on national identity He argues that there were specifically Czech aspects to the communist regime and to the velvet revolution and paying particular attention to symbolic representations of what it means to be Czech he explores how notions of Czech identity were involved in the debates surrounding the fall of communism and the emergence of a new social system

Say it in Czech Alois Krušina,1970 Realizing Roma Rights Jacqueline Bhabha,Andrzej Mirga,Margareta Matache,2017-04-03 Realizing Roma Rights investigates the ongoing stigma and anti Roma racism and documents a growing vibrant Roma led political movement engaged in building a more inclusive and just Europe *The Slavonic Languages* Professor Greville Corbett,Professor Bernard Comrie,2003-09-01 In this scholarly volume each of the living Slavonic languages are analysed and described in depth together with the two extinct languages Old Church Slavonic and Polabian In addition the various alphabets of the Slavonic languages particularly Roman Cyrillic and Glagolitic are discussed and the relationships of the Slavonic languages to other Indo European languages and to one another are explored The last chapter provides an account of those Slavonic languages in exile for example Russian Ukrainian Polish Czech and Slovak in the USA Each language chapter is written by an expert in the field in a format designed for comparative study Information on each language includes an introductory description of social context and development where appropriate a discussion of phonology a detailed presentation of synchronic morphology noting major historical developments comprehensive treatment of syntactic properties a discussion of vocabulary an outline of main dialects and an extensive bibliography listing English and other sources Minority Rights Protection in International Law Helen O'Nions,2016-04-22 There are approximately ten million Roma in Europe making them the continent s largest non territorial minority Despite this fact the Roma continue to experience routine discrimination and marginalization in European countries As a result they are seldom engaged in national political activism and are frequently at the bottom of the economic and social ladder The severity of exclusion experienced by the Roma in societies which have long paid heed to the notion of individual universal human rights combined with their geographical dispersal and heterogeneous nature makes the study of the Roma highly informative This book examines the theoretical debate concerning the most appropriate way of protecting the fundamental human rights of the Roma which also illuminates ways in which the rights of minority groups can be protected more generally As a result this work will be a valuable resource for social scientists and practitioners in the field of human rights **Design; Devoted to the Decorative Arts** ,1929 **The World's Major Languages** Bernard Comrie,1987 Detailed guide to the world s forty major languages with full historical sociological and linguistic information **Revolution with a Human Face** James Krapfl,2013-10-04 In this social and cultural history of Czechoslovakia s gentle revolution James Krapfl shifts the focus away from elites to ordinary citizens who endeavored from the outbreak of revolution in 1989 to the demise of the Czechoslovak federation in 1992 to establish a new democratic political culture Unique in its balanced coverage of developments in both Czech and Slovak lands including the Hungarian minority of southern Slovakia this book looks beyond Prague and Bratislava

to collective action in small towns provincial factories and collective farms Through his broad and deep analysis of workers declarations student bulletins newspapers film footage and the proceedings of local administrative bodies Krapfl contends that Czechoslovaks rejected Communism not because it was socialist but because it was arbitrarily bureaucratic and inhumane The restoration of a basic humanness in politics and in daily relations among citizens was the central goal of the revolution In the strikes and demonstrations that began in the last weeks of 1989 Krapfl argues citizens forged new symbols and a new symbolic system to reflect the humane democratic and nonviolent community they sought to create Tracing the course of the revolution from early idealistic euphoria through turns to radicalism and ultimately subversive reaction *Revolution with a Human Face* finds in Czechoslovakia s experiences lessons of both inspiration and caution for people in other countries striving to democratize their governments

Socialist Realism in Central and Eastern European Literatures Under Stalin Evgeny Dobrenko, 2018-02-15 Socialist Realism in Central and Eastern European Literatures is the first published work to offer a variety of alternative perspectives on the literary and cultural Sovietization of Central and Eastern Europe after World War II and emphasize the dialogic relationship between the centre and the satellites instead of the traditional top down approach The introduction of the Soviet cultural model was not quite the smooth endeavour that it was made to look in retrospect rather it was always a work in progress often born out of a give and take with the local authorities intellectuals and interest groups Relying on archival resources the authors examine one of the most controversial attempts at a cultural unification in Europe by providing an overview with a focus on specific case studies an analysis of distinct particularities with attention to the patterns of negotiation and adaptation that were being developed in the process
