Modern Canadian Childrens:

Depicting Canada's Children Loren Lerner, 2011-04-07 Depicting Canada's Children is a critical analysis of the visual representation of Canadian children from the seventeenth century to the present. Recognizing the importance of methodological diversity, these essays discuss understandings of children and childhood derived from depictions across a wide range of media and contexts. But rather than simply examine images in formal settings, the authors take into account the components of the images and the role of image making in everyday life. The contributors provide a close study of the evolution of the figure of the child and shed light on the defining role children have played in the history of Canada and our assumptions about them. Rather than offer comprehensive historical coverage, this collection is a catalyst for further study through case studies that endorse innovative scholarship. This book will be of interest to scholars in art history, Canadian history, visual culture, Canadian studies, and the history of children.

Children in English-Canadian Society Neil Sutherland, Cynthia R. Comacchio, 2006-01-01 So often a long-awaited book is disappointing. Happily, such is not the case with Sutherland's masterpiece. Robert M. Stamp, University of Calgary, in *The Canadian Historical Review*. Sutherland's work is destined to be a landmark in Canadian history, both as a first in its particular field and as a standard reference text. J. Stewart Hardy, University of Alberta, in *Alberta Journal of Educational Research*. Such were the reviewers' comments when Neil Sutherland's groundbreaking book was first published. Now reissued in Wilfrid Laurier University Press's new series *Studies in Childhood and Family in Canada* with a new introduction by series editor Cynthia Comacchio, this book remains relevant today. In the late nineteenth century, a new generation of reformers committed itself to a program of social improvement based on the more effective upbringing of all children. In *Children in English-Canadian Society*, Neil Sutherland examines with a keen eye the growth of the public health movement and its various efforts at improving the health of children.

Picturing Canada Gail Edwards, Judith Saltman, 2014-07-31 The study of children's illustrated books is located within the broad histories of print culture, publishing, the book trade, and concepts of childhood. An interdisciplinary history, *Picturing Canada* provides a critical understanding of the changing geographical, historical, and cultural aspects of Canadian identity as seen through the lens of children's publishing over two centuries. Gail Edwards and Judith Saltman illuminate the connection between children's publishing and Canadian nationalism, analyse the gendered history of children's librarianship, identify changes and continuities in narrative themes and artistic styles, and explore recent changes in the creation and consumption of children's illustrated books. Over 130 interviews with Canadian authors, illustrators, editors, librarians, booksellers, critics, and other contributors to Canadian children's book publishing document the experiences of those who worked in the industry. An important and wholly original work, *Picturing Canada* is fundamental to our understanding of publishing history and the history of childhood itself in Canada.

W. Sullivan III, 1999-03-30 At the close of the nineteenth century American youths developed a growing interest in electricity and its applications machines and gadgetry When authors and publishers recognized the extent of this interest in technology they sought to create reading materials that would meet this market need The result was science fiction written especially for young adults While critics tended to neglect young adult science fiction for decades they gradually came to recognize its practical and cultural value Science fiction inspired many young adults to study science and engineering and helped foster technological innovation At the same time these works also explored cultural and social concerns more commonly associated

with serious literature Nor was young adult science fiction a peculiarly American phenomenon authors in other countries likewise wrote science fiction for young adult readers This book examines young adult science fiction in the U S and several other countries and explores issues central to the genre The first part of the book treats the larger contexts of young adult science fiction and includes chapters on its history and development Included are discussions of science fiction for young adults in the U S and in Canada Great Britain Germany and Australia These chapters are written by expert contributors and chart the history of young adult science fiction from the nineteenth century to the present The second section of the book considers topics of special interest to young adult science fiction Some of the chapters look at particular forms and expressions of science fiction such as films and comic books Others treat particular topics such as the portrayal of women in Robert Heinlein s works and representations of war in young adult science fiction Yet another chapter studies the young adult science fiction novel as a coming of age story and thus helps distinguish the genre from science fiction written for adult readers All chapters reflect current research and the volume concludes with extensive bibliographies

chapters focusing on suburban spaces the Cold War and its impact on young people ethnicity race and work the importance of play and recreation children s bodies health and sexuality and the night resistances and delinquency Reinforced throughout this manuscript is the fact that children and adolescents were not only affected by their suburban experiences but that they influenced the adult world in which they lived Oral histories from former community members and archival materials including school based publications form the backbone for a study that demonstrates that suburban life was diverse and filled with rich experiences for youngsters

Beyond Babar Sandra L. Beckett, Maria Nikolajeva, 2006-08-19 All too often attention is paid only to those children s novels that were written in English with non English language works being passed over and neglected Beyond Babar The European Tradition in Children s Literature examines eleven of the most celebrated European children s novels in substantial critical essays written by well known international scholars This approach provides a comprehensive discussion of the selected works from a variety of theoretical perspectives Each essay offers a critical introduction to the text that can serve as a point of departure for literary scholars professors of children s literature primary and secondary school teachers and librarians who are interested in texts that cross languages and cultures Beyond Babar is especially meant to assist instructors of children s literature who would like to use these texts in the classroom in order to begin to redress the English language dominance of many children s literature courses This volume will also be of interest to the general public as its ultimate aim is to bring to the attention of all English speaking readers the literature from other parts of the world in this case from Europe Beyond Babar helps to facilitate the border crossings of these European masterpieces of children s literature into the English speaking world

Home Words Mavis Reimer, 2009-08-01 The essays in Home Words explore the complexity of the idea of home through various theoretical lenses and groupings of texts One focus of this collection is the relation between the discourses of nation which often represent the nation as home and the discourses of home in children s literature which variously picture home as a dwelling family town or region psychological comfort and a place to start from and return to These essays consider the myriad ways in which discourses of home underwrite both children s and national literatures Home Words reconfigures the field of Canadian children s literature as it is usually represented by setting the study of English and French language texts side by side and by paying sustained attention to the diversity of work by Canadian writers for children including both Aboriginal peoples and racialized Canadians It builds on the literary histories bibliographical essays and biographical criticism that have dominated the scholarship to date and sets out to determine and establish new directions for the study of Canadian children s literature

Reference Sources for Canadian Literary Studies Joseph Jones, 2005-01-01 Reference Sources for Canadian Literary Studies offers the first full scale bibliography of writing on and in the field of Canadian literary studies Approximately one thousand annotated entries are arranged by reference genre with sub groupings related to literary genre

Windows and Words Susan-Ann Cooper, Aida Hudson, 2003 Windows and Words is a collection of seventeen essays that confirms and

celebrates the artistry of Canadian Children's Literature. There are essays that survey a wealth of English language fiction from the internationally acclaimed work of Lucy Maud Montgomery, the aboriginal adolescent novel, to the increasingly multicultural character of children's books. Others examine book illustration, visual literacy, and the creative partnership seen in the picture book and its art design. With contributions by two Governor General's Award-winning authors, Janet Lunn and Tim Wynne Jones, and a final commentary by Elizabeth Waterson, the heart of this collection offers a unique perspective on the artistry of writing for children and claims a rightful place for Canadian children's literature as literature.
