Modern British Writing:

The Modern British Novel Malcolm Bradbury, 2001 Bradbury argues that almost a century since the emergence of Modernism it is now possible to see the entire period in perspective It is clear that the first 50 years from Henry James Wilde and Stevenson through James Joyce Lawrence Forster to Huxley Isherwood and Orwell have been extensively discussed in print The years since World War II though have not been examined in depth yet have produced talents such as Graham Greene Angus Wilson Beckett Doris Lessing Margaret Drabble Angela Carter Ian McEwan Kingsley and Martin Amis Julian Barnes Fay Weldon Salman Rushdie and Timothy Mo *Modern British Literature*, 1967 *Modern British Nature Writing, 1789-2020* Will Abberley, Christina Alt, David Higgins, Graham Huggan, Pippa Marland, 2022-03-17 This first full length study of modern British nature writing is timely and invaluable for literary scholarship in the environmental crisis **Modern British Women Writers** Vicki K. Janik, Del Ivan Janik, 2002-11-30 The 20th century witnessed several major cultural movements including modernism anti modernism and postmodernism These and other means of understanding and perceiving the world shaped the literature of that era and with the rise of feminism resulted in a particularly rich body of literature by women writers This reference includes alphabetically arranged entries on 58 British women writers of the 20th century Some of these writers were born in England while others such as Katherine Mansfield and Doris Lessing came from countries of the former Empire or Commonwealth The volume also includes entries for women of color such as Kamala Markandaya and Buchi Emecheta Each entry is written by an expert contributor and includes an overview of the writer's background an analysis of her works an assessment of her achievements and lists of primary and secondary sources The volume closes with a selected general bibliography *Housing, Class and Gender in Modern British Writing, 1880-2012* Emily Cuming, 2016-08-24 The author demonstrates how depictions of domestic space tell stories of class gender social belonging and exclusion Modern British Writing. Edited by D.V. Baker. [An Anthology.] Denys Val Baker, 1947 *The New Pastoral in Contemporary British Writing* Deborah Lilley, 2019-10-10 This book identifies a major turn in contemporary British literature in response to environmental crisis It argues that the pastoral is emerging as a new critical framework in which to explore the understanding of people and place in this context The New Pastoral in Contemporary British Writing explores how the pastoral tradition has transformed as authors respond to our changing relationships with place in this period Analysing the features common to new pastoral writing it brings together a corpus of works from major authors including Ali Smith Jim Crace John Burnside Kathleen Jamie and Robert Macfarlane This book argues that crises such as pollution and climate change have shifted our understandings of the key relationships of pastoral and the terms upon which they are based giving new senses to its older oppositions between the human and the natural the urban and the rural and the past and the present Furthermore it shows that the versions of pastoral that ensue align with current ecocritical arguments produced by thinking through the individual cultural and ecological implications of environmental crisis As a result pastoral

emerges as the crucial strategy in the re imagining of the environment underway in contemporary British writing the resurgence of interest in nature writing the increasing attention towards place in literary fiction and the development of ecological or climate fiction This book will be of great interest to students and scholars of English as well as those concerned with the interdisciplinary topics of the environmental humanities including literary geographies new nature writing cultures of climate change and the Anthropocene and ecologically oriented theory

The Cambridge Companion to Modern British Culture Michael Higgins, Clarissa Smith, John Storey, 2010-08-19 British culture today is the product of a shifting combination of tradition and experimentation national identity and regional and ethnic diversity These distinctive tensions are expressed in a range of cultural arenas such as art sport journalism fashion education and race This Companion addresses these and other major aspects of British culture and offers a sophisticated understanding of what it means to study and think about the diverse cultural landscapes of contemporary Britain Each contributor looks at the language through which culture is formed and expressed the political and institutional trends that shape culture and at the role of culture in daily life This interesting and informative account of modern British culture embraces controversy and debate and never loses sight of the fact that Britain and Britishness must always be understood in relation to the increasingly international context of globalisation

looks back at the picaresque with its Spanish roots and especially with its tradition in English literature then it comes to contemporary times and identifies elements of the picaresque in contemporary novels The main thesis of the author is that the picaresque has never left the literary scene in Britain being an aesthetic invariant which expresses a natural inclination of the British authors towards the picaresque story Postcolonial authors also favour this genre as a consequence of their own literary tradition which includes particular variants of the picaresque and as a result of their own situation as immigrant displaced authors which gives them material for stories of displaced characters rogues The study rigorously identifies the sources of the contemporary protocols of the picaresque as well as a few variants of picaresque stories in a selection of novels the author accounts for theoretically **The New Cambridge Bibliography of English Literature: Volume 4,**
