Dedek,2017-06-12 In *The Cemeteries of New Orleans* Peter B Dedek reveals the origins and evolution of the Crescent City s world famous necropolises exploring both their distinctive architecture and their cultural impact Drawing on a fascinating body of research Dedek takes readers from muddy fields of crude burial markers to extravagantly designed cities of the dead illuminating a vital and vulnerable piece of New Orleans s identity Where many histories of New Orleans cemeteries focus on the famous people buried within them Dedek sets his sights on the marble cutters burial society members journalists and tourists who shaped these graveyards into

internationally recognizable emblems of the city In his detailed exploration of cemetery architecture Dedek reveals the impacts of ancient and medieval grave traditions and styles the city s geography and the arrival of trained European tomb designers such as the French architect J N B de Pouilly in 1833 and Italian artist and architect Pietro Gualdi in 1851 As Dedek shows the nineteenth century was a particularly critical era in the city s cemetery design Traditional French and Spanish patterns prevailed until the first garden cemetery Metairie Cemetery was built on the site of an old racetrack in 1872 Like the older walled cemeteries this iconic venue served as a lavish expression of fraternal and ethnic unity a backdrop to exuberant social celebrations and a destination for sightseers During this time cultural and religious customs such as the celebration of All Saints Day and the practice of Voodoo rituals flourished within the spatial bounds of these resting places Over the course of the twentieth and twenty first centuries however episodes of neglect and destruction gave rise to groups that aimed to preserve the historic cemeteries of New Orleans an endeavor that according to Dedek is still wanting for resources and political will Containing abundant illustrations *The Cemeteries of New Orleans* is a comprehensive and intriguing resource on these fascinating historic sites **Report** J.
