to re-enchant modern life Focusing on works by authors such as J R R Tolkien C S Lewis Susan Cooper Philip Pullman J K Rowling and Nnedi Okorafor Re-Enchanted uncovers a new genealogy for medievalist fantasy one that reveals the genre to be as important to the history of English studies and literary modernism as it is to shaping beliefs across geographies and generations Maria Sachiko Cecire follows children's fantasy as it transforms over the twentieth and twenty first centuries including the rise of diverse counternarratives and fantasy's move into high brow literary fiction Grounded in a combination of archival scholarship and literary and cultural analysis Re-Enchanted argues that medievalist fantasy has become a psychologized landscape for contemporary explorations of what it means to grow up live well and belong The influential Oxford School of children's fantasy connects to key issues throughout this book from the legacies of empire and racial exclusion in children's literature to what Christmas magic tells us about the roles of childhood and enchantment in Anglo American culture Re-Enchanted engages with critical debates around what constitutes high and low culture during moments of crisis in the humanities political and affective uses of childhood and the mythological past the

anxieties of modernity and the social impact of racially charged origin stories Enchanted Ground Arthur Johnston, 2014-01-13 The beginnings of modern literary scholarship in Britain are studied in this volume which traces the emergence between about 1760 and 1810 in the work of Richard Hurd Thomas Percy Thomas Warton Joseph Ritson George Ellis and Sir Walter Scott of a serious scholarly approach to the English metrical romances of the middle ages These scholars however were not concerned solely with the rediscovery and editing of the original texts which two centuries of growing antiquarian research had ignored Almost without exception men of letters themselves they desired also to recover the world of fine fabling in which the classical temper of the preceding age had preferred the virtues of good sense and they consciously put their discoveries to the service of modern poetry or urged that they should be so used The consequences of this were far reaching and as he considers in detail the individual achievements of his principal subjects Dr Johnston does not neglect to bring out the nature and importance of the contributions they made to the general culture and literature of their own day and of the nineteenth century The Enchantments of Mammon Eugene McCarraher, 2019-11-12 An extraordinary work of intellectual history as well as a scholarly tour de force a bracing polemic and a work of Christian prophecy McCarraher challenges more than 200 years of post Enlightenment assumptions about the way we live and work The Observer At least since Max Weber capitalism has been understood as part of the disenchantment of the world stripping material objects and social relations of their mystery and magic In this magisterial work Eugene McCarraher challenges this conventional view Capitalism he argues is full of sacrament whether one is prepared to acknowledge it or not First flowering in the fields and factories of England and brought to America by Puritans and evangelicals whose doctrine made ample room for industry and profit capitalism has become so thoroughly enmeshed in the fabric of our society that our faith in the market has become sacrosanct Informed by cultural history and theology as well as management theory The Enchantments of Mammon looks to nineteenth century Romantics whose vision of labor combined reason creativity and mutual aid for salvation In this impassioned challenge to some of our most firmly held assumptions McCarraher argues that capitalism has hijacked our intrinsic longing for divinity and urges us to break its hold on our souls A majestic achievement It is a work of great moral and spiritual intelligence and one that invites contemplation about things we can't afford not to care about deeply Commonweal More brilliant more capacious and more entertaining page by page than his most ardent fans dared hope The magnitude of his accomplishment an account of American capitalism as a religion will stun even skeptical readers Christian Century
