**The General History of Drugs Volume Three Part One** Antonio Escobedo, 2022-12-31 Drug history from the Renaissance through the nineteenth century      Battle for Beijing, 1858-1860 Harry Gelber, 2016-09-16 The battle for Beijing is universally and quite wrongly believed to have been about opium This book argues that it was about freedom to trade Britain's demands for diplomatic equality and French demands for religious freedom in China Both countries agreed that their armies which repeatedly prevailed over Chinese ones that were numerically superior would stay out of Beijing itself but were infuriated by China's imprisonment torture and death of British French and Indian negotiators At the same time the British and French also helped the empire to battle rebels and to pocket port and harbour dues They steered carefully between their political and trading demands and navigated the danger that undue stress would make China's fragile government and empire fall apart If it did there would be no one to make any kind of agreement with much of East Asia would be in chaos and Russian power would soon expand Battle for Beijing 1858 1860 offers fresh insights into the reasons behind the actions and strategies of British authorities both at home and in China and the British and French military commanders It goes against the widely accepted views surrounding the Franco British conflict proposing a bold new argument and perspective      **Southwest China in a Regional and Global Perspective (c.1600-1911)**, 2018-01-03 The book Southwest China in Regional and Global Perspectives c 1600 1911 is dedicated to important issues in society trade and local policy in the southwestern provinces of Yunnan Guizhou and Sichuan during the late phase of the Qing period It combines the methods of various disciplines to bring more light into the neglected history of a region that witnessed a faster population growth than any other region in China during that age The contributions to the volume analyse conflicts and arrangements in immigrant societies problems of environmental change the economic significance of copper as the most important export product topographical and legal obstacles in trade and transport specific problems in inter regional trade and the roots of modern transnational enterprise      **Ming China and Vietnam** Kathlene Baldanza, 2016-03-29 Studies of Sino Viet relations have traditionally focused on Chinese aggression and Vietnamese resistance or have assumed out of date ideas about Sinicization and the tributary system They have limited themselves to national historical traditions doing little to reach beyond the border Ming China and Vietnam by contrast relies on sources and viewpoints from both sides of the border for a truly transnational history of Sino Viet relations Kathlene Baldanza offers a detailed examination of geopolitical and cultural relations between Ming China 1368 1644 and Dai Viet the state that would go on to become Vietnam She highlights the internal debates and external alliances that characterized their diplomatic and military relations in the pre modern period showing especially that Vietnamese patronage of East Asian classical culture posed an ideological threat to Chinese states Baldanza presents an analysis of seven linked biographies of Chinese and Vietnamese border crossers whose lives illustrate the entangled histories of those countries      **Empire at the Margins** Pamela Kyle Crossley, Helen F. Siu, Donald S.

Sutton,2006-01-19 Focusing on the Ming 1368 1644 and especially the Qing 1364 1912 eras this book analyzes crucial moments in the formation of cultural regional and religious identities The contributors examine the role of the state in a variety of environments on China s peripheries paying attention to shifts in law trade social stratification and cultural dialogue They find that local communities were critical participants in the shaping of their own identities and consciousness as well as the character and behavior of the state At certain times the state was institutionally definitive but it could also be symbolic and contingent They demonstrate how the imperial discourse is many faceted rather than a monolithic agent of cultural assimilation

*Poetic Transformations* Claudine Ang,2020-10-26 In the eighteenth century multiple migratory groups with competing political ambitions converged on the Mekong plains In the frontier region literati officials of a territorially expanding Vietnamese state crossed paths with a network of diasporic Chinese Ming loyalists closely affiliated with the coastal trading network Drawing on vernacular Vietnamese and classical Chinese sources Claudine Ang identifies the different ways two leading statesmen of the time employed literature to transform the frontier region In their rival cultural projects we see the clash between the aspirations of Vietnamese and Chinese migrants Ang shows how a bawdy play in which a lascivious monk turns his charms on an unsuspecting nun acted as a vehicle for differentiating Vietnamese lowlanders from their neighbors

and she uncovers in a suite of landscape poems coded messages aimed at founding a new Ming loyalist stronghold on the Mekong delta Through its close reading of satirical drama and landscape poetry Poetic Transformations captures a historical moment of overlapping visions frustrated schemes and contested desires on the Mekong plains **Terrorism in Youth**

**Popular Culture** Martin Claar, Clint W. Jones, 2024-11-05 As an integral part of the modern West terrorism features prominently in the news in film and television even in video games and books Packaged for public consumption representations of terrorism and terrorists offer attempts to make sense of the contemporary experience While terrorism is often treated as a topic of concern for mature audiences this book focuses on media that are aimed at children and young adults The contributors investigate the way terrorism is portrayed in movies television shows literature games and other popular culture formats aimed at these younger audiences focusing particularly on the impact these portrayals have on these audiences as future decision makers *The Battle For China's Past* Mobo Gao, 2008-02-20 Shows that the Mao era was beneficial for most Chinese citizens A powerful mixture of political passion and original research a brave polemic against the fashionable view on China Aims a knockout blow at Jung Chang's recent book on Mao which Bush and the conservatives rave reviewed Gregor Benton Professor of Chinese History University of Cardiff This important book opens a much needed window onto Chinese perceptions of the country's post Mao direction Highlights the renewal of popular support for socialism and the growing opposition to contemporary state policies Martin Hart Landsberg Professor of Economics Lewis Clark College Portland Oregon Mao and his policies have long been demonised in the West with the Cultural Revolution considered a fundamental violation of human rights As China embraces capitalism the Mao era is being surgically denigrated by the Chinese political and intellectual elite This book tackles the extremely negative depiction of China under Mao in recent publications and argues most people in China including the rural poor and the urban working class actually benefited from Mao's policy of a comprehensive welfare system for the urban and basic health and education provision for the rural which is being reversed in the current rush towards capitalism By a critical analysis of the mainstream account of the Mao era and the Cultural Revolution and by revealing what is offered in the unofficial e media debates this book sets the record straight making a convincing argument for the positive effects of Mao's policies on the well being of the Chinese people

**Errand into the Wilderness of Mirrors** Michael Graziano, 2023-08-04 Reveals the previous underexplored influence of religious thought in building the foundations of the CIA Michael Graziano s intriguing book fuses two landmark titles in American history Perry Miller s *Errand into the Wilderness* 1956 about the religious worldview of the early Massachusetts colonists and David Martin s *Wilderness of Mirrors* 1980 about the dangers and delusions inherent to the Central Intelligence Agency Fittingly *Errand into the Wilderness of Mirrors* investigates the dangers and delusions that ensued from the religious worldview of the early molders of the Central Intelligence Agency Graziano argues that the religious approach to intelligence by key OSS and CIA figures like Wild Bill Donovan and Edward Lansdale was an essential and overlooked factor in establishing the agency s concerns methods and understandings of the world In a practical sense this was because the Roman Catholic Church already had global networks of people and safe places that American agents could use to their advantage But more tellingly Graziano shows American intelligence officers were overly inclined to view powerful religions and religious figures through the frameworks of Catholicism As Graziano makes clear these misconceptions often led to tragedy and disaster on an international scale By braiding the development of the modern intelligence agency with the story of postwar American religion *Errand into the Wilderness of Mirrors* delivers a provocative new look at a secret driver of one of the major engines of American power
