Perspectives on Social Group Work Practice Albert S. Alissi, 2008-06-30 Not simply

another how to book this provocative collection of readings does not advance a single viewpoint or approach to group work. Instead the 25 selections present the full spectrum of classic and current perspectives providing student and practitioner alike with a sound basis for evaluating contemporary practice and for formulating a personal approach to social group work. The historical and conceptual roots of modern social group work methods are examined in Part I Conceptual Foundations which contains some of the classic statements in the field. Part II Current Perspectives explores the most widely influential contemporary models of group work: social goals perspectives, remedial perspectives and mediative perspectives. The two part section that concludes the volume focuses on applications: group work is first discussed in relation to family and community casework and administration then self help groups and other techniques used in the fields of medicine, counseling and psychology are surveyed in light of their implications for social workers. To encourage the reader's active participation in the development of an individual philosophy and approach to social group work, Dr. Alissi concludes each chapter with probing study questions. These open ended questions stimulate comparisons among the methods presented and urge the reader to relate new ideas to his or her own experience in the field. Introductions to each part and chapter also stress comparative aspects. An annotated list of articles and books on the subject of each chapter allows the reader to explore it in greater depth. A stimulating and systematic exposure to the most important ideas in social group work today. **Perspectives on Social Group Work Practice** expands the repertoire of working concepts vital to contemporary practice. Group Work Sondra Brandler, Camille P. Roman, 2015-06-26 The new edition of Group Work adds a focus on diversity and the use of self in group work, an area too often neglected in professional training but essential to meeting current competence standards set by the Council on Social Work Education. As in previous editions, students and professors will find thoughtful analyses of complicated value dilemmas and specific techniques for use in a diverse range of settings including confrontations and situations where humor is appropriate. Complete with more games and exercises, an updated discussion of values and ethics, and an expanded skills section, Group Work also contains excerpts and discussions of case studies that can be applied to students' own experiences and will serve as a valuable reference for years to come.

Theory and Practice of Social Group Work in Indian Society Pallassana R. Balgopal, Suresh Pathare, Meena M. Balgopal, 2024-10-26 This book describes relevant theories such as task-centered and strength perspective interventions for the practice of social group work within contemporary India. These two theories are complemented by additional theories including Gestalt Therapy, Spirituality, and Raja Yoga. These theories fill the gap in the literature to indigenize social group work interventions. The book is divided into four parts: History of Social Group Work and Introduction in India; The Indian Family; Structural Properties of Group Work; Using Case Studies in Social Group Work Education. In addition, there are two separate chapters on leadership in social work groups and leader interventions relevant to Indian society. At the end of each chapter, a summary and applicable practice principles are presented. It explicitly presents the value of short and task-oriented group work. It mobilizes the group members' strengths to work through problems that Indian children, parents, working adults, and the elderly experience. The group process is presented with a focus on the present-day Indian cultural context, which is relevant for a range of practitioners in the helping professions. This important book is a valuable resource for students and scholars of social work, community practitioners, voluntary organizations, and social activists.
