**López Guerra** Francisco López-Guerra, 2000 Amongst the members of the new generations of architecture and his commitment to his profession *Joseph Carens: Between Aliens and Citizens* Matthias Hoesch, Nadine Mooren, 2020-08-11 This book offers a critical discussion of Joseph Carens's main works in migration ethics covering themes such as migration naturalization citizenship culture religion and economic equality The volume is published on the occasion of the annual Münster Lectures in Philosophy held by Joseph Carens in the fall of 2018 It documents the intellectual exchange with the well known philosopher Joseph Carens by offering critical contributions on Carens's work and commentaries of Carens as a reply to these critical contributions With his various works on migration ethics Joseph Carens must be seen as one of the leading academics in the political and ethical discourse of migration in the last years The topic of migration raises questions not only regarding naturalization and citizenship but also cultural economic and religious differences between aliens citizens and persons whose status lies in between and calls for further determination Such questions gain more and more importance in our globalized world as can be seen for example in the context of the refugee crisis in the European Union and the U S The book covers different systematic topics of Carens's work as can be found in his widely read book *The Ethics of Immigration* but also in further publications It provides papers with critical discussions of Carens's work as well as his responses to these thus enabling and documenting the fruitful dialogue between the contributors and Carens himself The aim of this book is to sharpen and shed light on Carens's arguments concerning migration by offering new and critical perspectives and fine grained analyses **Childhood in Liberal Theory** Nicolás Brando, 2024 Childhood in Liberal Theory offers a novel perspective on the concept of childhood and children's rights within the tradition of liberal theories of justice Brando questions the strict opposition of childhood and adulthood as social categories and proposes an Adaptive model of childhood as an alternative foundation *Young People's Human Rights and the Politics of Voting Age* Sonja C. Grover, 2010-10-05 *Young People's Human Rights and The Politics of Voting Age* explores the broader societal implications of voting age eligibility requirements and the legislative bar against youth voting in North America and in Commonwealth countries where youth is defined as persons 16 and over but under age 18 The issue is raised as to whether the denial of the youth vote undermines democratic principles and values and ultimately the human dignity of youth This is the first book to address the topic of the youth vote in depth as a fundamental human rights concern relating to the entitlement in a democracy to societal participation and inclusion in influencing policy and law which profoundly affects one's life Also examined are international perspectives on the issue of voting age eligibility The book would be extremely valuable for instructional purposes as one of the primary texts in undergraduate or graduate courses on children's human rights political psychology political science sociology of law or society and as a supplementary text for courses on human rights or constitutional law and would be of interest also to members of the general public concerned with children's human rights issues **The Politics of**

**Democratic Representation** Benjamin Boudou, Marcus Carlsen Häggrot, 2025-05-16 The book discusses boundaries of electoral inclusion and mechanisms of electoral representation in contemporary democracies While the ancient Athenians took the idea of rule by the people to require direct popular participation in public decision making and the appointment of officials by lottery mechanisms democracy is nowadays interpreted electorally We partake in government mostly by electing the legislative and sometimes executive officials who in turn make the substantive decisions Yet who we is and how electoral representation should function remains hotly contested Controversies abound about the proper configuration of the demos the body of persons who are enfranchised the ways it is to exercise electoral choice and agency This book takes up several carefully selected questions from these theoretical and political debates Looking at the disenfranchisement of children cognitively disabled persons and refugees and discussing the forms of representation that might be afforded to external voters future generations and non citizens the contributions develop innovative arguments applying the basic principles of electoral democracy to the complexities of specific real world cases Doing so the contributions offer timely yet unorthodox perspectives on the theory and practice of electoral democracy This book was originally published as a special issue of Critical Review of International Social and Political Philosophy

**Punishment and Citizenship** Milena Tripkovic, 2019 Criminal

disenfranchisement the practice of restricting electoral rights following criminal conviction is the only surviving electoral restriction of adult mentally competent citizens in contemporary democracies Despite the strong devotion to the principle of universal suffrage criminal offenders are still routinely deprived of active and passive franchise while the justifications for such limitations remain elusive and incoherent In *Punishment and Citizenship* Milena Tripkovic develops an empirical and normative account of criminal disenfranchisement Starting from historical precedents of such restrictions and examining the current policies of a number of European countries Tripkovic argues that while criminal disenfranchisement is considered a form of punishment it should instead be viewed as a citizenship sanction imposed when a citizen fails to perform their role as a member of a political community In order to determine the justifications of disenfranchisement Tripkovic explores various citizenship ideals and examines whether criminal offenders comply with the expectations that are posed before them After developing a theoretical framework of citizenship duties Tripkovic concludes that very few criminal offenders fail to satisfy fundamental citizenship conditions and exhaustive voting restrictions cannot ultimately be justified A comprehensive assessment of criminal disenfranchisement *Punishment and Citizenship* offers concrete policy suggestions to determine the limited circumstances under which electoral rights could justifiably be withheld from criminal offenders Spain After Franco

**Against Sortition?** Geoffrey Grandjean, 2024-05-07 Sortition is widely used in our political systems to constitute citizen panels It is now possible to study the limits of this method of selecting our political representatives This book presents the institutionalization of sortition while questioning its political consequences in terms of representation and deliberation Several examples are used such as the Citizens Climate Convention in France and the Conference on the Future of Europe In the end the book helps to identify the consequences of using sortition with regard to the principles of equality and inclusion Above all it offers readers the possibility of continuing to reflect on this method of random selection while promoting the implementation of greater equality between citizens

**The Duty to Vote** Julia Maskivker, 2019-10-01 What do we owe those in our communities What do we owe strangers In a sense those who vie for political office locally and nationally do so at least in part from duty and obligation to their fellow citizens to many they do not know and may never meet In a democratic society those who wish to participate in politics have the unbridled freedom to do exactly that whether as leaders or those who campaign for politicians or as people who simply struggle to have their voice heard in everything from town hall meetings to protests But by the same logic we also have the freedom not to participate the freedom not to care to be heard at all Not so says Julia Maskivker such logic collapses when applied to the act of voting Not only should we vote if we can we must vote Even when confronted with two unappealing candidates or with ballot propositions whose effects we will barely feel or with the fact that our single vote might never tip an election we must vote We have a duty of conscience to vote with care when doing so comes at so small a cost Maskivker a political theorist and philosopher argues that those fortunate to live in democratic societies with freely elected leaders all share simply a moral obligation to vote The book's argument adds a fresh and uncompromising perspective to voting ethics literature which is dominated by views that reject the morality and rationality of voting Maskivker's line of reasoning contends that the duty to vote is a duty of common pursuit which helps society to achieve good governance She compares voting to Samaritan justice showing that the same duty of assistance that would compel us to help a stranger in need also obligates us to vote to save our fellow citizens from injustice at the hands of bad or even evil leaders The book further explores issues of voter incompetence and how citizens' ignorance can be partly overcome through political reform Although uninformed voting may lead to bad governance voting judiciously can be an effective path to justice In a time of polarization and political turmoil The Duty to Vote offers a stirring reminder that voting is fundamentally a collective endeavor to protect our communities and that we all must vote in order to preserve the free societies within which we live

**Subjectivity, Citizenship and Belonging in Law** Anne Griffiths, Sanna Mustasaari, Anna Mäki-Petäjä-Leinonen, 2016-10-04 This collection of articles critically examines legal subjectivity and ideas of citizenship inherent in legal thought The chapters offer a novel perspective on current debates in this area by exploring the connections between public and political issues as they intersect with more intimate sets of

relations and private identities Covering issues as diverse as autonomy vulnerability and care family and work immigration control the institution of speech and the electorate and the right to vote they provide a broader canvas upon which to comprehend more complex notions of citizenship personhood identity and belonging in law in their various ramifications

Afghanistan Libya and Syria to explicate how far governments should be entitled to derogations from human rights whilst engaging in combat operations The Privatized State Chiara Cordelli,2020-11-24 Why government outsourcing of public

powers is making us less free Many governmental functions today from the management of prisons and welfare offices to warfare and financial regulation are outsourced to private entities Education and health care are funded in part through private philanthropy rather than taxation Can a privatized government rule legitimately The Privatized State argues that it cannot In this boldly provocative book Chiara Cordelli argues that privatization constitutes a regression to a precivil condition what philosophers centuries ago called a state of nature Developing a compelling case for the democratic state and its administrative apparatus she shows how privatization reproduces the very same defects that Enlightenment thinkers attributed to the precivil condition and which only properly constituted political institutions can overcome defects such as provisional justice undue dependence and unfreedom Cordelli advocates for constitutional limits on privatization and a more democratic system of public administration and lays out the central responsibilities of private actors in contexts where governance is already extensively privatized Charting a way forward she presents a new conceptual account of political representation and novel philosophical theories of democratic authority and legitimate lawmaking The Privatized State shows how privatization undermines the very reason political institutions exist in the first place and advocates for a new way of administering public affairs that is more democratic and just The Superior Courts Network European Court of Human
