Tetteh,2019-09-18 In 2014 Dr Hassan A Tetteh delivered a deeply inspiring keynote to first year medical students during their White Coat Ceremony at his medical school alma mater Now published for the first time in book form with illustrations from his daughter The Art of Human Care presents Tetteh's words of wisdom and answers the question How can we change the world through healing Dr Tetteh shares how his own life altering near death experience profoundly affected his approach to health care and ultimately led to his development of The Art of Human Care theory Though his near death ordeal took place before he became a doctor before he was even accepted to medical school this experience helped him embrace the mind body spirit connection that informs his practice every day In The Art of Human Care Dr Tetteh combines many of his own personal stories with the healing power of art His down to earth humanitarianism and unique perspective on what it truly means to heal will inspire readers to learn how they too can turn passion into a purpose work every day to make the impossible possible and save the world one patient at a time With health wisdom reveals itself art becomes manifest we have strength to fight life's challenges our wealth becomes useful we may apply our intelligence and positively change the world for generations Dr Hassan A Tetteh [Giving Up Baby](#) Laury Oaks,2015-06-05 Baby safe haven laws which allow a parent to relinquish a newborn baby legally and anonymously at a specified institutional location such as a hospital or fire station were established in every state between 1999 and 2009 Promoted during a time of heated public debate over policies on abortion sex education teen pregnancy adoption welfare immigrant reproduction and child abuse safe haven laws were passed by the majority of states with little contest These laws were thought to offer a solution to the consequences of unwanted pregnancies mothers would no longer be burdened with children they could not care for and newborn babies would no longer be abandoned in dumpsters Yet while these laws are well meaning they ignore the real problem some women lack key social and economic supports that mothers need to raise children Safe haven laws do little to help disadvantaged women Instead advocates of safe haven laws target teenagers women of color and poor women with safe haven information and see relinquishing custody of their newborns as an act of maternal love Disadvantaged women are preemptively judged as bad mothers whose babies would be better off without them

Laury Oaks argues that the labeling of certain kinds of women as potential bad mothers who should consider anonymously giving up their newborns for adoption into a loving home should best be understood as an issue of reproductive justice. Safe haven discourses promote narrow images of who deserves to be a mother and reflect restrictive views on how we should treat women experiencing unwanted pregnancy.
