Provability Computability and Reflection **Encyclopedia of the Romantic Era, 1760-1850** Christopher John Murray, 2013-05-13 In 850 analytical articles this two volume set explores the developments that influenced the profound changes in thought and sensibility during the second half of the eighteenth century and the first half of the nineteenth century The Encyclopedia provides readers with a clear detailed and accurate reference source on the literature thought music and art of the period demonstrating the rich interplay of international influences and cross currents at work and to explore the many issues raised by the very concepts of Romantic and Romanticism *Frantic Panoramas* Nancy Bentley, 2012-05-23 Late nineteenth century America saw an explosion in mass culture from sensationalist tabloid newspapers to amusement parks to Wild West shows Historians and critics have traditionally observed the advent of mass culture as undermining literature's central role in the public sphere Literary writers of the time either reacted with a public show of disdain or retreated to conduct their own private experiments in style and form In *Frantic Panoramas* Nancy Bentley questions these narratives of opposition For literary writers Bentley explains the confrontation with mass culture was less a retreat than a transformation an ordeal through which habits of contemplative appreciation could be refashioned into new forms of critical thought By grappling with the energies that marked mass culture authors came to recognize kinds of human experience that were only then becoming visible as public William Dean Howells shaped the plots of his novels around tabloid events like rail and trolley accidents and the public chaos of apartment house fires Although Henry James was distressed at the way dime fiction had changed the very definition of literature his meditations on mass culture led him to reimagine the

novel as a collective workshop in which authors and readers jointly discovered new meaning Bentley offers close readings of these and other writers such as Edith Wharton James Weldon Johnson Pauline Hopkins and Gertrude Bonnin to demonstrate how leading artists took inspiration from commercial culture to create new and distinct literary forms Drawing on original archival research and a historically grounded theory of realism *Frantic Panoramas* is an innovative and comprehensive study of how the emergence of mass culture affected literary culture in America

Life of the Transcendental Ego Edward S. Casey, Donald V. Morano, 1986-06-30 The *Life of the Transcendental Ego* presents essays by a number of distinguished writers in the continental tradition of philosophy The essays include problems in transcendental philosophy the nature of autobiography the validity of existentialism the possibilities of phenomenology as well as focused discussions of concrete issues in aesthetics and ethics

An American Health Dilemma W. Michael Byrd, Linda A. Clayton, 2012-10-02 At times mirroring and at times shockingly disparate to the rise of traditional white American medicine the history of African American health care is a story of traditional healers root doctors granny midwives underappreciated and overworked African American physicians scrupulous and unscrupulous white doctors and scientists governmental support and neglect epidemics and poverty Virtually every part of this story revolves around race More than 50 years after the publication of *An American Dilemma* Gunnar Myrdal's 1944 classic about race relations in the USA *An American Health Dilemma* presents a comprehensive and groundbreaking history and social analysis of race race relations and the African American medical and public health experience Beginning with the origins of western medicine and science in Egypt Greece and Rome the authors explore the relationship between race medicine and health care from the precursors of American science and medicine through the days of the slave trade with the harrowing middle passage and equally deadly breaking in period through the Civil War and the gains of reconstruction and the reversals caused by Jim Crow laws It offers an extensive examination of the history of intellectual and scientific racism that evolved to give sanction to the mistreatment medical abuse and neglect of African Americans and other non white people Also included are biographical portraits of black medical pioneers like James McCune Smith the first African American to earn a degree from a European university and anecdotal vignettes like the tragic story of the Hottentot Venus which illustrate larger themes *An American Health Dilemma* promises to become an irreplaceable and essential look at African American and medical history and will provide an invaluable baseline for future exploration of race and racism in the

American health system Modern Latin-American Fiction Writers William Luis,1992 Annotation Thirty authors are thoroughly profiled in this new volume in the remarkable DLB series Annotation copyrighted by Book News Incorporated Portland OR **Medicine, Health and Being Human** Lesa Scholl,2018-05-11 Medicine Health and Being Human begins a conversation to explore how the medical has defined us that is the ways in which perspectives of medicine and health have affected cultural understandings of what it means to be human With chapters that span from the early modern period through to the contemporary world and are drawn from a range of disciplines this volume holds that incremental historical and cultural influences have brought about an understanding of humanity in which the medical is ingrained consciously or unconsciously usually as a mode of legitimisation Divided into three parts the book follows a narrative path from the integrity of the human soul through to the integrity of the material human body then finally brought together through engaging with end of life responses Part 1 examines the move from spirituality to psychiatry in terms of the way medical science has influenced cultural understandings of the mind Part 2 interrogates the role that medicine has played in the nineteenth and twentieth centuries in constructing and deconstructing the self and other including the fusion of visual objectivity and the scientific gaze in constructing perceptions of humanity Part 3 looks at the limits of medicine when the integrity of one body breaks down It contends with the ultimate question of the extent to which humanity is confined within the integrity of the human body and how medicine and the humanities work together toward responding to the finality of death This is a valuable contribution for all those interested in the medical humanities history of medicine history of ideas and the social approaches to health and illness The Nation ,1916 *The Cumulative Book Index* ,1998 A world list of books in the English language
