The Georgia Historical Quarterly ,1924 *Daughters of the American Revolution Magazine* ,1925 Lachlan McIntosh and the Politics of Revolutionary Georgia Harvey H. Jackson,2003-11-01 Lachlan McIntosh 1728 1806 was a prominent Georgia planter patriarch of his Highland Scots clan in America and the ranking general from Georgia in the Continental army Often however he is known simply as the man who in a duel mortally wounded Button Gwinnett one of Georgia s signers of the Declaration of Independence This biography fleshes out McIntosh considerably and just as important uses his life as a springboard for discussing the rapidly shifting political social and economic forces at work during a crucial period of Georgia s history *Concealed Weapon Laws of the Early Republic* Clayton E. Cramer,1999-08-30 Cramer s work examines the motivations and legislative history behind the nation s first laws regulating the carrying of concealed deadly weapons and establishes a previously unexplored link between these laws and efforts to suppress dueling in the southern back country Earlier attempts to analyze these laws focused upon efforts to maintain slavery by severely restricting the rights of free blacks if free blacks could not possess arms and lacked other basic rights slaves would be less inclined to seek their freedom Cramer rejects such thinking by demonstrating that the concealed weapon laws of the early republic were not racially motivated He further supports the work of other scholars who have lately examined the role of Scots Irish immigrants in creating a distinctive southern back country culture of honor violence including dueling and brawling It was the attempt to control such violence Cramer argues that led to the concealed weapons laws Thus rather than considering gun control laws primarily as legal or constitutional history this study starts from a cultural and historical viewpoint Southern state legislatures sought to improve the morals of their back country population through increasingly severe punishments for dueling When judges and juries regularly refused to convict duelists these

legislatures created extrajudicial punishments by requiring elected and appointed officials as well as lawyers to swear oaths of non participation in dueling Young men obsessed with honor and reluctant to perjure themselves for fear of damaging their public reputation soon took to carrying Bowie knives and handguns with which to kill those who insulted them a perfectly honorable action to much of the population The state legislatures then severely regulated carrying of concealed deadly weapons in the hope of suppressing the bloody results of what had been until then an accepted practice

The American Revolution in Georgia, 1763-1789 Kenneth Coleman, 2021-10-15 The American Revolution in Georgia explores the political economic and social impacts of the American Revolution throughout the state of Georgia In this detailed historical study Kenneth Coleman describes the events leading up to the Revolution the fighting years of war and the years of readjustment after independence became a reality for the United States Coleman investigates how these events impacted Georgia s history forever from the rise of discontent between 1764 and 1774 to the fighting after the siege in Savannah between 1779 and 1782 and changes in interstate affairs between 1782 to 1789 and more The American Revolution in Georgia contributes to the complicated history of the American Revolution and its impacts on the South The Georgia Open History Library has been made possible in part by a major grant from the National Endowment for the Humanities Democracy demands wisdom Any views findings conclusions or recommendations expressed in this collection do not necessarily represent those of the National Endowment for the Humanities

[The Origins of the Southern Middle Class, 1800-1861](#) Jonathan Daniel Wells, 2005-11-16 With a fresh take on social dynamics in the antebellum South Jonathan Daniel Wells contests the popular idea that the Old South was a region of essentially two classes planters and slaves until after the Civil War He argues that in fact the region had a burgeoning white middle class including merchants doctors and teachers that had a profound impact on southern culture the debate over slavery and the coming of the Civil War Wells shows that the growth of the periodical press after 1820 helped build a cultural bridge between the North and the South and the emerging southern middle class seized upon northern middle class ideas about gender roles and reform politics and the virtues of modernization Even as it sought to emulate northern progress however the southern middle class never abandoned its attachment to slavery By the 1850s Wells argues the prospect of industrial slavery in the South threatened northern capital and labor causing sectional relations to shift from cooperative to competitive Rather than simply pitting a backward slave labor agrarian South against a progressive free labor industrial North Wells argues that the Civil War reflected a more complex interplay of economic and cultural values
