Chung,1998-04-27 Politics can be a profitable business as can be found in Republican era Canton amidst a politically fragmented China Competing merchant groups in Hong Kong sought to finance the regional Canton government in return for financial concessions This patronage system made commercial endeavours dependent on politics and embedded business in politics

[A History of the Chinese Communist Party](#) Stephen Uhalley,1988 *Global Space and the Nationalist Discourse of Modernity* Xiaobing Tang,1996-04-01 This book reexamines the historical thinking of Liang Qichao 1873 1929 one of the few modern Chinese thinkers and cultural critics whose appreciation of the question of modernity was based on first hand experience of the world space in which China had to function as a nation state It seeks to demonstrate that Liang was not only a profoundly paradigmatic modern Chinese intellectual but also an imaginative thinker of worldwide significance By tracing the changes in Liang s conception of history the author shows that global space inspired both Liang s longing for modernity and his critical reconceptualization of modern history Spatiality or the mode of determining spatial organization and relationships offers a new interpretive category for understanding the stages in Liang s historical thinking Liang s historical thinking culminated in a global imaginary of difference which became most evident in the shift from his earlier proposal for a uniform national history to one that mapped cultural history His reaffirmation of spatiality a critical concept overshadowed by the modernist obsession with time and history made it both necessary and possible for him to redesign the project of modernity Finally the author suggests that the reconciliation of anthropological space with historical time that Liang achieved makes him abundantly contemporary with our own time both inextricably modern and postmodern

Tradition of the Law and Law of the Tradition Xin Ren,1997-03-25 Traditionally social theorists in the West have

structured models of state social control according to the tenet that socialization is accomplished by means of external controls on behavior undesirable actions are punished and desirable actions result either in material reward or a simple respite from the oppressive attentions of an authoritarian state In this volume the author presents the tradition of law in China as an exception to the Western model of social control The Confucian bureaucracy that has long structured Chinese social life melded almost seamlessly with the Maoist revolutionary agenda to produce a culture in which collectivism and an internalized adherence to social law are in some respects congenital features of Chinese social consciousness Through her investigation of the Maoist concept of revolutionary justice and the tradition of conformist acculturation in China the author constructs a fascinating counterpoint to traditional Western arguments about social control

Explaining Chinese Democratization Shaohua Hu, 2000-01-30 Hu seeks to explain China's failure to establish a democratic system He demonstrates both continuity and change in China's democratization process Modern China regards power and wealth as primary goals and treats a strong state as a major means to these ends Such a preference puts democracy on a back burner Employing a theoretical framework which consists of five factors historical legacies local forces the world system socialist values and economic development Hu shows that while all of these factors were at work in all eras each assumes a special significance in a particular period Traditional China before the 1911 Revolution attempted to adjust itself to a new Western dominated world In the Republican era the control of local forces topped the political agenda Nationalist China sought to survive and develop in the world system while Maoist China set for itself the task of building a socialist state And of course economic development has been the priority of the Deng era As Hu shows these five factors have had determining impacts on the long struggle for democracy in China

by describing Zhang's personal situation, the social and intellectual milieu, and the political climate at the time. **Chiang Ching-kuo's Leadership in the Development of the Republic of China on Taiwan** Shao Chuan Leng, 1993. His papers presented in this work provide insight into the substantial role that Chiang played in the social and economic development of the republic. Topics include the historical setting for his rise to power, his decision for political reform, his policies toward mainland China and the outside world, a reassessment of his legacy, reflections on the man and his leadership, and a discussion of the society and economy of Taiwan.

Historical Dictionary of the Chinese Civil War Christopher R. Lew, Edwin Pak-wah Leung, 2013-07-29. The Chinese Civil War, which lasted several years or several decades depending on how you define it, was one of the most momentous wars of the 20th century for it determined the fate of the world's most populous country and was bitterly fought with millions of combatants involved and hundreds of millions of civilians affected. More to the point, it was won by the Chinese Communist Party under Mao Zedong, who imposed Communist rule, while the Nationalists retreated to Taiwan. It also heated up the Cold War for quite some time as the Communists were supported by the Soviet Union and the Nationalists by the United States. This second edition of the *Historical Dictionary of the Chinese Civil War* studies the longer, broader war and its chronology carefully, tracking the major events. The introduction then provides a broad overview, describing the contending forces and showing how the Communists came out on top. The details, and these are crucial, are laid out in over 200 cross-referenced dictionary entries dealing with the opposing forces and parties, the major campaigns and battles, the Long March, and of course, the leadership on both sides. This book, one of few such in English, provides a very solid basis for study, but that can be accomplished more effectively by consulting the titles listed in an extensive bibliography.

Failure, Nationalism, and Literature Jing Tsu, 2005. How often do we think of cultural humiliation and failure as strengths? Against prevailing views on what it means to enjoy power as individuals, cultures, or nations, this provocative book looks at the making of cultural and national identities in modern China, as building success on failure. It reveals the exercise of sovereign power where we least expect it and shows how this is crucial to our understanding of a modern world of conflict, violence, passionate suffering, and cultural difference.

External Intervention and the Politics of State Formation Ja Ian Chong, 2012-06-29. This book posits that when foreign actors face high opportunity costs of intervention in a weak state, their behavior may foster state sovereignty. This occurs as foreign actors work with local groups to avoid their worst fear: domination of the polity by rivals. Drawing from primary and secondary sources, Ja Ian Chong examines this argument by considering China, Indonesia, and Thailand between the late nineteenth and mid-twentieth centuries. The book augments existing perspectives on nationalism, sovereignty, and state formation by introducing insights from research on foreign intervention and local collaboration.

Party Vs. State in Post-1949 China Shiping Zheng, 1997-07-13. This book provides the most comprehensive analysis of one of the most important issues in China today: the tensions between the Chinese Communist Party and the Chinese state, legislative, judicial, administrative, and military.

institutions Taking the neo institutionalist approach the author suggests that the Communist Party in post 1949 China faces an institutional dilemma the Party cannot live with the state and it cannot live without the state Zheng demonstrates that it is not only conceptually constructive but analytically imperative to distinguish the state from the Communist Party Secondly he integrates detailed study with broader generalizations about Chinese politics thus making efforts to overcome the tendency toward specialized scholarship at the expense of comparative and systemic understanding of China He also opens a new dimension of Chinese politics the uncertain and conflictual relationship between the Communist Party and the Chinese state

The Study of Modern China Eberhard Sandschneider, 1999 This volume of essays has been written in honour of Jurgen Domes a scholar who has spent his academic life striving to interpret political developments in the People s Republic of China and in Taiwan Domes was one of the first political scientists to apply the analytical instruments of their discipline to the study of Chinese politics
