**Healing Holidays** Harish Naraindas, Cristiana Bastos, 2016-03-22 This volume on medical tourism includes contributions by anthropologists and historians on a variety of health seeking modes of travel and leisure It brings together analyses of recent trends of medical tourism such as underinsured middle class Americans traveling to India for surgery pious Middle Eastern couples seeking assisted reproduction outside their borders or consumers of the exotic in search of alternative healing with analyses of the centuries old Euro American tradition of traveling to spas Rather than seeing these two forms of medical travel as being disparate the book demonstrates that as noted in the introduction what makes patients itinerant in both the old and new kind of medical travel is either a perceived shortage or constraint at home or the sense of having reached a particular kind of therapeutic impasse with the two often so intertwined that it is difficult to tell them apart The constraint may stem from things as diverse as religious injunctions legal hurdles social approbation or seasonal affliction and the shortage can range from a lack of privacy of insurance technology competence or enough therapeutic resources that can address issues and conditions that patients have If these two intertwined strands are responsible for most medical tourism then which locales seem to have therapeutic resources are those that are either natural in the form of water or climate legal in the form of a culture that does not stigmatise patients or technological and professional in the form of tests equipment or expertise unavailable or affordable at home or in the form of novel therapeutic possibilities that promise to resolve irresolvable issues This book was originally published as a special issue of Anthropology Medicine

**The Unmanageable Consumer** Yiannis Gabriel, Tim Lang, 2015-09-21 The Unmanageable Consumer has long been one of my favorite books in the sociology of consumption This long overdue third edition has updated and revised the basic argument in many ways Most importantly it now offers a new chapter on the consumer as worker or more generally the prosumer Assign it to your classes I have and will again and read it for your edification George Ritzer Distinguished University Professor University of Maryland USA Western style consumerism is often presented as unstoppable yet its costs mount and its grip on consumer reality weakens In this 20th Anniversary edition Gabriel and Lang restate their thesis that consumerism is more fragile and unmanageable than is assumed by its proponents Consumerism has been both stretched and undermined by globalization the internet social media and other cultural changes Major environmental threats debt squeezed incomes and social inequalities now temper Western consumers

appetite for spending The 20th century Deal first championed by Henry Ford of more consumption from higher waged work looks tattered This edition of The Unmanageable Consumer continues to explore 10 different consumer models and encourages analysis of contemporary consumerism It looks at the spread of consumerism to developing countries like India and China and considers the effects of demographic changes and migration and points to new features such as consumers taking on unwaged work New to this edition Coverage of new phenomenon such as social media and emerging markets Explores contemporary topics including the occupy movement and horsemeat scandal A new chapter on the consumer as worker This is a remarkable and important book The new edition updates consumer cultural studies to take into account austerity politics and the economic crisis and the impact these have had on how we think about and experience everyday practices of shopping and consuming The authors also build on and maintain the lively and challenging argument from the previous volumes which sees the consumer as an unstable space for a multiplicity of often contradictory responses which can unsettle the various strategies on the part of contemporary capitalism to have us buy more Angela McRobbie Goldsmiths University of London The book exemplifies how social science should be engaged insightful imaginative scholarly and highly socially and politically relevant Strongly recommended to students academics as well as all people interested in understanding our time and themselves in an age of consumerism and false promises Mats Alvesson Professor of Business Administration Lund University Sweden
