Jackson, 2003-11-01 Lachlan McIntosh 1728 1806 was a prominent Georgia planter patriarch of his Highland Scots clan in America and the ranking general from Georgia in the Continental army Often however he is known simply as the man who in a duel mortally wounded Button Gwinnett one of Georgia's signers of the Declaration of Independence This biography fleshes out McIntosh considerably and just as important uses his life as a springboard for discussing the rapidly shifting political social and economic forces at work during a crucial period of Georgia's history Union Catalog of the History and Genealogy Resources Available at the South Georgia Regional Library System's Special Collections, the Valdosta State University Special Collections, and the Lowndes County Historical Society Library: Valdosta State University's Odum Library's Special Collections ,2001 **Concealed Weapon Laws of the Early Republic** Clayton E. Cramer, 1999-08-30 Cramer's work examines the motivations and legislative history behind the nation's first laws regulating the carrying of concealed deadly weapons and establishes a previously unexplored link between these laws and efforts to suppress dueling in the southern back country Earlier attempts to analyze these laws focused upon efforts to maintain slavery by severely restricting the rights of free blacks if free blacks could not possess arms and lacked other basic rights slaves would be less inclined to seek their freedom Cramer rejects such thinking by demonstrating that the concealed weapon laws of the early republic were not racially motivated He further supports the work of other scholars who have lately examined the role of Scots Irish immigrants in creating a distinctive southern back country culture of honor violence including dueling and brawling It was the attempt to control such violence Cramer argues that led to the concealed weapons laws Thus rather than considering gun control laws primarily as legal or constitutional history this study starts from a cultural and historical viewpoint Southern state legislatures sought to improve the morals of their back country population through increasingly severe punishments for dueling When judges and juries regularly refused to convict duelists these legislatures created extrajudicial punishments by requiring elected and appointed officials as well as lawyers to swear oaths of non participation in dueling Young men obsessed with honor and reluctant to perjure themselves for fear of damaging their public reputation soon took to carrying Bowie knives and handguns with which to kill those who insulted them a perfectly honorable action to much of the population The state legislatures then severely regulated carrying of concealed deadly weapons in the hope of suppressing the bloody results of what had been until then an accepted practice Savannah Duels and Duellists, 1733-1877 by Thomas Gamble Review Publishing and Printing Company, Savannah, Ga, 1923 **The Origins of the Southern Middle Class, 1800-1861** Jonathan Daniel Wells, 2005-11-16 With a fresh take on social dynamics in the antebellum South Jonathan Daniel Wells contests the popular idea that the Old South was a region of essentially two classes planters and slaves until after the Civil War He argues that in fact the region had a burgeoning white middle class including merchants doctors and teachers that had a profound impact on southern culture the debate over slavery and the

coming of the Civil War Wells shows that the growth of the periodical press after 1820 helped build a cultural bridge between the North and the South and the emerging southern middle class seized upon northern middle class ideas about gender roles and reform politics and the virtues of modernization Even as it sought to emulate northern progress however the southern middle class never abandoned its attachment to slavery By the 1850s Wells argues the prospect of industrial slavery in the South threatened northern capital and labor causing sectional relations to shift from cooperative to competitive Rather than simply pitting a backward slave labor agrarian South against a progressive free labor industrial North Wells argues that the Civil War reflected a more complex interplay of economic and cultural values
