Immigrants in the Lands of Promise Samuel L. Baily, 2016-11-15 Most studies of immigration to the New World have focused on the United States Samuel L Baily's eagerly awaited book broadens that perspective through a comparative analysis of Italian immigrants to Buenos Aires and New York City before World War I It is one of the few works to trace Italians from their villages of origin to different destinations abroad Baily examines the adjustment of Italians in the two cities comparing such factors as employment opportunities skill levels pace of migration degree of prejudice and development of the Italian community Of the two destinations Buenos Aires offered Italians more extensive opportunities and those who elected to move there tended to have the appropriate education or training to succeed These immigrants who adjusted more rapidly than their North American counterparts adopted a long term strategy of investing savings in their New World home In New York in contrast the immigrants found fewer skilled and white collar jobs more competition from previous immigrant groups greater discrimination and a less supportive Italian enclave As a result rather than put down roots many sought to earn money as rapidly as possible and send their earnings back to family in Italy Baily views the migration process as a global phenomenon Building on his richly documented case studies the author briefly examines Italian communities in San Francisco Toronto and Sao Paulo He establishes a continuum of immigrant adjustment in urban settings creating a landmark study in both immigration and comparative history

Fighting Prosaic Messages Henry C Amoroso Jr, 2018-04-11 Part historical fiction part memoir part philosophy of education this book begins with a story about a woman's immigration into the U S and how three of her generations struggled in the U S school system The book ends with an analysis of why many students fail in school and what we can do about it Through story and analysis this book offers a critique of the U S education system in 3 parts Part one imagines what the immigration experience was like in the past and reads like historical fiction Part two looks at the ensuing three generations in the present and reads like a memoir Part three gleans lessons from the story as a whole for what we can do better in the future In the historical fiction part a Sicilian woman named Rose emigrates to the U S at the turn of the twentieth century Knowing no English and illiterate but armed with a moral intelligence she struggles in this strange world of the free rubs shoulders with some of the great thinkers of her day and discusses the nature of education with them She's one of the many prosaic heroes history books and schools sometimes forget In the memoir part Rose's son Henry the author's father drops out of school in the eighth grade to help his single mom by selling newspapers he never thought he was smart enough for school anyway His son Henry Jr goes all the way in school to obtain a PhD but struggles to find a voice along the way Henry Jr's son Justin was seemingly born with an expressive voice but in his shuffle to conform to the school system almost lost it In these 3 cases we see 3 types of students who often fail in school in general In the final analysis part the book reflects on these prosaic cases to understand why so many U S students fail The theme that emerges parallels the traditions of Rousseau Dewey and Montessori students at heart are good and educators are most effective when they treat them as such students

learn best by doing and this includes moral doing and students become intrinsically motivated to learn if allowed to think critically creatively and to find their voices If democracy depends on an informed citizenry the questions this book raises about school failure are critical to the future of our nation J A **History from the Bottom Up and the Inside Out** James R.
