Acousto-Optical Laser Systems for the Formation of Television Images Yu V. Gulyaev, M. A. Kazaryan, M. Mokrushnin, O.V. Shatkin, 2018-12-07 The book addresses various approaches to television projection imaging on large screens using lasers Results of theoretical and experimental studies of an acousto-optic projection system operating on the principle of projecting an image of an entire amplitude modulated television line in a single laser pulse are presented Characteristic features of image formation and requirements for individual components are discussed Particular attention is paid to nonlinear distortions of the image signal which show up most severely at low modulation signal frequencies The feasibility of improving the process efficiency and image quality using acousto-optic modulators and pulsed lasers is studied **Movies: Universal Language** Bede Sullivan, 1970 **Recent Advances in Display Media**, 1968 International Commerce, 1969 Japan on Display Morris Low, 2006-09-27 Sixty years on from the end of the Pacific War Japan on Display examines representations of the Meiji emperor Mutsuhito 1852-1912 and his grandson the Showa emperor Hirohito who was regarded as a symbol of the nation in both war and peacetime Much of this representation was aided by the phenomenon of photography The introduction and development of photography in the nineteenth century coincided with the need to make Hirohito's grandfather the young Meiji Emperor more visible Photo books and albums became a popular format for presenting seemingly objective images of the monarch reminding the Japanese of their proximity to the Emperor and the imperial family In the twentieth century these national albums provided a visual record of wars fought in the name of the Emperor while also documenting the reconstruction of Tokyo scientific expeditions and imperial tours Drawing on archival documents photographs and sources in both Japanese and English this book throws new light on the history of twentieth century Japan and the central role of Hirohito With Japan's defeat in the Pacific War the Emperor was transformed from wartime leader to peace loving scientist Japan on Display seeks to understand this reinvention of a more human Emperor and the role that photography played in the process New Serial Titles, 1988 A union list of serials commencing publication after Dec 31 1949 The Publishers' Trade List Annual, 1971 Catalogue of Title-entries of Books and Other Articles Entered in the Office of the Librarian of Congress, at Washington, Under the Copyright Law ... Wherein the Copyright Has Been Completed by the Deposit of Two Copies in the Office Library of Congress. Copyright Office, 1966 **Childhood** Chris Jenks, 2005 Childhood is an extremely complex and highly contested concept It refers to a life phase as well as to the age group defined as children but is also a cultural construction part of the social and economic structure of communities The key scholarship collected introduced and reprinted in these volumes reflects this complexity and introduces the reader to the wide variety of

interpretations that have been and continue to be placed on it. It might be suggested that the push or initiative in theorizing childhood has derived from advances within sociology and anthropology. However, the future provides potential for interdisciplinary study which this collection also reflects. The contemporary study of childhood must comprise a conjoining of disciplines: sociology, anthropology, psychology, social geography, history, philosophy, and socio-legal theory all have something to add to the field and are represented within the collection.

France on Display Shanny Peer, 1998-02-26 Winner of the 1999 Laurence Wylie Prize in French Cultural Studies presented by the Association for French Cultural Studies. The 1937 Paris World's Fair presented a traditionalist image of France as a rural provincial country faithful to its folk traditions and to its Old World heritage. France's attachment well into the twentieth century to its traditionalist roots has often been interpreted by scholars as a reactionary impulse, a desire to resist modernization or a wish to return to the past. However, in this book Peer argues that this enduring attachment in Third Republic France to peasants, provincials, and folklore was not inherently reactionary or anti-modernist. Instead, these aspects of France's traditional heritage were refashioned in new ways to allow France to modernize while still retaining its distinctive identity.

American History/American Film John E. O'Connor, Martin A. Jackson, 2016-10-06 In this pioneering work, sixteen historians analyze individual films for deeper insight into US institutions, values, and lifestyles. Linking all of the essays is the belief that film holds much of value for the historian seeking to understand and interpret American history and culture. This title will be equally valuable for students and scholars in history using film for analysis as well as film students and scholars exploring the way social and historical circumstances are reflected and represented in film.
