Modern Art, 1890-1918 Jean Clay, 1989 *Modern Art, 1890-1918* Jean Clay, Arnold Rosin, John P. O'Neill, Alexis Gregory, 1978-01-01 **Early Polish Modern Art** Marek Bartelik, 2005-12-02 This groundbreaking work examines four avant garde groups that emerged in Poland towards the end of World War I the Poznan Expressionists the Young Yiddish the Formists and the Futurists It is the first extensive study to bring the four groups together and in doing so it establishes interconnections between them and discusses their work in light of socio political and cultural currents in Poland and wider Europe in the interwar period "Foreign Artists and Communities in Modern Paris, 1870-1914 " Susan Waller, 2017-07-05 *Foreign Artists and Communities in Modern Paris 1870 1914* examines Paris as a center of international culture that attracted artists from Western and Eastern Europe Asia and the Americas during a period of burgeoning global immigration Sixteen essays by a group of emerging and established international scholars including several whose work has not been previously published in English address the experiences of foreign exiles immigrants students and expatriates They explore the formal and informal structures that permitted foreign artists to forge connections within and across national communities and in some cases fashion new transnational identities in the City of Light Considering Paris from an innovative global perspective the book situates both important modern artists such as Edvard Munch Sonia Delaunay Marc Chagall and Gino Severini and lesser known American Czech Italian Polish Welsh Russian Japanese Catalan and Hungarian painters sculptors writers dancers and illustrators within the larger trends of international mobility and cultural exchange Broadly appealing to historians of modern art and history the essays in this volume characterize Paris as a thriving transnational arts community in which the interactions between diverse cultures peoples and traditions contributed to the development of a hybrid and multivalent modern art Catalog of the Library of the Museum of Modern Art: Rej Museum of Modern Art (New York, N.Y.). Library, 1976 *Modernity, History, and Politics in Czech Art* Marta Filipová, 2019-07-08 This book traces the influence of the changing political environment on Czech art criticism history and theory between 1895 and 1939 looking beyond the avant garde to the peripheries of modern art The period is marked by radical political changes the formation of national and regional identities and the rise of modernism in Central Europe specifically the collapse of Austria Hungary and the creation of the new democratic state of Czechoslovakia Marta Filipov studies the way in which narratives of modern art were formed in a constant negotiation and dialogue between an effort to be international and a desire to remain authentically local *The First Moderns* William R. Everdell, 1998-07-15 This history of modernism is filled with portraits of genius and intellectual breakthroughs that evoke the fin de siecle atmosphere of Paris Vienna St Louis and St Petersburg This book offers readers a look at the unfolding of an age **Women Artists in Interwar France** Paula J. Birnbaum, 2017-07-05 *Women Artists in Interwar France Framing Femininities* illuminates the importance of the Soci des Femmes Artistes Modernes more commonly known as FAM and returns this group to its proper place in the history of modern art In particular this

volume explores how FAM and its most famous members Suzanne Valadon Marie Laurencin and Tamara de Lempicka brought a new approach to the most prominent themes of female embodiment the self portrait motherhood and the female nude These women reimagined art s conventions and changed the direction of both art history and the politics of their contemporary art world FAM has been excluded from histories of modern art despite its prominence during the interwar years Paula Birnbaum s study redresses this omission contextualizing the group s legacy in light of the conservative politics of 1930s France The group s artistic response to the reactionary views and images of women at the time is shown to be a key element in the narrative of modernist formalism Although many FAM works are missing one reason for the lack of attention paid to their efforts Birnbaum s extensive research through archives press clippings and first hand interviews with artists families reclaims FAM as an important chapter in the history of art from the interwar years

New Perspectives on Brücke Expressionism Christian Weikop, 2017-07-05 New Perspectives on Brücke Expressionism Bridging History brings together highly renowned international art historians in a scholarly work that offers the first full length reassessment in English of the importance of the Brücke group to German modernism specifically and to international modernism more generally It challenges interrogates and updates existing orthodoxies in the field of Brücke studies by deploying new research combined with innovative interpretative approaches This is an exciting volume of essays with an interlinking tripartite structure that charts the significance of this pioneering German avant garde group in relation to various critical themes namely cultural and material identity collectivity and selfhood as well as defamation and rehabilitation The book is unique in the field in that it seeks to excavate specific historical research relating to the activities of the Brücke as a bohemian yet nonetheless enterprising artists community and considers the contributions of the key members in relation to the dynamics of that group rather than simply on an individual basis It thoroughly explores the historiography of the Brücke artists reception throughout the turbulent history of the twentieth century up until the present day German Incertitudes, 1914-1945 Klemens von Klemperer, 2001-03-30 The history of modern Germany has all too readily been seen in terms of an historical process that inevitably led to the horrors of National Socialism As there are no certitudes in life however so there are none in German history In this book historian Klemens von Klemperer focuses on what he terms the German Incertitudes namely the tensions between a realistic acceptance of disenchantment with the modern world and an insistence upon reenchantment Exploring this tension through a critical assessment of the ideas and writings of major German thinkers von Klemperer seeks to account for both the achievements and the failings of German thought society and politics as responses to the challenge of modernity in the first half of the 20th century In addition to individuals such as Nietzsche Weber Spengler J nger Bonhoeffer and Heidegger the author considers broader movements and ideas such as the concept of Gemeinschaft and the German expressionists all in the wider context of Western intellectual currents Rather than belaboring presumed German deviance from the European norms von Klemperer explores the reasons why the sense of crisis in the face of modernity was singularly acute among Germans he traces a spectrum of reactions extending from an acceptance of modern disenchantment to the quest for reenchantment which found an extreme manifestation in National Socialism
