Field,2014-07-30 As a piece of historical research this is a force majeure a must read for anyone interested in the

Napoleonic Wars by the author of Waterloo Federation of Family History Societies The Battle of Quatre Bras was critical to the outcome of the Waterloo campaign to the victory of the allied armies of Wellington and Blücher the defeat of the French and the fall of Napoleon But it has been overshadowed by the two larger scale engagements at Ligny and at Waterloo itself And too often the clash at Quatre Bras has been seen mainly through the eyes of the British and their allies the viewpoint of the French has been neglected It is this weakness in the history of the battle that Andrew Field focuses on in this original and highly readable new study Drawing on French eyewitness recollections and later commentary he reconstructs the French experience of the battle and the French interpretation of it He quotes extensively and subjects to critical analysis the conflicting accounts written by Napoleon and his subordinates as they sought justify their decisions and actions at this pivotal moment in the campaign Andrew Field writes with a light touch that makes a very detailed discussion of this significant event of the Hundred Days campaign a pleasure to read This volume is an ideal companion to his previous book on Waterloo and to Robinson's account of Quatre Bras Miniature Wargames Magazine Offer's a new perspective of this significant confrontation that is often overshadowed by Ligny and Waterloo Gloire Empire *Savagery and Colonialism in the Indian Ocean* Satadru Sen, 2009-12-22 This book examines savagery and the savage as dynamic components of colonialism in South Asia Focusing on the colonial discourses of race criminality civilization and savagery it illuminates and historicizes the processes by which the discourse of savagery was expressed in the Andamans British India Britain and the wider empire **This Violent Empire** Carroll Smith-Rosenberg, 2012-12-01 This Violent Empire traces the origins of American violence racism and paranoia to the founding moments of the new nation and the initial instability of Americans national sense of self Fusing cultural and political analyses to create a new form of political history Carroll Smith Rosenberg explores the ways the founding generation lacking a common history governmental infrastructures and shared culture solidified their national sense of self by imagining a series of Others African Americans Native Americans women the propertyless whose differences from European American male founders overshadowed the differences that divided those founders These Others dangerous and polluting had to be excluded from the European American body politic Feared but also desired they refused to be marginalized incurring increasingly enraged enactments of their political and social exclusion that shaped our long history of racism xenophobia and sexism Close readings of political rhetoric during the Constitutional debates reveal the genesis of this long history **Defoe's Major Fiction** Elizabeth R. Napier, 2016-01-28 This book focuses on the pervasive concern with narrativity and self construction that marks Defoe's first person fictional narratives Defoe's fictions focus obsessively and elaborately on the act of storytelling not only in his creation of idiosyncratic voices preoccupied with the telling and often the concealing of their own life stories but also in his narrators repeated aversion to other untold stories that compete for attention with their own Defoe's narratives raise profound questions about selfhood and agency as well as demonstrate competing attitudes about narration in his fictive worlds His canon exhibits a broad range of first person

fictional accounts from pseudo memoir *A Journal of the Plague Year* Memoirs of a Cavalier to criminal autobiography Moll Flanders to confession Roxana and the narrators of these accounts secretive compulsive fractive exhibit an array of resistances to the telling of their life stories Such experiments with narration evince Defoe's deep involvement in projects of self description and delineation as he interrogates the boundaries of the self and dramatizes the arduousness of self accounting Defoe's fictions are emphatically consciousness centered and the significance of such a focus to the development of the novel is patently as great as is his realistic style Defoe's narrative project in fact challenges current views on the moment at which inwardness and interiority begin as Lukacs argued to comprise the subject matter of the novel implicitly attributing to identity and consciousness a place of signal and complex importance in the new genre

Disciplined

Natives Satadru Sen, 2012 This volume examines three interrelated aspects of the history of British India race the disciplining institution and attempts by the colonized to imagine states of freedom They deal with sites as diverse as the prison the family the classroom the playing field and children's literature The essays confront the ideological social and political ramifications of the fact that even as metropolitan prisons and schools shifted their attention from the body to the confined soul colonial disciplinary institutions ensured that race was firmly attached to the body and its habits They also engage the historiography that has sought to underline the challenges of reconciling Michel Foucault and Edward Said They ask whether the liberating possibilities of the racialized and embodied native self were confined to inversions and rearrangements of given normative hierarchies or if we can occasionally glimpse radical departures and alternative configurations of power

Dale Launderville, 2007 Ezekiel's symbolic thinking is an integrative rationality in which reason is regarded as operating within the heart through the empowerment and guidance of the Spirit *Darwin and the Making of Sexual Selection* Evelleen Richards, 2017-04-27 Darwin's concept of natural selection has been exhaustively studied but his secondary evolutionary principle of sexual selection remains largely unexplored and misunderstood Yet sexual selection was of great strategic importance to Darwin because it explained things that natural selection could not and offered a naturalistic as opposed to divine account of beauty and its perception Only now with Darwin

and the Making of Sexual Selection do we have a comprehensive and meticulously researched account of Darwin's path to its formulation one that shows the man rather than the myth and examines both the social and intellectual roots of Darwin's theory Drawing on the minutiae of his unpublished notes annotations in his personal library and his extensive correspondence Evelleen Richards offers a richly detailed multilayered history Her fine grained analysis comprehends the extraordinarily wide range of Darwin's sources and disentangles the complexity of theory practice and analogy that went into the making of sexual selection Richards deftly explores the narrative strands of this history and vividly brings to life the chief characters involved A true milestone in the history of science Darwin and the Making of Sexual Selection illuminates the social and cultural contingencies of the shaping of an important if controversial biological concept that is back in play in current evolutionary theory

The Living Ancestors Zeljko Jokic, 2015-09-01 This phenomenologically oriented ethnography focuses on experiential aspects of Yanomami shamanism including shamanistic activities in the context of cultural change The author interweaves ethnographic material with theoretical components of a holographic principle or the idea that the part is equal to the whole which is embedded in the nature of the Yanomami macrocosm human dwelling multiple soul components and shamans relationships with embodied spirit helpers This book fills an important gap in the regional study of Yanomami people and on a broader scale enriches understanding of this ancient
