Women, Feminism, and Femininity in the 21st Century B. Mousli, E. Roustang-Stoller, 2009-05-11 American women look at French women as having it all sex motherhood work and public office while French women look at American women as puritanical excessively feminist and unable to have it all without guilt The essays in this book by leading American and French academics and critics set the record straight by assessing the truth of each outlook They conclude that facts are different from imagination and that on many issues French feminists could actually look to the U S for inspiration This book offers the first comparative critical appraisal of how women live in the US and in France and suggests paths of reflection on what women can do to improve their lives in the twenty first century This is a must read for anyone interested in the nature of womanhood today in the Western World Women in Combat Lorry M. Fenner, Marie E. de Young, 2001-08-09 Women have been actively involved the United States military for more than fifty years but the ban on their participation in combat remains a hotly debated issue In this provocative book Lorry M Fenner an active duty Air Force intelligence officer calls for opening all aspects of military service to women Marie deYoung a former Army chaplain argues that keeping women out of combat is in the best interests of both sexes and crucial to the effectiveness of the military as a whole Fenner bases her argument for inclusion of women on the idea that democracies require all citizens to compete in public endeavor and share in civic obligation She contends that historically reasons for banning women from combat have been culturally biased She argues that membership in a combat force should be based on capability judged against appropriate standards Moreover she maintains that excluding women hampers the diversity and adaptability that by necessity will characterize the armed forces in the twenty first century In contrast deYoung declares that the different physical fitness standards for men and women would in combat lower morale for both sexes and put women at risk of casualty Further she contends that women have

neither the physical or emotional strength to endure the overall brutality of the combat experience She also asserts that calls for lifting the combat ban are politically motivated and are inconsistent with the principles of American democracy and the mission of national defense With each author responding to the views of the other their exchange offers a valuable synthesis of the issues surrounding a longstanding debate among policymakers military personnel and scholars of both military history Family Disintegration Anton Purcell, 2002 The contemporary family is being distracted disturbed and women s studies and distraught by societal pressures from every direction The nuclear family concept believed crucial to child rearing is becoming pass according to census data Or has the wave of disruption to families crested It is hoped that this bibliography will serve as a useful tool to researchers seeking further information on families and the pressures being exerted upon them The 1950s Richard Alan Schwartz, 2014-05-14 Traces the history of the United States during the in the 21st century 1950s through such primary sources as memoirs letters contemporary journalism and official documents G.I. Jane Sara L. Zeigler, Gregory G. Gunderson, 2005 Moving Beyond G I Jane makes an essential contribution to the existing literature on the role of women in the military The authors offer detailed analyses of current debates over integrating women into combat roles and the proper approach to confronting sexual harassment with the ranks Each chapter includes concrete recommendations as to how the services should confront and manage these serious personnel problems A survey of ROTC cadets provides additional data on the attitudes of future leaders. The book also identifies important ways in which female personnel can enhance effectiveness as the military adjusts to its changing role in the twenty first century particularly in Human Resources Management Patrick Alain Azanza, 2000 A Look Backward and Forward peacekeeping operations at American Professional Women and Their Families Rita J. Peterson, 2013-06-29 To know where we are going as scholars educators and practitioners in the field of marriage and family life we first need to know where we have been A perusal of early texts on marriage and family life provides some thought provoking insights into the accuracy of the saying what goes around comes around It is interesting to note who has been considered to be in a position to provide information on marriage and family life Included in the eclectic collection of texts we reviewed were ministers whose focus was on spirituality doctors who emphasized medical aspects of child and adult health and public health profes sionals and home economists concerned with fighting disease who emphasized cleanliness order fighting germs and eliminating rodents and insects There are also philosophers who drew from ancient texts when discussing family life and a count who assembled a group of German intellectual elites to address various topics An insightful essay of this type is by Marta Karlweis 1926 in which she notes There is no other fetish that society holds to so firmly as the conception woman with all its usual associations of infantilism and dependence The child requires protection is a minor and consequently a serf but above all it possesses no spiritual existence Neither doctorates or other distinctions nor the right to vote have as yet been able to dispel this sweet idea of the childishness of woman which man cherishes p A Companion to the Modern American Novel, 1900 - 1950 John T.
