

Introduction: Time for a Change

There's no place like Earth. It's the only planet in this solar system where we can breathe the air and walk around without a spacesuit! Our planet has been an orbiting life-support system for hundreds of millions of years.

People, on the other hand, have only been around for about 100,000 years. Yet today there are more of us than any other animal, fish, or bird. And a lot of our daily habits are adding up to big trouble for the planet:

- Our car habit is fouling Earth's air.
- Our throw-away habit is dirtying Earth's water.
- Our expensive habits (like wearing fur coats and ivory jewelry) are threatening Earth's other animals.

But there's something we can all do to save Earth—change our habits.

And changing our habits means taking action against pollution—action that starts small, like sorting garbage and riding bikes. With thousands of people doing it, we'll have a cleaner and healthier planet.

Saving the planet isn't an easy job—it won't happen overnight. It will take time for all of us to decide to change our habits and put a little Earth Action into our lives. But it's happening already,

and it's happening all over the world.

What's Earth Action? It's when parents stop buying apples and apple juice sprayed with an unhealthy chemical called Alar. It's when people vote for politicians who put the planet's health before company or individual profits. And it's when kids start a save-the-planet club and convince their school to recycle paper.

More people than ever are working to make Earth a cleaner, safer place. You can join them. On nearly every page of this book, you'll find at least one way you can help save the planet. Choose a few to start with and put a little Earth Action in your life today!

Families, the Environment, Sports and Competition David Cook Publishers, 2000-06 It s All in the Family The word family has a very different meaning today than it did not much more than ten years ago It used to be the family meant two parents and their children all living together often with the father being the provider and the mother the homemaker Today fewer children live in that kind of family No doubt in your class you have some kids who live in single parent homes or step families or at least one child who is living in an abusive situation In America today many millions of our children are experiencing great stress in the setting that God intended to be the source of love security and teaching about life Even children who live in two parent families are often anxious about the possibility of a divorce happening in their families and those who have experienced divorce or abuse struggle to cope with their situations This unit will address some of these issues giving your students a safe place to talk about any concerns they may have about their families It will also present perspective by reassuring them that there are no perfect families and that they can enjoy living in their families when they learn that everyone has to work hard to make a family special You will also have an opportunity to share with them the privilege they have to belong to God s family and show them how they can respond to God s invitation to do so and
