Turner, 1807 Textiles, Text, Intertext Maren Clegg Hyer, Jill Frederick, 2016 The theme of weaving a powerful metaphor within Anglo Saxon studies and Old English literature itself unites the essays collected here They range from consideration of

interwoven sources in homiletic prose and a word weaving poet to woven riddles and iconographical textures in medieval art and show how weaving has the power to represent textiles texts and textures both literal and metaphorical in the early medieval period They thus form an appropriate tribute to Professor Gale R Owen Crocker whose own scholarship has focussed on exploring woven works of textile and dress manuscripts and text and other arts of the Anglo Saxon peoples
