major economic forces The Lure of the North Woods reveals how leisure and tourism in particular has shaped modern America Bounded People, Boundless Lands Eric T. Freyfogle, 1998-09 What right do humans have to claim sovereignty over the land to build fences and set boundaries when nature itself recognizes no such boundaries Is there hope for a new land ethic that is less destructive toward the land that views nature as something to be valued and nurtured rather than exploited and developed One of the main challenges of contemporary environmentalism is to find a lasting more ethical way for people to live on the planet In Bounded People Boundless Lands legal scholar Eric T Freyfogle asks a series of pointed and challenging questions about the human quest for ecological harmony Deftly interweaving moral and ethical considerations with case studies and real life situations Freyfogle provides a deep philosophical examination of personal responsibility and the dominion of human beings over the earth He raises provocative questions about private property rights responsible land ownership the rights of wildlife and ecological health Although the questions that Freyfogle asks are not new they are presented in the context of contemporary events often connected to legal cases which allows him to bring age old issues up to date and to make direct connections between abstract concepts and our own lives Throughout Freyfogle questions the way human beings envision the land thinking they can claim nature as their own and criticizes market approaches to valuing and using nature As an introduction to land ethics but one that embraces environmental legal and philosophical arguments Bounded People Boundless Lands is a unique contribution to the environmental literature

A Boundary Waters History: Canoeing Across Time Stephen Wilbers, 2011-07-15 Teasing out the history of a place celebrated for timelessness where countless paddle strokes have disappeared into clear waters requires a sure and attentive hand Stephen Wilbers s account reaches back to the glaciers that first carved out the Boundary Waters and to the original inhabitants as well as to generations of wilderness explorers both past and present He does so without losing the personal relationship built through a lifetime of pilgrimages anchored by almost three decades of trips with his father This story captures the untold broader narrative of the region as well as a thousand different details sure to be recognized by fellow pilgrims like the grinding rhythm of a long portage or the loon call that slips into that last moment before sleep
