Looking Like What You Are Sexual Style Race And Lesbian Identity:

Looking Like What You Are Lisa Walker, 2001-04 Looks can be deceiving and in a society where one's status and access to opportunity are largely attendant on physical appearance the issue of how difference is constructed and interpreted embraced or effaced is of tremendous import Lisa Walker examines this issue with a focus on the questions of what it means to look like a lesbian and what it means to be a lesbian but not to look like one She analyzes the historical production of the lesbian body as marked and studies how lesbians have used the frequent analogy between racial difference and sexual orientation to craft emphasize or deny physical difference In particular she explores the implications of a predominantly visible model of sexual identity for the feminine lesbian who is both marked and unmarked desired and disavowed Walker's textual analysis cuts across a variety of genres including modernist fiction such as *The Well of Loneliness* and *Wide Sargasso Sea* pulp fiction of the Harlem Renaissance the 1950s and the 1960s post modern literature as Michelle Cliff's *Abeng* and queer theory In the book's final chapter *How to Recognize a Lesbian* Walker argues that strategies of visibility are at times deconstructed at times reinscribed within contemporary lesbian feminist theory

Intersections of Gender, Class, and Race in the Long Nineteenth Century and Beyond Barbara Leonardi, 2018-12-29 This book explores the intersections of gender with class and race in the construction of national and imperial ideologies and their fluid transformation from the Romantic to the Victorian period and beyond exposing how these cultural constructions are deeply entangled with the family metaphor For example by examining the re-signification of the angel in the house and the deviant woman in the context of unstable or contingent masculinities and across discourses of class and nation the volume contributes to a more nuanced understanding of British cultural constructions in the long nineteenth century The central idea is to unearth the historical roots of the family metaphor in the construction of national and imperial ideologies and to uncover the interests served by its specific discursive formation The book explores both male and female stereotypes enabling a more perceptive comparison enriched with a nuanced reflection on the construction and social function of class

Queering the Underworld Scott Herring, 2009-05-15 At the start of the twentieth century tales of how the other half lives experienced a surge in popularity People looking to go slumming without leaving home turned to these narratives for spectacular revelations of the underworld and sordid details about the deviants who populated it In this major rethinking of American literature and culture Scott Herring explores how a key group of authors manipulated this genre to paradoxically evade the confines of sexual identification Queering the Underworld examines a range of writers from Jane Addams and Willa Cather to Carl Van Vechten and Djuna Barnes revealing how they fulfilled the conventions of slumming literature but undermined its goals and in the process queered the genre itself Their work frustrated the reader's desire for sexual knowledge restored the inscrutability of sexual identity and cast doubt on the value of a homosexual subculture made visible and therefore subject to official control Herring is persuasive and polemical in connecting these writers to ongoing debates about lesbian and gay history and politics and Queering the Underworld will be widely read by students and scholars of
